God Action And Embodiment:

God, Action, and Embodiment Thomas F. Tracy, 1984 In this tightly structured and well reasoned essay Thomas F. Tracy outlines a fresh model for understanding God in His relationships with the world His creatures and history *God, Action, and Embodiment* Thomas F. Tracy, 1980

Transcendence and Spatiality of the Triune Creator Chan Ho Park, 2005 Since Augustine many philosophers and theologians have discussed the relation of God to time whereas the relation between God and space has been rarely discussed This book deals with the relationship of God to space Divine transcendence is one important aspect of the Christian God However God is also immanent in the world of space and time The author investigates the concept of divine spatiality and presents case studies of three modern theologians Torrance Pannenberg and Moltmann He also analyses divine spatiality by using Dyrness s three categories relationship agency and embodiment *The Implicit Theology of the Lord's Prayer* Jan Muis, 2021-01-15 The postmodern and secular culture of the West requires a new reflection on God The Implicit Theology of the Lord s Prayer A Biblical and Theological Investigation reflects on God on the basis of an original and central expression of the Christian faith the Lord s Prayer First Jan Muis interprets the divine names central to this prayer in their biblical contexts Next Muis understands the divine attributes implied by these names from the biblical narrative of God s self revealing actions and explains them in a contemporary framework God s Name indicates his particular personal presence and encounter with human beings The holiness of God s Name and the justice of his Kingship are more than just aspects of the love of the Father the Son and the Spirit The Creator is not a human blown large in his companionship with humans he remains the Exalted who lives both within and beyond created temporal reality In the context of a secular age Muis discusses in what sense this God exists

God, Evolution, and Animal Suffering Bethany N. Sollereder, 2018-10-29 After the publication of *On the Origin of Species* in 1859 theologians were faced with the dilemma of God creating through evolution Suddenly pain suffering untimely death and extinction appeared to be the very tools of creation and not a result of the sin of humanity Despite this paradigm shift the question of non human suffering has been largely overlooked within theodicy debates overwhelmed by the extreme human suffering of the twentieth century This book redresses this imbalance by offering a rigorous academic treatment of the questions surrounding God and the suffering of non human animals Combining theological philosophical and biblical perspectives this book explores the relationship between God and Creation within Christian theology First it dismantles the popular theological view that roots violence and suffering in the animal kingdom in the fall of humanity Then through an exploration of the nature of love it affirms that there are multiple reasons to suggest that God and creation can both be good even with the presence of violence and suffering This is an innovative exploration of an under examined subject that encompasses issues of theology science morality and human animal interactions As such it will be of keen interest to scholars and academics of religion and science the philosophy of religion theodicy and biblical studies

Wrath Among the

Perfections of God's Life Jeremy J. Wynne, 2010-08-26 Late modern theology is marked by persistent and widespread uncertainty as to how the wrath of God can be taken up as a legitimate theme within dogmatics. Rather than engage the most fundamental task of clarifying the inner logic by which God's identity is revealed in scripture, privilege has been ceded either to cultural and textual criticism, to ostensibly self-evident moral sensibilities, or to the thematization of religious experience. The present work sets out to rectify this misstep. The result is a rigorous proposal for understanding wrath expressly within the doctrine of God as a redemptive mode of divine righteousness. All That Is in God James E. Dolezal, 2017-07-13 Unknown to many, increasing numbers of conservative evangelicals are denying basic tenets of classical Christian teaching about God, with departures occurring even among those of the Calvinistic persuasion. James E. Dolezal's All That Is in God provides an exposition of the historic Christian position while engaging with these contemporary deviations. His convincing critique of the newer position he styles theistic mutualism is philosophically robust, systematically nuanced, and biblically based. It demonstrates the need to maintain the traditional viewpoint, particularly on divine simplicity, and spotlights the unfortunate implications for other important Christian doctrines such as divine eternity and the Trinity if it were to be abandoned. Arguing carefully and cogently that all that is in God is God Himself, the work is sure to stimulate debate on the issue in years to come.

In Face of Reality Thomas A. James, 2011-04-01 This study of the work of noted liberal theologian Gordon Kaufman tracks his career from his first published book Relativism, Knowledge, and Faith (1960) through his 2006 book Jesus and Creativity in light of recent conversations about divine action and modern scientific knowledge. James interprets Kaufman's mature position as a sophisticated reconstruction of divine activity that makes use of recent scientific theory and its naturalistic assumptions in order to revitalize a theocentric frame of reference rooted in classical theological tradition. Though there are costs to be paid in the construction of a theology of radical naturalism, particularly with respect to the relation between divine action and the human good, Kaufman's program offers a distinctive way forward. After developing a critical analysis of the limitations and possibilities of Kaufman's mature position, James suggests that a christological reconsideration of the meaning of human flourishing offers the prospect of an even more radically naturalistic and theocentric theology.

God, Passibility, and Corporeality Marcel Sarot, 1992. Faith Seeking Understanding Daniel L. Migliore, 2004-06-14 Daniel Migliore's Faith Seeking Understanding has been a standard introduction to Christian theology for more than a decade. The book's presentation of traditional doctrine in freshly contemporary ways, its concern to hear and critically engage new voices in theology, and its creative and accessible style have kept it one of the most stimulating, balanced, and readable guides to theology available. This second edition of Faith Seeking Understanding features improvements from cover to cover. Besides updating and expanding the entire text of the book, Migliore has added two completely new chapters. The first, Confessing Jesus Christ in Context, explores the unique contributions to Christian theology made by recent theologians working in the African American, Asian American, Latin American, Hispanic, feminist, womanist, and

mujerista traditions The second new chapter The Finality of Jesus Christ and Religious Pluralism addresses the growing interest in the relationship of Christianity to other religions and their adherents Migliore's three delightful theological dialogues are followed by a new appendix an extensive glossary of theological terms making the book even more useful to students seeking to understand the history themes and challenges of Christian belief
