## **Economic Growth With Equity Which Strategy For Ukraine:**

**Economic Growth with Equity** Diana Cook,1999 Ukraine's economy has been slipping backwards for nearly a decade resulting in a significant fall in the living standards of the Ukrainian people Putting Ukraine back on the path to prosperity will require policy makers to stop letting economic crises dictate the policy agenda Short term problems need to be dealt with in the context of a longer term strategy What strategy should Ukraine follow This report identifies and evaluates three alternatives all of which are under active consideration today as Ukraine considers what to do after ten years of halting reforms and economic decline Economic Growth with Equity evaluates each strategy in terms of its probable impact on fiscal balances inflation the current account deficit economic growth employment and equity The report makes recommendations on the best strategy to help Ukraine achieve its potential and recover from the present depression **Trade and Transport**

**Facilitation** John Raven,2001-01-01 The report focuses on transport facilitation in developing countries in order to help promote trade in exports and economic growth Each country has its own set of special characteristics including significant border entry and import points This report provides an analytical tool for those working in the field complemented by practical suggestions in order to identify facilitation problems and create effective remedial action plans This report is an expanded version of the publication Trade and Transport Facilitation An Audit Methodology ISBN 0821347195 published by the World Bank in 2000 Measuring and Apportioning Rents from Hydroelectric Power Developments Mitchell P.

Rothman,2000-01-01 Hydro resources are provided by nature The exploitation of such resources can generate significant economic rent to the owners In the past governments have usually claimed ownership of hydroelectric resources and passed on the rents to their state owned utilities which have used them to expand their systems or provide lower tariffs to their consumers With the restructuring of the electric power sector in many countries a more explicit consideration of hydroelectric rents is required Moreover hydropower resources are often owned by more than one party or at least require cooperation between parties to develop them In this context the measurement and apportionment of hydropower rents between cooperating parties becomes important This paper addresses some of the issues involved in cooperative development of water resources especially for hydroelectric generation It promotes a better understanding of the sources of the benefits and attempts to derive an analytical basis for discussions between cooperating parties This volume will be of interest to hydropower resource earning countries hydropower developers and Bank staff **Financing of Private**

**Hydropower Projects** Chris R. Head,2000-01-01 Concerns about global warming and the availability of clean renewable sources of energy are increasing However as private companies take over state power utilities the demand for profit has stifled those concerns Currently the private sector is building over 40 megawatts of fossil fuel thermal plants for each new megawatt of hydropower This report examines the reasons for building fewer hydropower plants and looks at ways to eliminate some of the drawbacks It studies ten privately financed hydro schemes which represent all but the smaller projects

likely to be considered for private financing in the future The projects are located in five countries where the power sector is at different stages of maturity and deregulation They include multi and single purpose projects intended for both domestic supply and export

**Ukraine on the Road to Europe** Lutz Hoffmann,Felicitas Möllers,2012-12-06 by Viktor A Yushchenko Prime Minister of Ukraine The intensification of the integration processes on our continent entirely coincides with the national interests of Ukraine a country which is undoubtedly European both geographically and politically What kind of Europe do we now have and what should it be in the future What should the role of Ukrainian society be in the economic social and cultural integration of the countries on the European continent These questions are the subject of research and scientific analysis by the well known economists whose work is contained in this book Let there be no doubt the strategic goal of Ukraine s foreign policy is the active participation of our country in the European integration process Thus the move toward co operation and gradual integration with the European Union was defined as one of the main priorities of the Ukrainian Government s programme Reforms for Well being which is based on President Leonid Kuchma s speech Ukraine Steps into XXI century and was approved by the Ukrainian Parliament This move is not a hasty response to a new trend but rather a pragmatic decision since the EU will define the face of Europe for the next century

**Managing the Real and Fiscal Effects of Banking Crises** Daniela Klingebiel,Luc Laeven,2002 This volume provides two recent analyses of government responses to financial crises they have been developed in the light of the recent East Asian crisis but also draw on experiences from other regions Issues discussed relate to the tradeoffs involved in public policies for systemic financial and corporate sector restructuring and the use of cross country evidence to determine whether specific crisis containment and resolution policies effect the fiscal costs of resolving a crisis The book also presents information on 113 systemic banking crises that have occurred in 93 countries since the 1970s as well as 50 borderline or non systemic banking crises in 44 countries during the same period

**Facets of Globalization** Shahid Yusuf,Simon J. Evenett,Weiping Wu,2001-01-01 Since 1985 national economies have become increasingly integrated into a global network At the same time both population and production in developing countries are becoming concentrated in urban regions This in turn has generated demands for more local autonomy shifting more decision making to sub national levels Globalization is expected to continue leading to greater openness and international mobility of capital and people There are few reasons to believe that these trends will abate if anything they are likely to intensify the focus on cities and sharpen competition among these for international and local resources This volume underscores the transformative role of globalization and urbanization and shows the interplay between the two forces

**Structural Adjustment in the Transition** Paul Siegelbaum,2002-01-01 Annotation The study reviews the transition efforts of four countries Albania Azerbaijan Kyrgyz Republic and Moldova to develop recommendations which may benefit countries in future transition efforts These countries have been unable to overcome obstacles to achieve any sustainable success in terms of growth or poverty reduction

*Free Trade Area Membership as a Stepping Stone to*

*Development* Emiko Fukase, Will Martin, 2001 The ASEAN free trade area AFTA was created in 1992 This book presents an overview of the mechanisms of AFTA as well as individual country reports of the costs and benefits of membership The final chapter looks at the potential impact on economic growth

**Options for Managing and Financing Rural Transport Infrastructure** Christina Malmberg Calvo, 1998-01-01 World Bank Technical Paper No 409 In developing and transition economies 60 to 80 percent of all passenger and freight transport moves by road the main form of access for most rural communities Yet most of the 11 million kilometers of roads in these economies are badly maintained and poorly managed This paper discusses one of the most effective ways to promote sound policies for managing and financing road networks commercialization It discusses the emerging central concept of bringing roads into the marketplace putting them on a fee for service basis and managing them like a business

**Making the Transition Work for Women in Europe and Central Asia** Marnia Lazreg, 2000 Women in the Europe and Central Asia region complain about loss of employment sexual harassment violence poor enforcement of the law poor political representation and poor health care Many greet these complaints with skepticism or dismissal Is it economic expedience due to the sheer magnitude of the changes taking place under the transition Did the Soviet legacy delude observers into believing that there is gender equality in the region While budgets shrink how can gender be integrated into country department work programs To answer these and other pressing questions regarding the gender issue the World Bank held a conference in June 1999 Women from the ECA region Western Europe and the United States gathered to address the lack of Bank knowledge of gender issues in the Eastern Europe and Central Asia Region The papers from the conference included in this volume describe the present conditions for women emphasize the need to debunk the myth of gender equality in the Soviet era and propose urgent legislative measures to address gender disparity This publication gives women the opportunity to voice their concerns regarding this issue It will be of interest to regional gender experts ministries and think tanks

**Fostering Competition in China's Power Markets** Noureddine Berrah, Ranjit Lamech, Jianping Zhao, 2001-01-01 This book compares the recent evolution of the structure of inputs and expenditure in Armenia's general education with international norms and practice In the context of the government's sectoral reform strategy it also outlines various proposals for restructuring the system The purpose of this study is to clarify what the inefficiencies might mean for future costs and performance of the system highlight the trade offs involved and identify measures needed to overcome constraints to rationalization

Closing the Gap in Access to Rural Communications Bjorn Wellenius, 2002-01-01 Aunque la reforma a las telecomunicaciones en Chile condujeron al desarrollo rapido en los anos 90 manejadas por el sector privado las areas rurales seguian excluidas en gran parte debido al alto costo para proporcionar el servicio En 1994 el gobierno establecio el Fondo para el Desarrollo de las Telecomunicaciones financiado por presupuesto nacional para catalizar la inversion privada adicional y ponerla al servicio de las telecomunicaciones rurales

Sotnikov,2001-01-01 This study presents the results of the multi country study for farm debt in five Commonwealth of Independent States CIS countries Belarus Kazakhstan Moldova Russia and the Ukraine It offers a comparative analysis of the level and composition of farm debt in these countries and reviews the major reasons for farm debt accumulation in the 1990s

**Electronic Finance** Stijn Claessens,Thomas C. Glaessner,Daniela Klingebiel,2002-01-01 Technological developments in electronic finance have changed the nature and delivery of financial services in recent years especially through the use of online banking online trading and brokerage services This report reviews the developments in e finance and analyses the implications for consumers financial service providers and governments Issues discussed include the impact on competition within the financial services industry how financial sector policies in emerging markets are affected public policy and regulatory requirements

*The Private Sector and Power Generation in China* ,2000-01-01 the Chinese government remains aware of the potential threats to the economy foreign capital flight loss of competitiveness drop in consumers confidence etc and is striving to continue to provide a stable environment for domestic investment and household consumption to maintain growth Since the early 1980s the Chinese Government has eased restrictions on the power industry and ensured private participation in power sector development In the aftermath of the Asian economic and financial crisis concerns are being raised about Chinese currency Renminbi devaluation and the impact of the slowdown of electricity growth on the implementation of past contracts and new investment opportunities To address these concerns China s Ministry of Finance and the World Bank sponsored a two day conference held in Beijing June 22 23 1999 The conference aimed to improve understanding and narrow the gap in perceptions of risks related to project development among government officials representatives of provincial power companies and financial institutions and private investors The first part of this publication is dedicated to the narrative summary of the conference The second part presents a background paper prepared for the conference to take stock of the progress achieved and identify issues and problems that still need to be addressed to create an environment conducive to further private involvement in power sector development This publication will be useful to the international community that is interested in past and future development of private sector involvement in China s power sector such as Chinese government officials power companies private financial institutions and private investors

**Environmental Health** James A. Listorti,Fadi M. Doumani,2001-01-01 Environmental health remains at the periphery of sustainable development because it is inadequately defined and institutionally fragmented This publication aims to provide ways of addressing this multisectoral problem It is in three parts The first looks at harmonising sectoral priorities and shows that environmental health can target at least as much disease as the health sector The second part provides environmental health assessment guidelines The third part looks at the results of a pilot project to put theory into practice in Ghana

*Management and Resolution of Banking*

*Crises* Jose de Luna-Martinez, 2000-01-01 WBI Learning Resources Series Water is a vital element for agricultural production and for economic development in general However the spatial and temporal distribution of water in Mexico restrains its use Because of this distribution it has been necessary to build a large infrastructure to capture store and allot this element among water users Around the world countries that once promoted more government involvement in irrigation management are adopting new policies that do just the opposite creating incentives for farmers to take over the management of operations and maintenance while government agencies focus on improving the management of water at the main system level Is this just another management fad or will the pendulum that is now swinging toward greater management control by farmers soon swing back the other way toward greater state control This volume reports on four countries where the state's role in irrigation management has undergone fundamental change and where the result has been a much greater management role for farmers These studies address the political antecedents of participatory irrigation management PIM policies the process of implementing the policies and the second generation challenges of sustaining PIM These experiences will prove useful to policymakers and irrigation professionals who are facing similar challenges in their own countries Hungary Mihaly Kopanyi, 2000-01-01 Modernisation of the public sector reforming intergovernmental fiscal relations enhancing the local capacity to implement local strategies and developing the legislative and institutional framework for efficient delivery of public services are among the biggest challenges in transition economies Hungary has been a pioneer in local government reform and the Hungary Subnational Development Program SNDP proves the value of an integrated approach
