Global Strategy and the Organization Anil K. Gupta, Vijay Govindarajan, 2004 A STRATEGIC FRAMEWORK FOR GLOBAL DOMINANCE In the battle for global dominance only those organizations that lead the ongoing globalization of their industries will succeed That s why students need a strategic framework that they can apply in a global setting In GLOBAL STRATEGY AND ORGANIZATION awarding winning scholars and teachers Anil L Gupta and Vijay Govindarajan focus on the four essential tasks for transforming a company in a global success Identify market opportunities worldwide and pursue those opportunities by establishing the necessary presence in all key markets Convert global presence into global competitive advantage Cultivate a global mindset Strive to reinvent the rules of the global game Each chapter focuses on a specific action oriented issue Reports on the activities of real firms such as Wal Mart Dell Computer and Canon provide insights into the challenges associated with globalization and illustrate the author s findings

Fundamentals of Global Strategy Cornelis A. de Kluyver, 2010-08-20 The globalization of the competitive landscape has forced companies to fundamentally rethink their strategies Whereas once only a few industries such as oil could be labeled truly global today many from pharmaceuticals to aircraft to computers have become global in scale and scope As a consequence creating a global competitive advantage has become a key strategic issue for many companies Crafting a global strategy requires making decisions about which strategy elements can and should be globalized and to what extent

Global Strategy Andrew Inkpen, Kannan Ramaswamy, 2005-11-24 There are few industries if any untouched by global competitive forces Firms and countries long accustomed to dominance in their respective international markets must now reckon with aggressive and innovative competitors from all corners of the world As the cross border flow of people knowledge ideas products services and management practices accelerates the notion of home based advantage is becoming weaker Unlike their domestic counterparts firms competing across borders must deal with differences in political legal financial cultural governance and macroeconomic contexts These contextual differences shape competition in international strategy and make the study of international strategy more than just a simple extension of classic strategic analysis Global Strategy deals with the question of how firms can compete in a global environment Andrew Inkpen and Kannan Ramaswamy examine the issues considered central to the study of strategic management in a global context such as the nature of global advantage strategic alliances competing in emerging markets international corporate governance global knowledge management and ethical issues in international business Much as been written about the relevance of global regional and domestic strategies to counter competition from overseas and as a means to enter foreign markets However lobal Strategy takes a broader view organizing itself around a set of strategic management issues that arise specifically because a firm is international While there is obviously some overlap between domestic strategic management and global strategic management it is Inkpen and Ramaswamy s contention that the differences between domestic and global strategy warrant specific attention By integrating
