**Race and the Politics of Deception** Christopher Mele, 2017-01-10 What is the relationship between race and space and how do racial politics inform the organization and development of urban locales In *Race and the Politics of Deception* Christopher Mele unpacks America's history of dealing with racial problems through the inequitable use of public space Mele focuses on Chester Pennsylvania a small city comprised of primarily low income black residents roughly twenty miles south of Philadelphia Like many cities throughout the United States Chester is experiencing post industrial decline A development plan touted as a way to save the city proposes to turn one section into a desirable waterfront destination while leaving the rest of the struggling residents in fractured communities Dividing the city into spaces of tourism and consumption versus the everyday spaces of low income residents Mele argues segregates the community by creating a racialized divide While these development plans are described as socially inclusive and economically revitalizing Mele asserts that political leaders and real estate developers intentionally exclude certain types of people most often low income people of color *Race and the Politics of Deception* provides a revealing look at how our ever changing landscape is being strategically divided along lines of class and race Routledge Handbook of Southeast Asian Development Andrew McGregor, Lisa Law, Fiona

Claire Cutler, 2014-02-06 This path breaking collection analyses the dialectic between legal and constitutional innovations intended to inscribe corporate power and market disciplines in world order and the potential for challenges and alternative frameworks of governance to emerge It provides a comprehensive approach to neo liberal constitutionalism and regulation and limits to policy autonomy of states and how this disciplines populations according to the intensifying demands of corporations and market forces in global market civilization Contributors examine global and local public policy challenges and consider if the ongoing crises of capitalism and world order offer states and societies opportunities to challenge this loss of policy autonomy and potentially to refashion world order Integrating approaches to governance and world order from both leading and emerging scholars this is an innovative indispensable source for policy makers civil society organizations professionals and students in law politics economics sociology philosophy and international relations      *Protest Inc.* Peter Dauvergne, Genevieve LeBaron, 2014-02-18 Mass protests have raged since the global financial crisis of 2008 Across the world students and workers and environmentalists are taking to the streets Discontent is seething even in the wealthiest countries as the world saw with Occupy Wall Street in 2011 Protest Inc tells a disturbingly different story of global activism As millions of grassroots activists rally against capitalism activism more broadly is increasingly mirroring business management and echoing calls for market based solutions The past decade has seen nongovernmental organizations partner with oil companies like ExxonMobil discount retailers like Walmart fast food chains like McDonald s and brand manufacturers like Nike and Coca Cola NGOs are courting billionaire philanthropists branding causes and turning to consumers as wellsprings of reform Are career activists selling out to pay staff and fund programs Partly But far more is going on Political and socioeconomic changes are enhancing the power of business to corporatize activism including a worldwide crackdown on dissent a strengthening of consumerism a privatization of daily life and a shifting of activism into business style institutions Grassroots activists are fighting back Yet even as protestors march and occupy cities more and more activist organizations are collaborating with business and advocating for corporate friendly solutions This landmark book sounds the alarm about the dangers of this corporatizing trend for the future of transformative change in world politics
