God Religion In The Postmodern World:

God and Religion in the Postmodern World David Ray Griffin, 1989-01-01 Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time **Above All Earthly Pow'rs** David F. Wells, 2005 In this prophetic call to the evangelical church Wells stresses that Christians need to confess Christ as the center in a society lacking a center as the sovereign in a world seemingly ruled by chance and as the one who can give meaning in a nihilistic culture **God and religion in the postmodern world** David Ray Griffin, 1995

After God Mark C. Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis After God redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description **The Cambridge Companion to Postmodern Theology** Kevin J.

Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

Twentieth-Century Western Philosophy of Religion 1900-2000 Eugene Thomas Long, 2003-06-30 This book provides a historical map of 20th philosophy of religion from absolute idealism to feminism and postmodernism Dividing the 20th into four eras and eighteen primary strands the book provides the historical context for the more specialized volumes that follow This first volume is of interest to those working in the fields of philosophy of religion and theology

Novel Theology Darren J. N. Middleton, 2000 Literature and theology constantly deconstruct each other Suggesting that this deconstructive assignment is one that cannot but be in process itself Middleton returns to it throughout his study

Varieties of Postmodern Theology David Ray Griffin, 1989-07-01 This book sorts out the confusion created by the use of the term postmodern in relation to widely divergent theological positions Four different types of postmodern theology are distinguished in the preface constructive deconstructive liberationist and conservative Two forms of each type are discussed in the book Writing from a constructive postmodern perspective the authors enter into dialogue with the deconstructive postmodernism of Mark C Taylor and Jean Fran ois Lyotard with the liberationist postmodernism of Harvey Cox and Cornel West and with the conservative postmodernism of George William Rutler and John Paul II

Triangulating Religion, Belief, and Faith in the Twenty-First Century Bradford McCall, 2025-01-16 This book gives the reader the ability to make

new inroads to understanding how faith belief and religion not only differ but also how they can contribute to comparative theology These three topics broadly covered herein can heighten the understanding of the Sacred by those who study them As to a few preliminaries what is faith Further what is belief Which one comes first in a person's journey toward the Sacred Moreover does religion factor into these two terms and if so where and how Does Augustine's well worn line faith seeking understanding mean anything today If it does would it mean belief comes prior to faith and or religion One can argue both sides of this debate and still be considered orthodox seemingly Perhaps it is the case that belief precedes faith most of the time but not all of the time Perhaps it is the other way around What exactly is the demarcation between belief and faith Many a person believes a thing to be true in their very bones such a stance borders on what is commonly referred to as faith Is religion the combination of belief and faith together into a coherent system of thought or is it emergent from the two existing as a separate mental or spiritual entity Explore these questions and more

The Spirit of American Liberal Theology Gary Dorrien, 2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary of Gary Dorrien's three volume trilogy The Making of American Liberal Theology Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author's post Hegelian liberal liberationist perspective

A New Handbook of Christian Theologians Donald W. Musser, 1996-09-01 In recent years the flow of Christian theology has been channeled in diverse streams represented by such trends and movements as black theology liberation theology feminist theology and womanist theology To survey this abundance and diversity of current Christian theology this book examines the theologies of representative theologians Particularly to help students navigate the sea of information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith
