Economic Dynamics Modern Revivals In Economics S:

Revival: The Megacorp and Oligopoly: Micro Foundations of Macro Dynamics (1981) Alfred S. Eicher, 2017-09-29 This title was first published in 1976 This book provides both an explanation of the inflation which has bedeviled economic policy in the West since the end of World War II and a micro economic theory to purge Keynesian models of the Walrasian strain derived from Marshall's Principles By focusing on what is taken to be the representative business firm of the twentieth century the large corporation or megacorp the microeconomic model presented in the book reverses the usual assumptions of economic analysis Instead of assuming the existence of firms with no control over prices the book examines how the megacorp uses its pricing power to finance its own internal rate of growth The result is a determinant model of how prices are set under the sort of oligopolistic conditions which prevail in most modern industries throughout the world

Post-COVID Economic Revival, Volume I Vladimir S. Osipov, 2022-01-01 This two volume book examines the most important global problem the recovery of the social economic crises due to the COVID 19 pandemic This economic crisis has its own basis and differs from others by the lockdown of most businesses on the decision of authorities The uncertainty of the future economic revival obliges scientists around the world to unite in search of effective solutions that will become the basis for prosperity and human wellbeing The death of millions of people around the world several waves of coronavirus and a global pandemic have forced most states to seek extraordinary measures to save people and revive economic activity The world economy experienced a global shock probably never experienced before due to lockdowns The disruptions and gaps in the value chains were primarily caused by the lockdowns of enterprises The change in the essence of the economic crisis has raised the question of how to overcome it and revive economic activity The crisis caused a sharp decline in incomes of the population around the world which led to social upheavals Post COVID economic revival in a globalized world has become the most important problem of our time This book offers contributions of authors from different countries and explores problem solving in the fields of public administration Volume I Part I financial services Volume I Part II different branches Volume II Part III and the social sector Volume II Part IV The first volume discusses governmentality public and corporate management The second part of the volume reveals the trends in the development of the financial sector in the post COVID period Despite the fact that the book is divided into two volumes and four parts a holistic and systematic perception of the new reality of the post COVID age can be obtained by reading the entire book This book will be of interest to academics and practitioners in public administration and economics particularly those who are interested in Post COVID economic revival Collapse and Revival Mr. Ayhan Kose, Mr. Marco E. Terrones, 2015-12-16 As the debates about the recent global recession and the subsequent recovery have clearly shown our understanding of these questions has been very limited This comprehensive text puts the latest global recession and ongoing recovery in perspective With the support of a companion website and DVD we have created several multimedia tools to help understand the basics *On Political Economists and Modern Political*

Modern Political Economics Yanis Varoufakis, Joseph Halevi, Nicholas J. Theocarakis, 2012-03-29 Once in a while the world

astonishes itself Anxious incredulity replaces intellectual torpor and a puzzled public strains its antennae in every possible direction desperately seeking explanations for the causes and nature of what just hit it 2008 was such a moment Not only did the financial system collapse and send the real economy into a tailspin but it also revealed the great gulf separating economics from a very real capitalism Modern Political Economics has a single aim To help readers make sense of how 2008 came about and what the post 2008 world has in store The book is divided into two parts The first part delves into every major economic theory from Aristotle to the present with a determination to discover clues of what went wrong in 2008 The main finding is that all economic theory is inherently flawed Any system of ideas whose purpose is to describe capitalism in mathematical or engineering terms leads to inevitable logical inconsistency an inherent error that stands between us and a decent grasp of capitalist reality The only scientific truth about capitalism is its radical indeterminacy a condition which makes it impossible to use science's tools e.g. calculus and statistics to second guess it The second part casts an attentive eye on the post war era on the breeding ground of the Crash of 2008 It distinguishes between two major post war phases The Global Plan 1947-1971 and the Global Minotaur 1971-2008 This dynamic new book delves into every major economic theory and maps out meticulously the trajectory that global capitalism followed from post war almost centrally planned stability to designed disintegration in the 1970s to an intentional magnification of unsustainable imbalances in the 1980s and finally to the most spectacular privatisation of money in the 1990s and beyond Modern Political Economics is essential reading for Economics students and anyone seeking a better understanding of the 2008 economic crash

Contemporary Macroeconomics Vasili Erokhin, Gao Tianming, Jean Vasile Andrei, 2023-07-01 This book covers a lot of ground in contemporary macroeconomics from fundamental theories such as market structures and equilibrium to emerging concepts that reflect the most critical challenges of modern times including economic slowdowns the resilience of public health systems digitalization environmental footprints and many more The COVID 19 outbreak has aggravated the recurrent problems of poverty and income inequality between countries food insecurity and hunger unemployment and social disorders that have resulted in the exacerbation of political economic and trade tensions between countries In view of the damaging consequences of the pandemic for the entire global economy the book examines how existing macroeconomic tools and policies could be adapted to the new normal to ensure sustainable post pandemic development and growth The main text is interspersed with real life illustrations and cases that demonstrate practical implications of the concepts under study This makes the reading relevant and active Every chapter starts with learning objectives and ends with a series of questions and quizzes that enable easier reinforcement of the course content This book is written mainly for students but it would be much useful to the broader public audience including postgraduates researchers and business people who will be able to learn all recent updates about macroeconomics and the post pandemic perspectives of the global economy
