Glyph A Novel:

Glyph Percival Everett, 2014-02-18 In paperback for the first time the much beloved satirical novel The New York Times praised as both a treatise and a romp Baby Ralph has ways to pass the time in his crib but they don't include staring at a mobile Aided by his mother he reads voraciously All of Swift all of Sterne Invisible Man Baldwin Joyce Balzac Auden Roethke along with a generous helping of philosophy semiotics and trashy thrillers He's also fond of writing poems and stories in crayon But Ralph has limits He's mute by choice and can't drive so in his own estimation he's not a genius Unfortunately for him everyone else disagrees His psychiatrist kidnaps him for testing and once his brilliance is quantified IQ 475 a Pentagon officer also abducts him Diabolically funny and lacerating in its critique of poststructuralism Glyph has the feverish plot of a thriller and the philosophical depth of a text by Roland Barthes If anyone can map the wilds of literary theory it's Ralph one of Percival Everett's most enduring creations

Hybrid Novels George Kowalik, 2025-10-03 The phrase post postmodernism has appeared in Contemporary Literary Studies since the 20th century but what does it mean Scholars have defined the term in various often contradictory ways Existing studies also rarely centralise race an essential component in the transition from postmodern irony to post postmodern sincerity Hybrid Novels analyses post postmodernism's only consistency and certainty hybridity This speaks for a broader social issue concerning the ethics of categorisation and the conflicting labels imposed on subjectivity Hybrid Novels considers landmark American British novels by Percival Everett Jonathan Franzen Zadie Smith and David Foster Wallace published from 1996 to 2001 It positions these authors at the centre of the post postmodernism debate together for the first time This book suggests that 2010s autofiction further develops post postmodern tensions of irony and sincerity at the turn of the 21st century Major American Canadian novels by Sheila Heti Ben Lerner Teju Cole and Tao Lin are discussed published from 2010 to 2013

Glyph Ali Smith, 2025-09-04 Glyph follows Ali Smith's 2024 novel Gliff and tells a story hidden in the first novel Gliff is set in a near future rife with surveillance where people can be labelled unverifiable by the state It follows siblings Briar and Rose as they attempt to survive in a world that strives to crush curiosity and meaning

Glyph, 1977

Glyph Ali Smith, 2026-05-19 From a literary master the much anticipated follow up to the highly celebrated novel Gliff The New York Times has said of Ali Smith that few writers on the world stage are producing fiction this offbeat and alluring NPR has called her flat out brilliant The Chicago Tribune has called her one of the rarest creatures in the world a really fearless novelist With Gliff she brought her remarkable talents for the first time to a work set in an uncertain future a novel described by Vogue as chilling Orwellian a vivid portrait of a decaying civilization And now with Glyph she gallops us back through history to tell a story hidden within the first a story set in a moment of cultural revolution that examines in her trademark wit and intellect and compassion how we make meaning and how easily it can be lost forever if we don't hold on to those essential qualities that make us human

Jesting in Earnest Derek C. Maus, 2019-04-02 A critical analysis of Percival Everett's oeuvre through the lens of Menippean satire Percival Everett a

distinguished professor of English at the University of Southern California is the author of more than thirty books on a wide variety of subjects and genres Among his many honors are the American Academy of Arts and Letters Literature Award the Huston Wright Legacy Award for Fiction the PEN Center USA Literary Award for Fiction and the Dos Passos Prize in Literature Derek C Maus proposes that the best way to analyze Everett s varied oeuvre is within the framework of Menippean satire which focuses its ridicule on faulty modes of thinking especially the kinds of willful ignorance and bad faith that are used to justify corruption violence and bigotry In *Jesting in Earnest* Maus critically examines fourteen of Everett s novels and several of his shorter works through the lens of Menippean satire focusing on how it supports Everett s broader aim of stimulating thoughtful interpretation that is unfettered by common assumptions and preconceived notions

Literature, In Theory Julian Wolfreys, 2010-02-23 Jacques Derrida has argued about the difference between literature and theory that despite its institutional status part of its institution is the right of literature to say anything Literature cannot be defined as such and as soon as one seeks to produce a reading of the literary complications arise Yet despite its institutional significance theory remains something many wish would go away and which for others is still not read is misread and remains to be read Like literature it remains as an enigmatic identity resistant to definition but subject to misperceptions and open to general statements that are more or less inaccurate By examining how theory and literature are concepts and names which touch on one other in complex ways Julian Wolfreys seeks to understand their intersections and differences Examining a wide range of authors from Dickens to Joyce and engaging directly with a number of major theorists Wolfreys takes the reader on a journey through the issues and ideas involved in reading literature in theory **Age of Inference**

Philip C. Short, Harvey Henson, John R. McConnell, 2021-12-01 In an age where we are inundated with information the ability to discern verifiable information to make proper decisions and solve problems is ever more critical Modern science which espouses a systematic approach to making inferences requires a certain mindset that allows for a degree of comfort with uncertainty This book offers inspirations and ideas for cultivating the proper mindset for the studying teaching and practicing of science that will be useful for those new to as well as familiar with the field Although a paradigm shift from traditional instruction is suggested in the National Framework for K 12 science this volume is intended to help educators develop a personal mental framework in which to transition from a teacher centered didactical approach to a student centered evidence guided curriculum While the topics of the book derive from currently published literature on STEM education as they relate to the National Framework for K 12 Science and the Three Dimensional science instruction embedded in the Next Generation Science Standards this book also examines these topics in the context of a new societal age posited as the Age of Inference and addresses how to make sense of the ever increasing deluge of information that we are experiencing by having a scientific and properly discerning mindset

ENDORSEMENTS This volume takes on one of the thorniest existential problems of our time the contradiction between the exponentially growing amount of information that individuals have access to and the diminished capacity of those individuals to understand it Its chapters provide the reader with an introduction to the relationship between knowledge science and inference needed new approaches to learning science in our new data rich world and a discussion of what we can and must do to reduce or eliminate the growing gap between the inference have s and have nots It is not too much to say that how we resolve the issues outlined in this volume will determine the future of our species on this planet

Joseph L Graves Jr Professor of Biological Sciences North Carolina A we need the ability to draw sound inferences from the data Cultivating a scientific mindset requires fundamental changes to the way we teach and learn This important and well written volume shows how

Childhood and Innocence in American Culture James M. Curtis, 2023-08-01 This collection argues that the romanticized conflation of childhood and innocence in American culture has been on a steady decline at least since the 1960s largely due to postmodern critiques of overarching narratives involving both the child and the innocence of childhood Additionally this collection highlights and analyzes examples of children s literature and culture throughout the 20th century and into the 21st which pointedly defy traditional idealized notions of childhood Such an analysis serves to reiterate the idea that the romanticized notion of childhood which has pervaded American culture for over two centuries is little more than a cultural construction

that bears little to no resemblance to the actual lived experience of American children Conversations with Percival Everett Joe Weixlmann, 2013-06-12 For the first eighteen years of his career Percival Everett b 1956 managed to fly under the radar of the literary establishment He followed his artistic vision down a variety of unconventional paths including his preference for releasing his books through independent publishers But with the publication of his novel *erasure* in 2001 his literary talent could no longer be kept under wraps The author of more than twenty five books Everett has established himself as one of America's and arguably the world's premier twenty first century fiction writers Among his many honors since 2000 are Hurston Wright Legacy Awards for *erasure* and *I Am Not Sidney Poitier* 2009 and three prominent awards for his 2005 novel *Wounded* the PEN Center USA Literary Award for Fiction France's Prix Lucioles des Libraires and Italy's Premio Vallombrosa Gregor von Rezzori Prize Interviews collected in this volume several of which appear in print or in English translation for the first time display Everett's abundant wit as well as the independence of thought that has led to his work being described as characteristically uncharacteristic At one moment he speaks with great sophistication about the fact that African American authors are forced to overcome constraining expectations about their subject matter that white writers are not And in the next he talks about training mules or quips about Jim Crow a pet bird Everett had on his ranch outside Los Angeles Everett discusses race and gender his ecological interests the real and mythic American West the eclectic nature of his work the craft of writing language and linguistic theory and much more **Information Visualisation** Ebad
