Research Anthology on Measuring and Achieving Sustainable Development Goals Management Association, Information Resources, 2021-12-30 The Sustainable Development Goals are an ongoing focus around the world as the needs of people and society continue to evolve at a rapid pace The need for a more sustainable future has never been more pressing as issues such as climate change natural disasters and overpopulation present unique difficulties for the decision makers of the world In order for them to make the best decisions regarding current priorities and strategies up to date and detailed research regarding where we currently are as a society where we want to be and the many challenges that stand in the way is crucial The Research Anthology on Measuring and Achieving Sustainable Development Goals is a comprehensive assessment of the current innovative research and discussions on the challenges to achieving the UN's Sustainable Development Goals and the measures that have already been put in place to achieve them Covering topics such as green

consumer behavior and peace promotion this book is vital for academicians scientists researchers students postdoctoral students specialists practitioners businesses governmental institutions decision makers environmentalists and policymakers

Sustainable Development Goals and the Catholic Church Katarzyna Cichos, Jarosław A. Sobkowiak, Ryszard F. Sadowski, Beata Zbarachewicz, Radosław Zenderowski, Stanisław Dziekoński, 2020-11-29 This book identifies both the consistencies and disparities between Catholic Social Teaching and the United Nations UN Sustainable Development Goals SDGs With Pope Francis Laudato si encyclical Catholicism seems to be engaging more than ever with environmental and developmental concerns However there remains the question of how these theological statements will be put into practice The ongoing involvement of the Catholic Church in social matters makes it a significant potential partner in issues around development Therefore with the use of the comparative method this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN's 17 SDGs are addressed by Catholic Social Teaching Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the Agenda 2030 Goals as well as assessing how and if it can contribute to shaping the contemporary concept of global development Examining the potential level of cooperation between the international community and the Catholic Church in the implementation of the Agenda 2030 Goals this volume will be of keen interest to scholars of Catholic Studies Religious Studies and the Sociology of Religion as well as Environmental Studies and Development Studies

Conventions, Treaties And Other Responses To Global Issues - Volume II Gabriela Maria Kutting, 2009-08-25 Conventions Treaties and other Responses to Global Issues is a component of Encyclopedia of Institutional and Infrastructural Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This theme Conventions Treaties and other Responses to Global Issues deals with the issue of international resource regimes These are formal responses by states to the threats posed by trans boundary pollution or the distribution of resources In the past thirty years the number of international environmental agreements has steadily risen to reach record numbers and these agreements have secured a firm place in the hierarchy of international affairs There is a loose assumption that this is a good thing and that this rise has resulted in a commensurable improvement in environmental protection and resource allocation But is this actually the case In fact is there a positive correlation at all Or are there negative correlations What are the connections between environmental diplomacy and environmental protection and how can environmental protection be achieved These are just a few of the questions that will be addressed in this theme whilst at the same time giving an overview of the most important international resource regimes and the most influential international organizations having an environmental impact The theme takes the following shape the first section introduces issues of international environmental law and its history showing that international law can take many different forms Here we explain what policy tools states have in drafting responses to global environmental issues The second section deals with the most prominent international

environmental agreements and gives a state of the art overview of existing regimes The third and last section of this theme introduces the key actors in the international arena besides states such as international organizations and civil society actors such as pressure groups These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs
