political uneasiness on the subject still lingers In *The Politics of Black Joy* Lindsey Stewart wades into these uncomfortable waters by analyzing Zora Neale Hurston's uses of the concept of Black southern joy Stewart develops Hurston's contributions to political theory and philosophy of race by introducing the politics of joy as a refusal of neo abolitionism a political tradition that reduces southern Black life to tragedy or social death To develop the politics of joy Stewart draws upon Zora Neale Hurston's essays *Beyoncé's Lemonade* and figures across several disciplines including Frederick Douglass W E B Du Bois Toni Morrison Angela Davis Saidiya Hartman Imani Perry Eddie Glaude and Audra Simpson The politics of joy offers insights that are crucial for forming needed new paths in our current moment For those interested in examining popular conceptions of Black political agency at the intersection of geography gender class and Black spirituality *The Politics of Black Joy* is essential reading

*In Search of The Blues (Volume 2 of 2) (EasyRead Super Large 24pt Edition)* , **Plantation Airs** Brannon Costello, 2007-12 In *Plantation Airs* Brannon Costello argues persuasively for new attention to the often neglected issue of class in southern literary studies Focusing on the relationship between racial paternalism and social class in American novels written after World War II Costello asserts that well into the twentieth century attitudes and behaviors associated with an idealized version of agrarian antebellum aristocracy especially those of racial paternalism were believed to be essential for white southerners The wealthy employed them to validate their identities as aristocrats while less affluent whites used them to separate themselves from white trash in the social hierarchy Even those who were not legitimate heirs of plantation owning families found that putting on airs associated with the legacy of the plantation could align them with the forces of power and privilege and offer them a measure of authority in the public arena that they might otherwise lack Fiction by Zora Neale Hurston Eudora Welty William Faulkner Ernest Gaines Walker Percy and others reveals however that the racial paternalism central to class formation and mobility in the South was unraveling in the years after World War II when the civil rights movement and the South's increasing industrialization dramatically altered southern life Costello demonstrates that these writers were keenly aware of the ways in which the changes sweeping the South complicated the deeply embedded structures that governed the relationship between race and class He further contends that the collapse of racial paternalism as a means of organizing class lies at the heart of their most important works including Hurston's *Seraph on the Suwanee* and her essay *The Pet Negro System* Welty's *Delta Wedding* and *The Ponder Heart* Faulkner's *The Mansion* and *The Reivers* Gaines's *Of Love and Dust* and his story *Bloodline* and Percy's *The Last Gentleman* and *Love in the Ruins* By examining ways in which these works depict and critique the fall of the plantation ideal and its aftermath *Plantation Airs* indicates the richness and complexity of the literary responses to this intersection of race and class Understanding how many of the modern South's best writers imagined and engaged the various facets of racial paternalism in their fiction Costello confirms helps readers construct a more comprehensive picture of the complications and contradictions of class in the South

*In Search of the Blues* Marybeth Hamilton, 2009-07-28 Lead belly Robert Johnson Charley Patton we are all familiar with

these legends of the Delta blues Fierce raw voices tormented drifters deals with the devil at the crossroads at midnight In this extraordinary reconstruction of the origins of the Delta blues historian Marybeth Hamilton demonstrates that the story as we know it is largely a myth The idea of something called Delta blues only emerged in the mid twentieth century the culmination of a longstanding white fascination with the exotic mysteries of black music The prehistory begins around 1900 when a group of obsessive white men and women set out to track down those voices For the would be race scientist Howard Odum this meant combing remote Mississippi s back roads with a cylinder phonograph to capture the obscene melodies of vagrants and field hands For the plantation bred folklorist Dorothy Scarborough it meant finding elderly white Civil War veterans to recreate the croonings of mammies and nursemaids For the Texas banker turned song hunter John Lomax and his teenage son Alan it meant prowling Southern penitentiaries and unearthing a double murderer Lead belly whose rough ragged melancholy vocals evoked the anguish of the chain gang Many of these early recordings turned up in a single room of a Brooklyn YMCA in the hands of a reclusive collector named James McKune McKune had heard something pure and primal in the voices of Charley Patton and Robert Johnson the prized items in the collection of scratched battered 78s that he stored in a cardboard box under his bed When this secret stash of recordings came to light in the 1960s collectors used them to invent the idea of the Delta blues the authentic voice of black America so unlike the impure popular black music of the time which emanated from corporate record labels Hamilton shows that the Delta blues was created not by blacks but by white pilgrims seekers and propagandists who headed deep into Americas south in search of an authentic black voice of rage and redemption In excavating the history of an immensely popular musical form Hamilton reveals the extent to which American culture has been shaped by white fantasies of racial difference Publisher Basic Books Perseus      *African American Literature in Transition, 1930-1940: Volume 10* Eve Dunbar,Ayesha K. Hardison,2022-04-07 The volume explores 1930s African American writing to examine Black life culture and politics to document the ways Black artists and everyday people managed the Great Depression s economic impact on the creative and the social Essays engage iconic figures such as Sterling Brown Langston Hughes Zora Neale Hurston Dorothy West and Richard Wright as well as understudied writers such as Arna Bontemps and Marita Bonner Henry Lee Moon and Roi Ottley This book demonstrates the significance of the New Deal s Works Progress Administration WPA the Communist Party of the United States CPUSA and Black literary circles in the absence of white patronage By featuring novels poetry short fiction and drama alongside guidebooks photographs and print culture African American Literature in Transition 1930 1940 provides evidence of the literary culture created by Black writers and readers during a period of economic precarity expanded activism for social justice and urgent internationalism

*Call Your "Mutha"* Jane Caputi,2020 The ecocide and domination of nature that is the Anthropocene does not represent the actions of all humans but that of Man the Western and masculine identified corporate military intellectual and political class that long has masked itself as the civilized and the human In this book Jane Caputi looks at two major myths of the

Earth one ancient and one contemporary and uses them to devise a manifesto for the survival of nature which includes human beings in our current ecological crisis These are the myths of Mother Earth and the Anthropocene The former personifies nature as a figure with the power to give life or death and one who shares a communal destiny with all other living things The latter myth sees humans as exceptional for exerting an implicitly sexual domination of Mother Earth through technological achievement from the plow to synthetic biology and artificial intelligence Much that we take for granted as inferior or taboo is based in a splitting apart of inherent unities culture nature up down male female spirit matter mind body life death sacred profane reason madness human beast light dark The first is valued and the second reviled This provides the framework for any number of related injustices sexual racial and ecological This book resists this pattern in part by deliberately putting the dirty back into the mind the obscene back into the sacred and vice versa Ecofeminism and Environmental Justice argue for the significance and reality of the Earth Mother Caputi engages specifically with the powers of that Mother ones made taboo and even obscene throughout heteropatriarchal traditions Jane Caputi rejects misogynist and colonialist stereotypes and examines the potency of the Earth Mother in order to deepen awareness of how our relationship to the Earth went astray and what might be done to address this Drawing upon Indigenous and African American ecofeminism ecowomanism green activism femme queer and gender non binary philosophies literature and arts Afrofuturism and popular culture images Call Your Mutha contends that the Anthropocene is not evidence so much of Man s supremacy but instead a sign that Mother Nature Earth faced with disrespect is turning away withdrawing the support systems necessary for life and continuance Caputi looks at contemporary narratives and artwork to consider the ways in which respect for the autonomous and potent Earth Mother and a call for their return has already reasserted itself into our political and popular culture
