John Michael Montias,1967 Study of achievements in economic development in Romania under the communist regime covers industrialization agricultural production agrarian reform foreign trade economic integration with other CMEA countries etc and includes statistical tables in respect of the national income consumption industrial production of the petroleum industry etc Bibliography pp 307 to 310 **The Socialist Republic of Rumania** Stephen Fischer-Galati,2019-12-01 Originally published in 1969 Rumania faced the problem shared by other independently minded communist states in the era of the Soviet bloc of pursuing independent policies in foreign and intra bloc relations and in its domestic affairs without provoking the Soviet Union to a military reaction The efforts of the Rumanian leadership in this direction were aided by the fact that there was no politically relevant pro Moscow elite that could take over if Ceausescu and his followers were deposed by force Writing his study during the communist period Professor Fischer Galati concludes that the future of Rumanian integration into the communist party state system hinges on the resolution of differences with the Soviet Union and that no meaningful reconciliation appears likely while the present Rumanian and Russian elites remain in power The author believes however that the Rumanians will continue to pursue their independent course one that could stimulate greater popular support and participation in the country s affairs although it may not lead to a realization of Ceausescu s social nationalist goals Economic Developments in Countries of Eastern Europe United States. Congress. Joint Economic Committee. Subcommittee on Foreign Economic Policy,1970

growth and a mechanism for improving people's quality of existence including living standards labor self governance egalitarianism social justice and prevention of crimes against humanity before addressing the perennial question of what needs to be done next A suggested path forward is elaborated drawing lessons from the warts and all historical performance of socialist economies during 1917-2022 and failed socialist prophecy The evidence indicates that the key to 21st century socialism success lies in empowering workers of all descriptions to govern democratically for their mutual protection and welfare without the extraneous imposition of priorities imposed by other movements The book is essential reading for anyone interested in socialism political economy comparative economic systems and political and social history **The**

Lampe, Marvin R. Jackson, 1982-06-22 Western economic historians have traditionally concentrated on the success stories of major developed economies while development economists have given most of their attention to the problems of the Third World The authors of this pioneering work study a part of Europe neglected by both approaches Modernizing patterns in Balkan economic history are traced from the sixteenth century when the territory was shared by Ottoman and Habsburg empires through the nineteenth century when they emerged as independent states to the end of World War II and its aftermath Despite present differences in economic systems Greece's private market economy Yugoslavia's planned market economy and the centrally planned economies of Romania Bulgaria and Albania the authors find that shared origins and common subsequent experiences are ample justifications for treating the area as an economic unit Balkan Economic History 1550-1950 will be a major case study for development economists and will provide historians with the first analytical and statistical study to survey the entire region from the start of the early modern period *Comecon* J. J. Brine, 1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people's democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon's history structure and law socialist economic integration the organization
