Globalisation Global Justice And Social Work:

Globalisation, Global Justice and Social Work Iain Ferguson, Michael Lavalette, Elisabeth Whitmore, 2005-08-15

Globalization has become a seemingly unstoppable force over recent decades and in its wake global notions of social justice have developed in response to its negative aspects. Neo liberal economic policies have been a key element in the wider process of globalization and these policies have had a profound impact on welfare provision and the shape of social work practice. Arising dissatisfaction among users of welfare and social work services is fuelling the search for a new more radical social work that is firmly rooted in principles of social justice. *Globalisation Global Justice and Social Work* explores the global effects of neo liberal policies on welfare services in different countries with contributions from social work academics, practitioners and welfare activists around the world. The first section of the book presents case studies of impact of neo liberalism on welfare systems, social service provision and the practice of social work. In the second section the chapters explore the relationship between social work practice and the struggle for social justice. Authors discuss the personal and political dilemmas they have had to address in seeking to link a personal commitment to social justice with their daily practice as workers and educators in social work. The final section assesses the prospects for social work practice based on notions of social justice by looking at what can be learned from the experience of previous radical movements as well as from emergent global and local movements.

Social Work with Children and Families Steve Rogowski, 2016-04-20 Professional social work has changed considerably over the last forty years coinciding with the demise of the social democratic consensus of the post war years and the emergence and now domination of neoliberalism Rather than the state through the government of the day ensuring citizens basic needs were met via the welfare state the belief in free market economics entails people having to be self reliant and self responsible This has involved social work with children and families moving from a helping and supportive role to one that is more authoritarian this often involving telling parents to change their behaviour and lifestyle or face the consequences This book outlines the development of social work with children and families over the period in question drawing on the author's unique practice experience and his extensive writings It charts the highs and lows of social work the latter including the dominance of managerialism which emphasises speedy completion of bureaucracy so as to ration resources and assess manage risk Despite this the argument is for a critical practice which addresses service users immediate needs while simultaneously aiming towards a more socially just and equal society This book is essential reading for everyone interested in social work including academics students practitioners and managers both in the UK and overseas Social care and allied professionals more generally will also find it insightful as will academics students and educators of social policy and related disciplines *Radical Social Work in Practice* Iain Ferguson, Rona Woodward, 2009-05-14

APPROVED BY AUTHOR Radical social work is a tradition often identified exclusively with the movement which developed in the UK in the 1970s However this much needed new textbook the first student text devoted to radical social work demonstrates that the relevance of radical approaches to contemporary social work practice have never been stronger Challenges to a neoliberal approach to social work have been gaining ground academically and with practitioners This book provides a true vision of the radical tradition and shows how it can be developed in contemporary social work Using case

studies and a problem based learning approach to illustrate the type of dilemmas faced by workers in their day to day practice the book sets out the ways in which a radical social work approach can inform constructive responses It emphasises the need to understand the diverse lives of service users encouraging readers to share experience and knowledge and to discuss past and present events to build confidence in tackling injustice at individual and societal levels As many social workers are becoming disillusioned and dissatisfied with the bureaucracy and regulation in the profession this book promotes a practice that is rooted in a commitment to positive change and to social justice that will offer a breath of fresh air to students and practitioners alike

web 4 functions of several variables a function of two variables $f(x, y)$ is a rule which assigns to two numbers x and y a third number $f(x, y)$ for example the function $f(x, y) = x^2y + 2xy^2$ assigns to $(3, 2)$ the number $3^2 \cdot 2 + 2 \cdot 3 \cdot 2^2 = 6 + 24 = 30$ the domain of a function is set of points where it is defined the range is $\{f(x, y) \mid (x, y) \in D\}$
