God and the Evil of Scarcity Albino Barrera, 2005 Basing his argument upon biblical sources Barrera contends that God intends that scarcity can be eliminated through human cooperation      The Moral Dynamics of Economic Life Daniel K. Finn, 2012-04-24 Caritas in veritate Charity in Truth is the social encyclical of Pope Benedict XVI one of many papal encyclicals over the last 120 years that address economic life This volume based on discussions at a symposium co sponsored by the Institute for Advanced Catholic Studies and the Pontifical Council for Justice and Peace analyzes the situation of the Church and the theological basis for Benedict's thinking about the person community and the globalized economy The Moral Dynamics of Economic Life engages Benedict's analysis of relation the characteristics of contemporary social and economic relationships and the implications of a relational Trinitarian God for daily human life Crucial here is the Pope's notion of reciprocity an economic relationship characterized by help freely given but which forms an expectation that the recipient will reciprocate either to the donor or often to someone else This logic of gift Benedict argues should influence daily economic life especially within what he calls hybrid firms which make a profit and invest a share of that profit in service to needs outside the firm Similarly development whether of an individual or of a nation must be integral neither simply economic nor personal nor psychological nor spiritual but a comprehensive development that engages all dimensions of a flourishing human life The essays written by social scientists theologians policy analysts and others engage extend and critique Benedict's views on these issues as well as his call for deeper dialogue and a morally based transformation of social and economic structures      **The Gardeners' Dirty Hands** Noah Toly, 2019 In *The Gardeners Dirty Hands* Environmental Politics and Christian Ethics Noah Toly engages Christian and classical Greek ideas of the tragic to illuminate the enduring challenges of environmental politics He suggests that Christians have unique resources for responsible engagement with global environmental politics      ,      *Accounting and Money for Ministerial Leadership* Nimi Wariboko, 2013-05-22 This book will help seminary students and ministers with no training in accounting to expand their core management competency and church leadership skills to include basic issues of finance and accounting It will also provide pastors ministers with financial management orientation to become better leaders managers of their churches and organizations Specifically this book is designed to bring pastors ministers and seminary students up to speed in the language of accounting and money in contemporary American society It gives them practical resources for effective not hands on management of church finances Among others it will offer training on basic accounting and budgeting reading of financial reports and elementary tax and legal issues in order to develop pastors students core competency in stewardship leadership After going through this book most students and pastors should be able to read exegete and make sense of the financial reports that will be given to them

*The Split Time* Nimi Wariboko,2022-08-01 The quest for economic development is arguably the most frustrating and tragic dimension of human existence in Africa As its primary task The Split Time constructs an economic philosophy from a tradition of thought that is indigenous to Africa arguing that there are long neglected resources within African philosophy to guide economic policymakers toward creating an African economy that can sustain human flourishing Exploring notions of destiny temporality and desire Nimi Wariboko constructs an economic philosophical framework to rethink solutions to the vexing problem of economic development in Africa He also provides a robust social ethical perspective in which the basic aspects of economic life the agential accounts of human agency telos the circumstantial material social context and the affective to feel appropriately what matters to a people in an economy or their desire for human flourishing come together to fire social imagination about development policies for the common good

*Darwin and Catholicism* Louis Caruana,2009-08-06 This coherent collection of original papers marks the 150 year anniversary since the publication of Charles Darwin s Origin of Species 1859 Although the area of evolution related

publications is vast the area of interaction between Darwinian ideas and specifically Catholic doctrine has received limited attention This interaction is quite distinct from the one between Darwinism and the Christian tradition in general Interest in Darwin from the Catholic viewpoint has recently been rekindled The major causes of this include 1 John Paul II s Message to the Pontifical Academy of Sciences on Evolution in 1996 2 the document *Communion and Stewardship Human Persons Created in the Image of God* issued in 2002 by the International Theological Commission under the supervision of Cardinal Joseph Ratzinger the present Pope Benedict XVI 3 Cardinal Christoph Schönborn s apparent endorsement of Intelligent Design in his New York Times article *Finding Design in Nature* of July 7 2005 4 Pope Benedict XVI s contributions in the recent collection of papers *Schöpfung und Evolution Creation and Evolution* published in Germany in April 2007 Responding to this heightened interest the book offers a valuable collection of work from outstanding Catholic scholars in various fields

**Resurrecting Democracy** Luke Bretherton, 2015 This book assesses the construction of citizenship as an identity a performance and a shared rationality *Dictionary of Scripture and Ethics* Joel B. Green, Jacqueline E. Lapsley, Rebekah Miles, Allen Verhey, 2011-11-01 2012 Reference Book of the Year Award Academy of Parish Clergy This one stop reference book on the vital relationship between Scripture and ethics offers needed orientation and perspective for students pastors and scholars Written to respond to the movement among biblical scholars and ethicists to recover the Bible for moral formation it is the best reference work available on the intersection of these two fields The volume shows how Christian Scripture and Christian ethics are necessarily intertwined and offers up to date treatment of five hundred biblical traditional and contemporary topics ranging from adultery bioethics and Colossians to vegetarianism work and Zephaniah The stellar ecumenical list of contributors consists of more than two hundred leading scholars from the fields of biblical studies and ethics including Darrell Bock David Gushee Amy Laura Hall Daniel Harrington Dennis Olson Christine Pohl Glen Stassen and Max Stackhouse *Human Remains* Jonathan Strauss, 2012 The living and the dead cohabited Paris until the late 18th century when in the name of public health measures were taken to drive the latter from the city Cemeteries were removed from urban space and corpses started to be viewed as terrifyingly noxious substances Working across a broad range of disciplines this book seeks to understand the meaning of the dead and their role in creating one of the most important cities of the contemporary world *Monstrous Society* David Collings, 2009 *Monstrous Society* problematizes competing representations of reciprocity in England in the decades around 1800 It argues that in the eighteenth century moral economy power is divided between official authority and the counter power of plebeians This tacit mutual understanding comes under attack when influential political thinkers such as Edmund Burke Jeremy Bentham and T R Malthus attempt to discipline the social body to make state power immune from popular response But once negated counter power persists even if in the demands of a debased inhuman body Such a response is writ large in Gothic tales especially Matthew Lewis s *The Monk* and Mary Shelley s *Frankenstein* and in the innovative embodied political practices of the mass movements for Reform and the

Charter By interpreting the formation of modern English culture through the early modern practice of reciprocity David Collings constructs a nonmodern mode of analysis one that sees modernity not as a break from the past but as the result of attempts to transform traditions that however distorted nevertheless remain broadly in force Jacket Energy Abundance Now , **Poverty and Morality** William A. Galston, Peter H. Hoffenberg, 2010-09-20 This multi authored book explores the ways that many influential ethical traditions secular and religious Western and non Western wrestle with the moral dimensions of poverty and the needs of the poor These traditions include Buddhism Christianity Confucianism Hinduism Islam and Judaism among the religious perspectives classical liberalism feminism liberal egalitarianism and Marxism among the secular and natural law which might be claimed by both The basic questions addressed by each of these traditions are linked to several overarching themes what poverty is the particular vulnerabilities of high risk groups responsibility for the occurrence of poverty preferred remedies how responsibility for its alleviation is distributed and priorities in the delivery of assistance This volume features an introduction to the types scope and causes of poverty in the modern world and concludes with Michael Walzer s broadly conceived commentary which provides a direct comparison of the presented views and makes suggestions for further study and policy The Principle of Excellence Nimi Wariboko, 2009-10-26 This book disturbs the normal and depoliticized meaning of virtue through a genealogical reading of the debates conceptual struggles and ambiguities that were cleansed by virtue ethicists to produce today s conception of excellence This approach provides the narrative raw material to craft a new meaning of excellence as a creative actualization of the potentials for human prosperity The fundamental question asked and addressed about excellence is how communities can use excellence as the organizing principle for political and economic development The author explores how large scale modern societies can be better administered in environments characterized by contingency and possibilities At the very least excellence in societal governance practice should involve the creation of possibilities for community and participation by all its members so that their potentialities can be drawn out for the common good The book also explores the connection between excellence and creativity If excellence is the drive toward actualization of potentialities for all human beings it follows that human creativity is an adequate form for that movement The author not only attempts to trace and clarify the mystique of the creative functions of persons and social groups but also shows how the creative functions of human life can express the unconditional eros of divine creativity In the process of doing all this the author offers a fresh and provocative perspective of philosophy and theology s oldest concerns the good truth beauty justice love hope and the eschatological New Creation
