Economic Survey Of The Baltic States:

Economic Survey of the Baltic States Brian Van Arkadie, Mats Karlsson, 1992 Estonia Latvia and Lithuania are determined to seek national independence and to engage in a transformation of their economies Amongst all of the Soviet Republics the Baltics are in the strongest position to do so The period under Soviet rule has led to an unbalanced industrial structure characterized chiefly in the bias towards large scale state owned industrial enterprises However within this constraint the Baltics have also succeeded in developing high tech industry and this could provide the necessary flexibility to shift the industrial emphasis and adjust to the requirements of international trade *OECD Economic Surveys: Baltic States 2000* OECD, 2000-03-01 OECD s 2000 survey of the Baltic economies This edition includes special features covering banking and financial system reform enterprise reform and economic restructuring and labour market and social policy developments in Estonia Latvia and Lithuania *OECD Economic Surveys: Estonia 2009* OECD, 2009-04-18 Estonia grew faster than most emerging market economies during 2000 07 but it is now in a severe recession This first edition of OECD s periodic review of Estonia s economy includes chapters covering getting back to a sustainable growth path *The Baltic states* OCSE., 2000

OECD Economic Surveys: Lithuania 2020 OECD, 2020-11-23 Lithuania s economy is performing strongly and converging fast towards the most developed OECD countries driven by growing exports and investments and supported by a sound macroeconomic framework as well as a friendly business climate For the first time since renewed independence more people are settling in the country than leaving it The peak of the COVID 19 crisis was one of the mildest in Europe thanks to a well functioning health system effective containment measures and a relatively short lockdown Yet prosperity is unevenly distributed across people and places Further reform could help sustain achievements to date Providing adequate income support for the needy especially the elderly and high quality social services while improving integration into the labour market could help reduce poverty Stronger local and regional institutions better education and skills particularly in rural areas and a more flexible housing market could make regional development more balanced Finally strengthening the regulatory framework reducing the scope of state owned enterprises and moving towards a low carbon economy will help raise productivity while ensuring resilient and sustainable growth SPECIAL FEATURES REDUCING POVERTY FOSTERING REGIONAL DEVELOPMENT The Baltic States Thomas Lane, Artis Pabriks, Aldis Purs, David J. Smith, 2013-11-05 Since the end of the Cold War there has been an increased interest in the Baltics The Baltic States brings together three titles Estonia Latvia and Lithuania to provide a comprehensive and analytical guide integrating history political science economic development and contemporary events into one account Since gaining their independence each country has developed at its own pace with its own agenda and facing its own obstacles The authors examine the tensions accompanying a post communist return to Europe after the long years of separation and how each country has responded to the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations

with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU *The Baltic Sea Region* Witold Maciejewski, 2002 Nation-Building in the Baltic States Gundar J. King, David E. McNabb, 2014-08-26 The product of more than twenty years of research first person observations discussions and policy analyses Nation Building in the Baltic States Transforming Governance Social Welfare and Security in Northern Europe explores the characteristics of the Baltic states as positioned in the northeast corridor in terms of military strife and polity development such as democratization It details governments efforts to abet transparency and trust by way of developing new public and private institutions for advancements like innovation and private wealth creation The book examines the effects of various factors of economic and social adjustments in Estonia Latvia and Lithuania The authors explore the opportunities and problems that have shaped the region s progress in the process of rebuilding democratic institutions and nation states after regaining their independence They then describe the region s progress in laying the critical internal foundation necessary for maintaining their political independence The book also reviews the progress made in strengthening what the authors believe are key social functions of government in what the EU describes as its social market system the provision of social welfare services that meets the needs of all The book concludes with a realistic picture of future hurdles for this region looking at lingering challenges and regional instabilities policy mistakes not to be made again and recommendations for national planning and resource management Going beyond a massive single explanation of recent Baltic developments the book provides a broad picture of development of social and political trends and insights with separate evaluations of issues in the process of national transformation It provides a foundation examining the forces that will shape the future of the Baltic states **OECD**

S. Schwartz,2006-11-26 In this groundbreaking book Katrina Schwartz examines the intersection of environmental politics globalization and national identity in a small East European country modern day Latvia Based on extensive ethnographic research and lively discourse analysis it explores that country s post Soviet responses to European assistance and political pressure in nature management biodiversity conservation and rural development These responses were shaped by hotly contested notions of national identity articulated as contrasting visions of the ideal rural landscape The players in this story include Latvian farmers and other traditional rural dwellers environmental advocates and professionals with divided attitudes toward new European approaches to sustainable development An entrenched set of forestry and land management practices

with roots in the Soviet and pre Soviet eras confront growing international pressures on a small country to conform to current Western notions of environmental responsibility notions often perceived by Latvians to be at odds with local interests While the case is that of Latvia the dynamics Schwartz explores have wide applicability and speak powerfully to broader theoretical discussions about sustainable development social constructions of nature the sources of nationalism and the impacts of globalization and regional integration on the traditional nation state OECD Economic Surveys: Latvia 2017 OECD,2017-09-15 Latvia s economy has grown robustly in recent years on the back of a strong track record in implementing structural reforms despite a challenging international environment Rising wages have supported household consumption
