**God and Plastic Surgery** Jeremy Barris,1990 An unusual and intensive study of the work of the intellectual progenitors of contemporary Western thought A battery of insights into how to and how not to think act feel eat dress dance take tea or fuck Something like equal parts Gertrude Stein and Wittgenstein *Nietzsche's Corps/e* Geoff Waite,1996 Appearing between two historical touchstones the alleged end of communism and the 100th anniversary of Nietzsche's death this book offers a provocative hypothesis about the philosopher's afterlife and the fate of leftist thought and culture At issue is the relation of the dead Nietzsche corpse and his written work corpus to subsequent living Nietzscheanism across the political spectrum but primarily among a leftist corps that has been programmed and manipulated by concealed dimensions of the philosopher's thought If anyone is responsible for what Geoff Waite maintains is the illusory death of communism it is Nietzsche the man and concept Waite advances his argument by bringing Marxist especially Gramscian and Althusserian theories to bear on the concept of Nietzscheanism But he also goes beyond ideological convictions to explore the vast Nietzschean influence that proliferates throughout the marketplace of contemporary philosophy political and literary theory and cultural and technocultural criticism In light of a philological reconstruction of Nietzsche's published and unpublished texts Nietzsche's Corps/e shuttles between philosophy and everyday popular culture and shows them to be equally significant in their having been influenced by Nietzsche in however distorted a form and in a way that compromises all of our best interests Controversial in its decelebration of Nietzsche this remarkable study asks whether the postcontemporary age already upon us will continue to be dominated and oriented by the haunting spectre of Nietzsche's corps/e Philosophers intellectual historians literary theorists and those interested in western Marxism popular culture Friedrich Nietzsche and the intersection of French and German thought will find this book both appealing and challenging **Anarchitexts** Joanne Richardson,2003 Anthology of selections from the first two years of the webzine Subsol **Fear, Truth, Writing** Alison Leigh Brown,1995-10-06 This book describes and examines the fear of exposure one faces when creating for cultural consumption Examining the work of Cixous Foucault Irigaray Spinoza Hegel Hakim Bey Heidegger Kathy Acker Derrida and Kierkegaard the author finds spaces where fear and anxiety give way to connection and community **Accounting Ethics: Theories of accounting ethics and their dissemination** J. Edward Ketz,2006 The ruination of investors in Enron WorldCom Waste Management Aldelphia Tyco and scores of other business concerns has raised questions about the adequacy and relevance of academic research into accounting ethics as well as the ethical nature of professional parties This research collection includes important papers from key journals and books that reassess theories research studies and professional practices in the field of accounting ethics In addition to examining the current crisis in the creditability of financial reports many of the papers here work toward developing a body of knowledge that will protect the investing public in the future Paradox and the Possibility of Knowledge Jeremy Barris,2003 Paradox and the Possibility of Knowledge

argues that psychoanalytic theory has certain mostly unnoticed features that bring out with unusual clarity a logic that is true of conceptual thought generally This logic is paradoxical in that it is deliberately and productively self canceling The general relevance of this logic to conceptual thought and to theory offers a solution to some fundamental epistemological problems First it allows a solution to the problem of the ultimate circularity or infinite regress of knowledge by showing how the circle or regress eliminates itself in a variety of successful knowledge grounding ways Second it offers some resulting insights into issues involving politically troublesome dimensions of knowledge specifically into the procedure of ethical political dialogue The book is written in the contexts of both Anglo American philosophy and Continental or European philosophy The argument is largely Wittgensteinian and at the same time proceeds through detailed reference to Freud's and Lacan's work On the way it addresses theory construction in general including the claims of phenomenology and deconstruction

**Masking the Abject** Mechthild Nagel, 2002-01-01 Masking the Abject traces the beginnings of the malediction of play in Western metaphysics to Aristotle Mechthild Nagel's innovative study demonstrates how play has served as a castaway in western philosophical thinking It is considered to be repulsive and loathsome yet also fascinating and desirable The book illustrates how play succeeds and proliferates after Hegel despite its denunciation by classical philosophers entering Marxist phenomenological postmodern and feminist discourses This work provides the reader with a superb analysis of how the distinction between the serious and the playful has developed over time charting play's changing ontological status and ethical and aesthetic dimensions from the logocentric to the bacchanalian
