**Making Great Cheese at Home** Barbara J. Ciletti, 1999 White Goat Cheddar Danish Blue Stilton Holland Gouda If you're confident in the kitchen and crave cheese you can learn to make it at home Each of these 30 recipes is rated by difficulty Easy would be the soft French cheese Fromage Blanc Medium due to the handwork patience and time would be Stilton and Difficult for those who enjoy a challenge and love puttering about the kitchen would be Camembert because it takes about 9 hours to complete the processes Each recipe alerts you to the amount of time involved and how best to store your finished cheese You're likely to own some of the supplies and equipment required and the recipe will alert you when a cheese requires specific products or molds all of which are easily obtainable So what could be better than impressing your dinner guests with homemade Feta with pita chips or that Feta Spinach Olive Pie recipe that incorporates it

**Prospects for a sustainable dairy sector in the Mediterranean** M. Djemali, M. Guellouz, 2023-08-28 Dairy products have always constituted an essential component in the Mediterranean diet In addition to their nutritional values they represent also a part of the cultural heritage of the people Prospects for a sustainable dairy sector in the Mediterranean preconditions for its development and the future consumers demand were some of the issues covered by the papers presented at the EAAP CIHEAM FAO Mediterranean symposium It was organised by the Tunisian Office for Livestock and Pastures and the National Agronomic Research Institute and sustained by the Government of Tunisia FAO ICAR and CIRVAL Over 280 participants from 25 countries participated The symposium identified a variety of technically viable and scientifically sound policy options and defined the main fields requiring further scientific research and the development of new sustainable technologies The available technologies to address intensive semi intensive and extensive production systems and the existing institutional framework research education extension systems organisation of the sector although requiring continuous adjustments and improvements have proved to be in a position to meet a variety of demands and challenges In this respect the Symposium called for an increase in research for the semi intensive farming systems in the South and emerging issues resulting from changes in agricultural policies in the North It emphasised the importance of producers' associations as representatives of the interests of the sector and partners in the overall dialogue on policy matters and in the identification of research needs The Symposium confirmed the wish and capacity of the dairy sector in the Region to contribute to the sustainable rural development to the creation of new employment opportunities and to the reasonable and harmonious management of the natural resources

**Endogenous Regional Development: Cottage Industries in Tasmanian Agriculture (PhD Thesis)** Anna

Gralton, 2007-01-01 This PhD study explores a culture industry that of the artisanal food industry in Tasmanian agriculture <https://eprints.utas.edu.au/8039/> Food production and consumption is a highly controversial socio political process whereby diverse values and beliefs levels of resources and interests struggle for survival The resultant manifestation of this struggle in the form of products production methods and actions stand testament to the diversity This thesis demonstrates the politicised nature of food production by examining the paradox of enterprise expansion while retaining a number of identities tags associated with small scale food businesses and their products i e cottage industry artisanality and quality food The implications of these findings for the development of the artisanal food industry are also explored Two phases of data collection were involved in exploring these issues A first phase was a scoping study involving document analysis semi structured interviews with local knowledgeable and a range of cottage industries and initial fieldwork The second phase involved a case study analysis with three small scale agricultural cottage enterprises SACEs and three that had expanded ESACEs The case studies primarily involved in depth semi structured interviews The research found that the cottage industry identity was meaningful as applied to the SACEs but also that many of the defining characteristics of a cottage industry were also applicable to the ESACEs Artisanality was found to be an appropriately assigned label in both the small scale and expanded enterprises with a set of specific characteristics approaches and the principals role as artisanal entrepreneur authenticating the ESACEs and their products as artisanal It was found that the enterprises under study aligned with Ray s 2003 notion of the cultural approach to Endogenous Regional Development ERD and particular place and space characteristics whilst the short food supply chain a collective form of social action assisted in facilitating the preservation of these associated identities tags In examining the retention of food quality meanings upon expansion the same set of characteristics and qualities that are potentially used and applicable to the SACEs in defining quality were also found to be relevant in the ESACEs In examining the cottage industry artisanal and quality identities this research demonstrated that there are more similarities than differences between the SACEs and ESACEs and that growth can occur without necessarily compromising values and actions all of which enable identity preservation and value adding potentialities Moreover the current use of the short food supply chain holds significant promise for this industry as it assists in building relationships and trust between processors and consumers who share similar values and beliefs surrounding food production and consumption In so doing food products are heavily laden with eco social information which can assist in challenging unsustainable agri-food production and related practice

**Food in America** Andrew F. Smith, 2017-02-16 This three volume work examines all facets of the modern U S food system including the nation s most important food and agriculture laws the political forces that shape modern food policy and the food production trends that are directly impacting the lives of every

American family Americans are constantly besieged by conflicting messages about food the environment and health and nutrition Are foods with genetically modified ingredients safe Should we choose locally grown food Is organic food better than conventional food Are concentrated animal feed operations destroying the environment Should food corporations target young children with their advertising and promotional campaigns This comprehensive three volume set addresses all of these questions and many more probing the problems created by the industrial food system examining conflicting opinions on these complex food controversies and highlighting the importance of food in our lives and the decisions we make each time we eat The coverage of each of the many controversial food issues in the set offers perspectives from different sides to encourage readers to examine various viewpoints and make up their own minds The first volume Food and the Environment addresses timely issues such as climate change food waste pesticides and sustainable foods Volume two entitled Food and Health and Nutrition addresses subjects like antibiotics food labeling and the effects of salt and sugar on our health The third volume Food and the Economy tackles topics such as food advertising and marketing food corporations genetically modified foods globalization and megagrocery chains Each volume contains several dozen primary documents that include firsthand accounts written by promoters and advertisers journalists politicians and government officials and supporters and critics of various views related to food and beverages representing speeches advertisements articles books portions of major laws and government documents to name a few These documents provide readers additional resources from which to form informed opinions on food issues

**Making Local Food Work** Brandi Janssen, 2017-04-15 When it comes to local food it takes more than knowing your farmer Brandi Janssen takes on some of the myths about how the local food system works and what it needs to thrive Advocates claim that small biodiverse farms will fundamentally change farming rural communities and the American diet For many simply by knowing our farmers we become champions of a new way of eating that revolutionizes our economy and society But that argument ignores the fact that if local food is to succeed it requires many of the trappings of conventional food production including processors middle men inspectors and regulators By listening to and working alongside people trying to build a local food system in Iowa Janssen uncovers the complex realities of making it work Although the state is better known for its vast fields of conventionally grown corn and soybeans it has long boasted a robust network of small diverse farms community supported agriculture enterprises and farmers markets As she picks tomatoes processes wheatgrass and joins a parents committee trying to buy local lettuce for a school lunch Janssen asks how small farmers and CSA owners deal with farmers market regulations neighbors who spray pesticides on crops or lawns and sanitary regulations on meat processing and milk production How can they meet the needs of large buyers like school districts Who does the hard work of planting weeding harvesting and processing Is local food production benefitting rural communities as much as advocates claim In answering these questions Janssen displays the pragmatism and level headedness one would expect of the heartland much like the farmers and processors profiled here It s doable she states but

we're going to have to do more than shop at our local farmers market to make it happen This book is an ideal introduction to what local food means today and what it might be tomorrow      **Goat Song** Brad Kessler, 2009-06-23 Acclaimed novelist Brad Kessler lived in New York City but longed for a life on the land where he could grow his own food After years of searching for a home he and his wife photographer Dona Ann McAdams found a mountain farmhouse on a dead end road with seventy five acres of land One day when Dona returned home with fresh goat milk from a neighbor's farm Kessler made a fresh chvre and their life changed forever They decided to raise dairy goats and make cheese Goat Song tells about what it's like to live intimately with animals who directly feed you As Kessler begins to live the life of a herder learning how to care for and breed and birth goats he encounters the pastoral roots of so many aspects of Western culture Kessler reflects on the history and literature of herding and how our diet our alphabet our religions poetry and economy all grew out of a pastoralist milieu among hoofed animals Kessler and his wife adapt to a life governed by their goats and the rhythm of the seasons And their goats give back in immeasurable ways as Kessler proves to be a remarkable cheesemaker with his first tomme of goat cheese winning lavish praise from America's premier cheese restaurants In the tradition of Thoreau's Walden and Annie Dillard's Pilgrim at Tinker Creek Goat Song is both a spiritual quest and a compelling and beautiful chronicle of living by nature's rules      *Handbook of Milk of Non-Bovine Mammals* Young W.
