**"Go to It!"** Peter Harclerode,1990-01-01 Om den britiske 6 luftb rne division og bl a om dens luftlands tning ved Arnhem i 1944 **"Go to It!"** Peter Harclerode,2000-01 On 23rd April 1943 the War Office laid down a phased programme for the formation of what was to become one of the most renowned divisions in the history of airborne forces the 6th Airborne Based on a wide variety of sources including eyewitness accounts by former members of the division this superbly and profusely illustrated volume covers in detail the history of this remarkable force and the equally remarkable men who served in it The 6th Airborne Division was one of the most famous fighting formations of the British Army Go To It is the gripping account of a story which has not been told until now **US Airborne Tanks, 1939-1945** Charles C. Roberts,2021-03-23 This book explores the design and deployment of American airborne tanks from the earliest concepts to their actual use From their first introduction at the Battle of the Somme in the First World War tanks proved to be one of the most important military developments in the history of warfare Such was their influence on the battlefield both as infantry support and as an armored spearhead their presence could determine the outcome of any battle Another significant development during the 1930s was that of airborne forces with a number of countries experimenting with air dropped troops Such a concept offered the possibility of inserting soldiers behind the front lines to sow fear and confusion in the enemy s rear However such troops parachuting from aircraft could only be lightly armed thus limiting their effectiveness It is understandable therefore that much thought was given to the practicalities of airlifting tanks that could be dropped or deposited alongside paratroopers Tanks though are heavy cumbersome vehicles and before there could be any thought of carrying them by air much lighter models would have to be produced Charles Roberts fascinating book opens with an investigation into the efforts in the 1930s by Britain the Soviet Union and the USA into the development of or adaptation of light tanks for airborne operations It was inevitably the start of the Second World War which accelerated efforts to produce an airborne tank and the means of delivery The use of conventional powered aircraft to carry the tanks limited their use to existing airfields which negated their employment with airborne troops landing in the open countryside Another method of delivery had to be found and this took the form of the glider which could be landed in a field behind enemy lines The combination of light tank and glider made the aim of airborne forces being supported by armor a realistic proposition and as a result the 28th Airborne Tank Battalion was born This detailed and comprehensive study deals with every aspect of design and deployment of American airborne tanks from the earliest concepts to their actual use by British units on D Day and during Operation Varsity the Rhine crossing

**Air War Varsity** Martin W. Bowman, 2017-10-30 Here Martin Bowman brings us the first book on Operation Varsity to include both British and US air and ground operations as well as the US British and Canadian paratroop and resupply missions all presented together in one ambitious volume Operation Varsity Plunder the last large scale Allied airborne operation of World War II was certainly no walk over Varsity was the airborne part whilst Plunder represented the British amphibious operations by the British Second Army The airlift consisted of 541 transport aircraft containing airborne troops and a further 1 050 troop carriers towing 1 350 gliders The American 17th Airborne Divisions C 46 Commando transports and Waco gliders joined the British 6th Airborne Division C 54s C 47 transport aircrafts Horsas and Hamilcar gliders to form an immense armada that stretched for more than 200 miles across the sky The successful air attack involved more than 10 000 Allied aircraft and was concentrated primarily on Luftwaffe airfields and the German transportation system The combination of the two divisions in one lift made this the largest single day airborne drop in history In this impressive account Martin Bowman weaves firsthand testimony and a compelling historical narrative together with a variety of photographic illustrations many of which have never been published before in order to create a complete and fascinating record of events as they played out in March 1945

**The Rhine Crossings 1945** Ken Ford, 2011-03-15 A highly illustrated account of the crossings of the great river which Churchill called The last great heave of war No invading army had crossed the Rhine since Napoleon s in 1805 and the task fell to Field Marshal Montgomery s 21st Army Group in 1945 Opposing them were the forces of a failing fascist regime including battalions of old men and boys strengthened by several formations of crack troops including paratroopers and Panzer Grenadiers With an elaborate description of the combined Allied attack second in magnitude only to the Normandy invasion this book charts the history of the last great set piece battle of the war that ultimately brought the defeat of Hitler s Nazi regime one step closer

**The British Field Marshals, 1736-1997** T. A. Heathcote, 2012-10-24 Whether any advantage or benefit will be drawn from the suspension or effective abolition of the rank of Field Marshal is debatable What is certain however is that Dr Tony Heathcotes idea of compiling a definitive biographical dictionary of holders of this illustrious rank since its introduction by George II in 1736 is opportune and inspired Those readers who anticipate a dry recitation of bare facts and statistics are in for a disappointment A reference work this may be but the author by dint of his depth of knowledge has created a shrewd and highly readable commentary as well As General Sir Charles Guthrie the first soldier to be denied promotion to Field Marshal on appointment to Chief of Defense Staff observes in his Foreword this book embraces the history of the British Army over the last 250 300 years It covers not only the careers of key individuals but provides an understanding of their contribution to the successes and failures of our military past The diversity of personalities who have only the honor of wearing the coveted crossed batons in common is fascinating Alongside the household names of the great strategists and distinguished leaders lie little known

and forgotten figures who gained their exalted rank by either luck accident of birth or diplomatic gesture The British Field Marshals merits a place on the bookshelf of any military historian but is likely to be found on his or her bedside table Whether or not the rank is ever resurrected as it has been in the past and as many will hope it will be again this delightful and useful book will remain the authoritative guide to all those who have held the highest military rank in the British Army

D-Day: The First 72 Hours William F Buckingham,2004-05-01 The Allied invasion of occupied France began by delivering three airborne and six infantry divisions onto a 60 mile stretch of the Normandy coast Accomplishing this involved over 1 200 transport aircraft 450 gliders 325 assorted warships and more than 4 000 landing vessels The first 72 hours of the D Day invasion were pivotal from the initial airborne landings in the early hours of Tuesday 6 June 1944 we follow the Allied attackers and their German opponents hour by hour as they fought until fresh units began to take over from Thursday 8 June 1944 William F Buckingham's astounding history finally lays to rest the myths surrounding the Normandy invasion He contradicts the popular perception that the American OMAHA landing force suffered disproportionately In fact the fighting on the British and Canadian beaches GOLD SWORD and JUNO was no less

intense and the cost was much closer to that of OMAHA than is commonly thought The reality of D Day was that a devastating number of men from all sides of the Allied forces who landed on the beaches that day would never set foot on their native soil again
