The Demand for Alcohol, Tobacco and Marijuana Saroja Selvanathan, Eliyathamby A. Selvanathan, 2017-11-30 This book is the first to present an extensive analysis of the international evidence for the similarities of the consumption patterns of such controversial commodities as alcohol tobacco and marijuana using recent data from a number of developed and less developed countries over a number of years The book also presents analysis of the consumption patterns of food in general and soft drinks in particular In addition the book provides a detailed analysis of the consumption restrictions and regulations in place in various countries in relation to issues associated with taxation availability and marketing of these products The book's focus is on rigorous empirical analysis and presents the estimates of demand elasticities of these five commodities across different countries Such estimates are key inputs for government economic models that are used for the purpose of social policy analysis Furthermore the book presents hypothesis testing results on various demand theory hypotheses such as demand homogeneity and Slutsky symmetry

Illicit Drug Policies, Trafficking, and Use the World Over Caterina Gouvis Roman, Heather Ahn-Redding, Rita J. Simon, 2007-01-01 Focusing specifically on cannabis cocaine and heroin the contributors to this volume present a brief history and analysis of the current laws and policies regarding illicit drugs widely considered to be a growing international health threat in 25 different countries *Illicit Drug Policies Trafficking and Use the World Over* provides a wide breadth of

valuable data and analysis for both scholars and students of this seemingly intractable social legal and political problem

Target-Centric Network Modeling Robert M. Clark, William L. Mitchell, 2015-03-12 In *Target Centric Network Modeling Case Studies in Analyzing Complex Intelligence Issues* authors Robert Clark and William Mitchell take an entirely new approach to teaching intelligence analysis Unlike any other book on the market it offers case study scenarios using actual intelligence reporting format along with a tested process that facilitates the production of a wide range of analytical products for civilian military and hybrid intelligence environments Readers will learn how to perform the specific actions of problem definition modeling target network modeling and collaborative sharing in the process of creating a high quality actionable intelligence product The case studies reflect the complexity of twenty first century intelligence issues Working through these cases students will learn to manage and evaluate realistic intelligence accounts

Impact of Market Forces on Addictive Substances and Behaviours David Miller, Claire Harkins, Matthias Schlögl, Brendan Montague, 2018 First hand account of the current state of addiction governance in Europe utilising a unique dataset of corporate memberships and networks across the EU to document the overall architecture of corporate political activity and the role addictive substance and behaviour producing industries play in influencing addiction policy in Europe

Drug Abuse: Prevention and Treatment Mangai Natarajan, 2017-05-15 Ever since the Shanghai convention in 1909 the threat posed to human well being by drug abuse has led countries around the world to take action to deal with their drug problems There are wide variations in the policies pursued but most countries try to reduce both the supply of and the demand for drugs Unfortunately there is little research consensus on the respective merits of these two approaches or about the best ways to pursue them Consequently control and prevention policies are mostly driven by political considerations economic realities and cultural expectations though research has played an important part in formulating and evaluating treatments for drug addiction This volume reviews studies on drug abuse prevention and treatment strategies under five main areas 1 Reducing supply strategies to control the flow of drugs from production to retail distribution 2 Reducing demand prevention of drug use at all stages of involvement and consumption levels 3 Reducing harm promoting situational risk reduction practices for regular users addicts and recreational users 4 Reducing addiction drug treatment options for various groups in various settings and 5 Drug policies and prescriptions focused on debates about prohibition and legalization

Security and Environment in the Mediterranean Hans Günter Brauch, Peter H. Liotta, Antonio Marquina, Paul F. Rogers, Mohammad El-Sayed Selim, 2012-12-06 In this volume security specialists peace researchers environmental scholars demographers as well as climate desertification water food and urbanisation specialists from the Middle East and North Africa Europe and North America review security and conflict prevention in the Mediterranean They also analyse NATO's Mediterranean security dialogue and offer conceptualisations on security and perceptions of security challenges as seen in North and South The latter half of the book analyses environmental security and conflicts in the Mediterranean and environmental consequences of World War II the Gulf War the Balkan wars

and the Middle East conflict It also examines factors of global environmental change population growth climate change desertification water scarcity food and urbanisation issues as well as natural disasters Furthermore it draws conceptual conclusions for a fourth phase of research on human and environmental security and peace as well as policy conclusions for cooperation and partnership in the Mediterranean in the 21st century **Drugs, Crime and Violence** Howard

Rahtz,2012-08-16 Forty years ago President Richard Nixon declared a war on drugs Since that time the country has incarcerated thousands of citizens and spent billions of dollars and yet the drug problem rolls on Today the illegal drug market funds international terrorism the horrific drug war on the Mexican border and the senseless violence plaguing our communities large and small It is past time for a new direction This book provides a drug policy framework that will choke off the revenue supporting the illegal drug market Howard Rahtz outlines a series of drug policy steps buttressed by a historical review of drug policy measures a review of international efforts against trafficking and a clear understanding of the dynamics of addiction and its role in facilitating the illegal drug market **Cocaine Trafficking in Latin America** Sayaka

Fukumi,2016-05-23 The post Cold War world has seen the emergence of new kinds of security threats Whilst traditionally security threats were perceived of in terms of military threats against a state non traditional security threats are those that pose a threat to various internal competencies of the state and its identity both home and abroad The European Union and the United States have identified Latin American cocaine trafficking as a security threat but their policy responses to it have differed This book examines the ways in which the EU and the US have conceptualized this threat Furthermore it explores the impact of cocaine trafficking on four state functions economic political public order and diplomatic in order to explain why it has become securitized Appealing to a variety of university courses this book is especially relevant to security studies and European and US policy analysis as well as criminology and sociology **Crime and Technology** Ernesto U.

Savona,2013-06-05 Guido Rossi As Chairman of ISPAC I want to thank all the contributors to this book that originates from the International Conference on Crime and Technology This could be the end of my presentation if I did not feel uneasy not considering one of the problems I believe to be pivotal in the relationship between crime and technology I shall also consider that the same relationship exists between terror and globalization while globalization is stemming from technology and terror from crime Transnational terrorism is today made possible by the vast array of communication tools But the paradox is that if globalization facilitates terrorist violence the fight against this war without borders is potentially disastrous for both economic development and globalization Antiterrorist measures restrict mobility and financial flows while new terrorist attacks could lead the way for an antiglobalist reaction But the global society has yet to agree on a common definition of terrorism or on a common policy against it The ordinary traditional criminal law is still depending on the sovereignty of national states while international criminal justice is only a spotty and contested last resort The fragmented and weak international institutions and underdeveloped civil societies have no power to enforce criminal justice against terrorism At the

same time the states that are its targets have no interest in applying the laws of war the Geneva Conventions to their fight against terrorists

Drugs and Addictive Behaviour Hamid Ghodse, 2002-10-24 In this completely revised and updated third edition of his highly successful book Hamid Ghodse presents a comprehensive overview of substance misuse and dependence There is a particular emphasis on practical evidence based approaches to the assessment and management of a wide range of drug related problems in a variety of clinical settings and he has written an entirely new chapter on alcohol abuse He defines all the terms and describes the effects of substance misuse on a patient s life Epidemiology and international prevention and drug control policies are covered to address the global nature of the problem and the appendix provides a series of clinical intervention tools among them a Substance Misuse Assessment Questionnaire This will be essential reading for all clinicians and other professionals dealing with addiction from counsellors and social workers to policy makers

The World Heroin Market Letizia Paoli, Victoria A. Greenfield, Peter Reuter, 2009-04-10 Heroin is universally considered the world s most harmful illegal drug This is due not only to the damaging effects of the drug itself but also to the spread of AIDS tied to its use Burgeoning illegal mass consumption in the 1960s and 1970s has given rise to a global market for heroin and other opiates of nearly 16 million users The production and trafficking of opiates have caused crime disease and social distress throughout the world leading many nations to invest billions of dollars trying to suppress the industry The failure of their efforts has become a central policy concern Can the world heroin supply actually be cut and with what consequences The result of a five year long research project involving extensive fieldwork in six Asian countries Colombia and Turkey this book is the first systematic analysis of the contemporary world heroin market delving into its development and structure its participants and its socio economic impact It provides a sound and comprehensive empirical base for concluding that there is little opportunity to shrink the global supply of heroin in the long term and explains why production is concentrated in a handful of countries and is likely to remain that way On the basis of these findings the authors identify a key set of policy opportunities largely local and make suggestions for leveraging them This book also offers new insights into market conditions in India Tajikistan and other countries that have been greatly harmed by the production and trafficking of illegal opiates A deft integration of economics sociology history and policy analysis The World Heroin Market provides a rigorous and vital look into the complex and resilient global heroin trade
