*Challenges and Reforms of Economic Regulation in MENA Countries* Imed Limam,2003 Focuses on the challenges faced by MENA economies to improve their competitiveness in the world economy **State-Owned Enterprises in the Middle East and North Africa** Merih Celasun,2013-01-11 In the rapid world wide spread of privatization progress in the Middle East and North Africa region has been markedly slow This volume argues that a high level of overstaffing in public enterprises and the inability of economies to create jobs fast enough is mainly responsible for this An in depth study of the facts and a well supported conclusion makes this an impressive collection of work on a very pertinent subject Economic Policy and Performance in the Arab World Paul Rivlin,2001 An exploration of the domestic and international pressures that affect economic policy and performance in the Arab states Paul Rivlin finds that during the last decade of the 20th century these pressures combined to simultaneously foster change and limit available policy options **Research for Development in the Middle East and North Africa** International Development Research Centre (Canada),2000 Research for Development in the Middle East and North Africa **Tunisia's Economic Development** Mustapha K. Nabli,Jeffrey B. Nugent,2022-09-16 This book identifies the differences in growth and development and the various factors lying behind them across both Middle East and North African MENA and East Asian countries over the 1960 2020 period It considers a very wide range of factors compares initial situations institutions and government policies the dynamic responses to changing circumstances and discusses the inability of the governments of the MENA region to achieve not only political reform but also the kinds of economic reform that would allow their citizens to prosper in an increasingly globalized world The book focuses on Tunisia Since its independence in 1956 until 2010 Tunisia had considerable success relative to many other MENA countries but was somewhat less successful relative to East Asian countries Since 2010 however while transitioning away from autocracy to democracy it has been in rather serious economic decline The book highlights how both the factors

identified as enabling Tunisia's initial success and those leading to its subsequent decline can provide many useful insights for improving the management of economic development across the whole MENA region and perhaps also to developing countries throughout the world      **The Routledge Handbook on the Middle East Economy** Hassan

Hakimian, 2021-07-08 This Handbook captures the salient features of Middle Eastern economies and critically examines the public policy responses required to address the challenges and opportunities across the region Bringing together wide ranging perspectives from carefully selected and renowned subject specialists the collection fills a gap in this relatively young and growing academic field Combining discussion of theory and empirical evidence the book maps out the evolution of Middle East economics as a field within area studies and applied development economics Presented in six thematic sections the book enables the reader to gain a comprehensive understanding of the region's main economic themes and issues Growth and development in comparative perspectives Labour force and human development Natural resources resource curse and trade Poverty inequality and social policy Institutions and transition to democracy Corruption conflict and refugees Providing an overview of the principal economic problems policies and performances relating to the countries in the Middle East and North Africa region this collection will be a key resource for upper level undergraduates graduates and scholars with an interest in Middle East economics applied development economics development studies and area studies      *The Political Economy of Saudi Arabia* Tim Niblock, Monica Malik, 2007-11-13 Written by a highly reputable author this book provides a much needed broad ranging survey of the development of the Saudi economy from the 1960s to the present day

**Entanglements of the Maghreb** Julius Dinstelhoff, Charlotte Pardey, Rachid Ouaisa, Friederike Pannewick, 2021-09-03 The impulse for the recent transformations in the Arab world came from the Maghreb Research on the region has been on the rise since yet much remains to be done when it comes to interdisciplinary comparative research The Maghreb is a heterogeneous region that deserves thorough investigation This volume focuses on Entanglements as a cross field and cross lingual concept to generate a new approach to the region and its inner interdependencies as well as exchanges with other regions Eminent researchers conceptualize Entanglements through the description of various thematic fields and actors in motion addressing culture politics social affairs and economics      **States of Discipline** Cemal Burak Tansel, 2017-02-08

Despite the severity of the global economic crisis and the widespread aversion towards austerity policies neoliberalism remains the dominant mode of economic governance in the world What makes neoliberalism such a resilient mode of economic and political governance How does neoliberalism effectively reproduce itself in the face of popular opposition States of Discipline offers an answer to these questions by highlighting the ways in which today's neoliberalism reinforces and relies upon coercive practices that marginalize discipline and control social groups Such practices range from the development of market oriented policies through legal and administrative reforms at the local and national level to the coercive apparatuses of the state that repress the social forces that oppose various aspects of neoliberalization The book

argues that these practices are built on the pre existing infrastructure of neoliberal governance which strive towards limiting the spaces of popular resistance through a set of administrative legal and coercive mechanisms Exploring a range of case studies from across the world the book uses authoritarian neoliberalism as a conceptual prism to shed light on the institutionalization and employment of state practices that invalidate public input and silence popular resistance

Globalization and Geopolitics in the Middle East Anoushiravan Ehteshami,2007-03-14 Examining globalization in the Middle East this book provides a much needed assessment of the impact of globalization in the greater Middle East including North Africa in the context of the powerful geopolitical forces at work in shaping the region today Written by a well known authority in this area this book demonstrates that unlike in other regions such as East Asia geopolitics has been a critical factor in driving globalization in the Middle East The author argues that whereas elsewhere globalisation has opened up the economy society culture and attitudes to the environment in the Middle East it has had the opposite effect with poor state formation little interregional trade foreign and interregional investment and reassertion of traditional identities This book explores the impact of globalization on the politics economies and social environment of the greater Middle East in the context of the region s position as the central site of global geopolitical competition at the start of the twenty first century

**The State and Global Change** Hassan Hakimian,Ziba Moshaver,2020-08-11 Economic liberalisation and reform are widely considered as the favourite remedies for the declining economic fortunes of the Middle Eastern and North African states in the past two decades International economic institutions have been among the main advocates of transition to market led economies in the region and a force contributing to its realisation This has placed the state at the centre of the proposed transformations acting both as an instrument of and an obstacle to change With attempts at liberalisation worldwide spanning over twenty years the time is ripe for a re evaluation of its premises and outcome The essays in this volume debate the political economy of transition and reforms in the Middle East and North Africa drawing on interdisciplinary approaches and outlooks involving international regional and national levels of analysis The three central themes of the book are the rationale and strategies for reform the processes and outcomes and the nature of the state in the changing global setting
