Lavinia Fontana's Mythological Paintings Liana De Girolami Cheney,2020-08-18 This volume investigates emblematic and art historical issues in Lavinia Fontana s mythological paintings Fontana is the first female painter of the sixteenth century in Italy to depict female nudes as well as mythological and emblematic paintings associated with concepts of beauty and wisdom Her paintings reveal an appropriation of the antique a fusion between patronage and culture and a humanistic pursuit of Mannerist conceits Fontana s secular imagery provides a challenging paragone with the male tradition of history painting during the sixteenth century and paves the way for new subjects to be depicted and interpreted by female painters of the seventeenth century

The Puzzle of the Western Zodiac: Its Wisdom and Evolutionary Leaps Alex A. Gurshtein,2017-12-29 Though familiar to all the twelve strong Western Zodiac remains an enigmatic artifice of the archaic past To date no scholar has been able to determine who conjured up its constellations and when this might have happened

Nor do we know what the grand design behind this innovative endeavor might have been This book however goes a long way towards answering those questions by combining together a variety of clues from multiple disciplines including astronomy archaeology and linguistics It provides a comprehensive framework that greatly expands our understanding of the genesis and purposes of this remarkable intellectual relic of our cultural heritage The books overarching outcome that the zodiacal necklace in the sky appeared gradually over time in three different stages with each reflecting the immanent social and spiritual concerns of its time provides a fundamental impact to reconsider our understanding of prehistory No special knowledge is necessary to understand this captivating writing **Compendium of Practical Astronomy** Günter D.
