offers an up to date analysis of the European Union with events surrounding such issues as the single currency or EU enlargement It includes analysis of the outcome of the IGC

Regional State Aid and Competition Policy Fiona Wishlade,2003-01-01 The increasing importance attached to the economic and social cohesion of the European Union since the 1980s and the role of competition policy in achieving this objective has special significance for the control of regional aids given the general ban on State aid Regional aids are considered to have the potential to contribute to economic and social cohesion and to undermine its attainment The notion of competition policy as an instrument of economic and social cohesion has become a standard part of Commission rhetoric in defence of its actions This book is concerned with the influence of EU competition policy on the regional policies of the Member States It focuses on how the European Commission has interpreted the derogations from the State aid ban to enable the conduct of regional aid policies The book takes both a historical perspective tracing the evolution of policy and a thematic one examining in particular the relationship between EU competition and cohesion policies and the treatment of aid to very large projects The author clearly demonstrates that in reality the competition policy control of regional aids is of much longer standing than the community s explicit regional aid policy and in many respects of arguably greater influence She shows how competition policy has for almost thirty years shaped the design scope and implementation of national regional aid policies in no EU country has regional policy been unaffected by Commission intervention in the name of competition policy Moreover the policy principles developed for the EU now apply extraterritorially to members of the European Economic Area and to the current applicant countries The study

s overall perspective is policy oriented It considers both the impact of Commission intervention in the past and the implications of policy for the future especially in the context of enlargement and a wider Europe It will be an invaluable resource for all policymakers and practitioners active in the fields of economic development regional policy and State aid law at European national and subnational levels
