Global Twentieth An Anthology Of The 20th Af In Ww Ii Volume 1:

The Global Twentieth Chester Marshall,1992 Most Honorable Son Gregg Jones,2024-07-23 The first comprehensive biography of unjustly forgotten war hero Ben Kuroki a Japanese American farm boy from Nebraska who flew fifty eight combat missions fighting the Axis Powers during World War II and battled racism injustice and prejudice on the home front Foreword by Naomi Ostwald Kawamura of Densho Introduction by William Fujioka of JANM Afterword by Jonathan Eig Ben Kuroki was a twenty four year old Japanese American farm boy whose heritage was never a problem in remote Nebraska until Pearl Harbor Among the millions of Americans who flocked to military stations to enlist Ben wanted to avenge the attack reclaim his family honor and prove his patriotism But as anti Japanese sentiment soared Ben had to fight to be allowed to fight for America And fight he did As a gunner on Army Air Forces bombers Ben flew fifty eight missions spanning three combat theaters Europe North Africa and the Pacific including the climactic B 29 firebombing campaign against Japan that culminated with the atomic bombing of Hiroshima and Nagasaki He flew some of the war s boldest and bloodiest air missions and lived to tell about it In between his tours in Europe and the Pacific he challenged FDR s shameful incarceration of more than one hundred thousand people of Japanese ancestry in America and he would be credited by some with setting in motion the debate that reversed a grave national dishonor In the euphoric wake of America s victory the decorated war hero used his national platform to carry out what he called his fifty ninth mission urging his fellow Americans to do more to eliminate bigotry and racism at home Told in full for the first time and long overdue Ben s extraordinary story is a quintessentially American one of patriotism principle perseverance and courage It s about being in the vanguard of history the bonding of a band of brothers united in a just cause a timeless and unflinching account of racial bigotry and one man s transcendent sense of belonging in war in peace abroad and at home

The Ghosts of Iwo Jima Robert S. Burrell,2011-11-07 In February 1945 some 80 000 U S Marines attacked the heavily defended fortress that the Japanese had constructed on the tiny Pacific island of Iwo Jima Leaders of the Army Air Forces said they needed the airfields there to provide fighter escort for their B 29 bombers At the cost of 28 000 American casualties the 3rd 4th and 5th Marine Divisions dutifully conquered this desolate piece of hell with a determination and sacrifice that have become legendary in the annals of war immortalized in the photograph of six Marines raising the American flag on Mount Suribachi But the Army Air Forces fighter operations on Iwo Jima subsequently proved both unproductive and unnecessary After the fact a number of other justifications were generated to rationalize this tragically expensive battle Ultimately misleading statistics were presented to contend that the number of lives saved by B 29 emergency landings on Iwo Jima outweighed the cost of its capture In *The Ghosts of Iwo Jima* Captain Robert S Burrell masterfully reconsiders the costs of taking Iwo Jima and its role in the war effort His thought provoking analysis also highlights the greater contribution of Iwo Jima s valiant dead They inspired a reverence for the Marine Corps that proved critical to its institutional survival and its embodiment of American national spirit From the 7th War Loan

Campaign of 1945 through the flag raising at Ground Zero in 2001 the immortal image of Iwo Jima has become a symbol of American patriotism itself Burrell's searching account of this fabled island conflict will advance our understanding of World War II and its continuing legacy for the twenty first century At last the battle's ghosts may unveil its ultimate and most crucial lessons

B-29 "Double Trouble" Is "Mister Bee" Colonel Charles A. Jones, 2020-10-29 This book is the story of Elmer C Jones a young man who grew up during the Great Depression and who joined the military in 1943 becoming a member of the Army's Air Corps in 1944 He was the radar observer of a B 29 Superfortress bomber crew flying 28 combat missions over Japan in 1945 13 bombing missions and 15 photographic reconnaissance missions including the longest mission of the war 4 650 miles in 23 00 hours He accumulated 489 50 combat flying hours during the war

The Japanese War 1941-1945 Jeremy Black, 2007 **The B-29 Superfortress** Robert A. Mann, 2015-07-11 The B 29 Superfortress was for many years a cornerstone of American military aviation Best known as a bomber it also served in reconnaissance as a tanker and as a rescue plane It was a crucial tool for American and Allied forces during World War II Korea and beyond This operational history of the B 29 gives in depth information on the career of each plane A list of the names and serial numbers of the planes each plane's history from delivery date to removal from service a description of the B 29's physical characteristics and performance parameters and a description of the five B 29 variants are provided Sections of the book give complete mission data for the B 29's World War II service in the China Burma India theater of operations operations over Japan aerial mining missions and test atomic bombing runs

Field of Spears Gregory Hadley, 2007 The true story of a B 29 crew that was shot down over a rural Japanese village on July 20 1945 A gripping tale drawn from declassified historical documents never before seen photographs and interviews with both Japanese eyewitnesses and survivors of the B 29 crew

The Journal of Military History, 2004-10 **Subject Guide to Books in Print**, 1993 **A New Way of Seeing** Michael Sarnowski, 2025-06-04 A New Way of Seeing considers the poetry of five writers Louis Simpson Keith Douglas Richard Hugo Howard Nemerov and Randall Jarrell whose work draws on their activities as soldiers in World War II Basing his examination on extensive primary source research Michael Sarnowski identifies distance both literal and figurative and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed The book is structured on a gradient related to each poet's proximity to combat as the chapters in turn focus on an infantryman Simpson a tank commander Douglas a bombardier Hugo a pilot Nemerov and a stateside flight instructor Jarrell Sarnowski relies on a wealth of archival material overlooked by previous scholarship including poem drafts correspondence flight logs and personal belongings The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World War II soldiers as a Silent Generation in contrast to the outpouring of poetry published during and following the First World War By exploring how poets processed their wartime experiences A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical mental and psychological
