Gloucestershire Gentry:

Knights and Esquires Nigel Saul, 1981 Looking in detail at 14th century Gloucestershire the author examines the role of the gentry in their communities government military service and the economy Town and Countryside in Western Berkshire, C.1327-c.1600 Margaret Yates, 2007 A fresh examination of how society and economy changed at the end of the middle ages comparing urban and rural experience The traditional boundary between the medieval and early modern periods is challenged in this new study of social and economic change that bridges the fifteenth and sixteenth centuries It addresses the large historical questions what changed when and why through a detailed case study of western Berkshire and Newbury integrating the experiences of both town and countryside Newbury is of particular interest being a rising cloth manufacturing centre that had contacts with London and overseas due to its specialist production of kerseys The evidence comes from original documentary research and the data are clearly presented in tables and graphs It is a book alive with the actions of people famous men such as the clothier John Winchcombe known as Jack of Newbury but more notably by the hundreds of individuals such as William Eyston or Isabella Bullford who acquired property cultivated their lands or in the case of Isabella managed the mill complex after her husband's death MARGARET YATES is Lecturer in History at the University of Reading *Greater Medieval Houses of England and Wales, 1300-1500: Volume 3, Southern England* Anthony Emery, 2006-03-09 This is the third volume of Anthony Emery's magisterial survey *Greater Medieval Houses of England and Wales 1300 1500* first published in 2006 Across the three volumes Emery has examined afresh and reassessed over 750 houses the first comprehensive review of the subject for 150 years Covered are the full range of leading homes from royal and episcopal palaces to manor houses as well as community buildings such as academic colleges monastic granges and secular colleges of canons This volume surveys Southern England and is divided into three regions each of which includes a separate historical and architectural introduction as well as thematic essays prompted by key buildings The text is complemented throughout by a wide range of plans and diagrams and a wealth of photographs showing the present condition of almost every house discussed This is an essential source for anyone interested in the history architecture and culture of medieval England and Wales **Knights and esquires** Nigel Saul, 1981 Civil War, Interregnum and Restoration in Gloucestershire, 1640-1672 Andrew Richard Warmington, 1997 Dr Warmington's examination of the impact of the Civil War in Gloucestershire begins with the descent into war between 1640 and 1642 showing how the two sides formed and why the Parliamentarians had the more durable war machine He then goes on to consider the anarchic situation between 1645 and 1649 and the series of new experiments in government which followed until 1660 The book demonstrates how the war created an almost entirely new governing group of minor gentlemen based on military service to the regime and religious affiliations looks at the vexed question of the cultural dimensions of popular allegiance in the period and examines popular activity or lack of it in Gloucestershire's distinct regions of Vale Wold and Forest during the Civil War The attempted

rebellion of 1659 is examined in detail *Gloucestershire Notes and Queries* Beaver Henry Blacker,1884

Gloucestershire Notes and Queries William Phillimore Watts Phillimore,Sidney Joseph Madge,1887 **Cumberland, Westmorland, Gloucestershire** Audrey W. Douglas,Peter Greenfield,1986-01-01 The Records of Early English Drama volumes make available historical transcripts that provide evidence of early English drama music ceremonial dance and other forms of communal public entertainment in Britain from the Middle Ages to 1642 when the Puritans closed the London theatres **The Baronage in the Reign of Richard II, 1377-1399** Dr Keith E. Fildes,2009-03-26 **Transactions of the Bristol and Gloucestershire Archaeological Society** Anonymous,2024-06-18 Reprint of the original first published in 1876 **Gloucestershire Notes and Queries** ,1881 Commonwealth and the English Reformation Ben Lowe,2017-03-02 Whilst much recent research has dealt with the popular response to the religious change ushered in during the mid Tudor period this book focuses not just on the response to broad liturgical and doctrinal change but also looks at how theological and reform messages could be utilized among local leaders and civic elites It is this cohort that has often been neglected in previous efforts to ascertain the often elusive position of the common woman or man Using the Vale of Gloucester as a case study the book refocuses attention onto the concept of commonwealth and links it to a gradual but long standing dissatisfaction with local religious houses It shows how monasteries endowed initially out of the charitable impulses of elites increasingly came to depend on lay stewards to remain viable During the economic downturn of the mid Tudor period when urban and landed elites refocused their attention on restoring the commonwealth which they believed had broken down they increasingly viewed the charity offered by religious houses as insufficient to meet the local needs In such a climate the Protestant social gospel seemed to provide a valid alternative to which many people gravitated Holding to scrutiny the revisionist revolution of the past twenty years the book reopens debate and challenges conventional thinking about the ways the traditional church lost influence in the late middle ages positing the idea that the problems with the religious houses were not just the creation of the reformers but had rather a long history In so doing it offers a more complete picture of reform that goes beyond head counting by looking at the political relationships and how they were affected by religious ideas to bring about change *Orders and Hierarchies in Late Medieval and Renaissance Europe* Jeffrey Howard Denton,1999-01-01 Essays from a range of disciplines examine different but linked aspects of the social organization of Europe from the 13th to 16th centuries **The Politics of Magnate Power in England and Wales, 1389-1413** Alastair Dunn,2003 This book offers a dramatic revision to the historical understanding of the events surrounding the fall of Richard II and the establishment of the Lancastrian regime Rather than halting at 1399 it charts the shifting balance of power between crown and nobility until the death of Henry IV in 1413 The first major work ever to analyse the financial element of land forfeitures for treason it concludes that Richard II experienced only limited success in profiting from the destruction of his enemies This work is also the first for more than thirty years to chart the political

resistance to Henry IV and assess the reasons for his avoiding the fate of his predecessor It draws the radically new conclusions that Henry IV recognized the practical limitations of his power as a usurper and in coming to a modus vivendi with his many enemies traded actual security for a diminution in the Crown's authority to command the obedience of its subjects Law, Governance, and Justice, 2013-01-14 How law is made how governance works and the response of the governed remain crucial modern questions whose roots in many parts of the world reach deep into the past of medieval England Scholars have long discussed these issues and new perspectives regularly emerge This volume brings together contemporary views from leaders in the field and from younger scholars both historians and literary critics Classic themes and incidents are creatively revisited and new avenues of approach are suggested **A Catalogue of the Harleian Collection of Manuscripts, Purchased by Authority of Parliament, for the Use of the Publick, and Preserved in the British Museum** British Museum. Department of Manuscripts, 1759 Richard II and the Rebel Earl A. K. Gundy, 2013-09-26 A reinterpretation of Richard II's reign and deposition from the perspective of one of the leading nobles who opposed him **Kingship, Law, and Society** Edward Powell, 1989 This is the first work devoted to setting the legal system of the early 15th century in its social and political context Rejecting the traditional view of late medieval England as chronically lawless and violent Powell emphasizes instead the structural constraints on royal power to enforce the law and the king's dependence on the cooperation of local society for keeping the peace **A Catalogue of the Harleian Manuscripts in the British Museum** British Museum, 1808 *A Catalogue of the Harleian Manuscripts in the British Museum* British Museum.
