Markham, Zeyneb Sayilgan, 2017-08-24 Contemporary Islamic theology remains a neglected area in studies on Islam This work is dedicated to the thought and ideas of Said Nursi 1876 1960 one of the most prominent Muslim theologians of the twentieth century Nursi inspired a faith movement the Nur community that originated in Turkey It continues to play a key role in the revival of Islam and now numbers several millions of followers worldwide His legacy and impact deserve therefore to be examined more closely This volume is the most substantial overview in English of the inspiration of Said Nursi and his masterpiece the Risale i Nur In the beginning the essays provide the reader with Nursi s historical context and biography Then Nursi s theological views his understanding of society and ideas on politics are placed under the spotlight Over the last twenty years more and more comparative religion specialists in the West have become acquainted with Said Nursi Nursi studies is now an established discipline and this volume is a celebration of that reality As it reveals Muslims and Christians are grappling with the wisdom of this remarkable rich thinker **Religious Pluralism, Globalization, and World Politics** Thomas Banchoff, 2008-11-26 Religious pluralism is everywhere in today s politics Increased immigration flows the collapse of communism and the globalization of communications technologies have all fostered a wider variety of religious beliefs practices and organizations within and across democratic societies This is true in both the United States and Europe where growing and diverse minority communities are transforming the political landscape As a result controversies over such things as headscarves and depictions of Mohammed are unsettling a largely secular Europe while a Christian majority in the US faces familiar questions about church state relations amidst unprecedented religious diversity Far from receding into the background religious language pervades arguments around established issues such as abortion and capital punishment and new ones such as stem cell research and same sex marriage In Democracy and the New Religious Pluralism leading scholars from multiple disciplines explore these dynamics and their implications for democratic theory and practice What are the contours of this new religious pluralism What are its implications for the theory and practice of democracy Does increasing religious pluralism erode the cultural and social foundations of democracy To what extent do different religious communities embrace similar or at least compatible ethical and political commitments By seeking answers to these questions and revealing religious pluralism as both a source of animosity and a potent force for peaceful engagement this book offers a revealing look at the future of religion in democratic societies *Renewing Islam by*

*Service* Pim Valkenberg, 2015-07 *Renewing Islam by Service* offers a theological account of the contemporary Turkish faith based service movement started by Fethullah G len and placed against the backdrop of changes in modern Turkish society The life and works of G len are analyzed against the background of developments in Turkish society and of spiritual Islamic tendencies in the transition from the Ottoman empire to the secular republic Pim Valkenberg includes stories of his personal experiences with supporters of this movement in a number of different countries and analyzes the spiritual practices and the faith based service of this movement that is also compared to some important Christian religious movements *Engaging with Bediuzzaman Said Nursi* Ian S. Markham, 2016-04-29 Too often interfaith dialogue is generic and unfocused Often it involves liberals from each tradition coming together to criticize the conservatives in their own traditions This book provides a model for interfaith dialogue that challenges very directly the dialogue industry This book involves a Christian theologian in deep conversation with a Muslim theologian Bediuzzaman Said Nursi 1877 1960 was born at the end of the Ottoman Empire and lived through the emergence of an aggressive secular state He had to think through in remarkably creative ways the challenge of faith within a secular environment the relationship of faith and politics and the implications and challenge of diversity and difference His entire project is captured in his magnum opus *The Risale i Nur* In the first eight chapters of this book we engage closely with the thought of Nursi and tease out insights that Christians can learn from and accommodate Having established the method the second section of the book examines the precise implications for the interfaith movement The problem with the interfaith movement is that it is an act of western cultural imperialism they are taking the individualist assumptions of modern America and imposing them on the conversation The problems with John Hick s and Leonard Swidler s approach are exposed Moving out from Islam the book then demonstrates how the model of interfaith changes when Christians are in conversation with Hinduism in India A new set of Dialogue Ten Commandments are suggested The book concludes with an appeal for a commitment to include and reach the conservatives in the major religious traditions **Islam in Turkey: Oxford Bibliographies Online Research Guide** Oxford University Press, 2010-05-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In Islamic studies as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is a static version of an article from Oxford Bibliographies Online Islamic Studies a dynamic continuously updated

Religion and Democratizations Jeffrey Haynes, 2013-09-13 This book examines key debates on religion and democratization from three main perspectives Religious traditions have core elements which are more or less conducive to democratization and democracy Religious traditions may be multi-vocal but at any moment there may be dominant voices more or less receptive to and encouraging of democratization Religious actors rarely if ever determine democratization outcomes However they may in various ways and

with a range of outcomes be of significance for democratization The contributions are divided into two sections 1 Religion democratization and democracy and 2 Secularization democratization and democracy Overall they examine the three assertions in the bullet points above The book's starting point is that in general around the world religions have left their assigned place in the private sphere This means they have in many cases become recognisably politically active in various ways and with assorted outcomes This re emergence from political marginality dates back until at least the 1980s At that time the US sociologist Jose Casanova noted that what was new and became news was the widespread and simultaneous refusal of religions to be restricted to the private sphere This involved a remodelling and re assumption of public roles by religion which theories of secularisation had long condemned to social and political marginalisation This book was published as a special issue of Democratization

Walton, 2017-04-03 The sway of Islam in political life is an unavoidable topic of debate in Turkey today Secularists Islamists and liberals alike understand the Turkish state to be the primary arbiter of Islam's place in Turkey as the coup attempt of July 2016 and its aftermath have dramatically illustrated Yet this emphasis on the state ignores the influence of another field of political action in relation to Islam that of civil society Based on ethnographic research conducted in Istanbul and Ankara Muslim Civil Society and the Politics of Religious Freedom in Turkey is Jeremy F Walton's inquiry into the political and religious practices of contemporary Turkish Muslim Nongovernmental Organizations Since the mid 1980s Turkey has witnessed an efflorescence of NGOs in tandem with a neoliberal turn in domestic economic policies and electoral politics One major effect of this neoliberal turn has been the emergence of a vibrant Muslim civil society which has decentered and transformed the Turkish state's relationship to Islam Muslim NGOs champion religious freedom as a paramount political ideal and marshal a distinctive nongovernmental politics of religious freedom to advocate this ideal Walton's accomplished study offers a fine grained perspective on this nongovernmental politics of religious freedom and the institutions and communities from which it emerges
