The Economics of Household Behavior Peter Kooreman, Sophia Wunderink, 1997-03-14 This new text focuses upon the growing interest in the economic behaviour of households and families and examines the microeconomic behaviour of household units and their place in the macroeconomic environment By combining a number of aspects of household behaviour the authors have produced a stimulating and innovative international text in this topical area **Household**

Economic Behaviors J. A. Molina, 2011-08-31 Significant recent changes in the structure and composition of households make the study of the economic relationships within the household of particular interest for academics and policy makers In this context Household Economic Behaviors through its focus on theoretical and empirical chapters on a range of economic behaviors within the household provides a new and timely viewpoint Following the Introduction and one or two surveys which give a general background the volume includes theoretical and empirical perspectives on allocation of available time within the household monetary and non monetary transfers between household members and intra household bargaining

Environmental Policy and Household Behaviour Patrik Soderholm, 2013-07-04 Our behaviour in our own homes our recycling habits consumer choices and transport preferences all have a huge impact on the environment locally and globally Governments across the world are trying to formulate and implement policies to encourage and enforce more sustainable household actions Yet so often these policies fail to have the desired effects because of a lack of understanding of the complex interplay of policy and individual behaviour This book examines this interplay looking at the role of values attitudes and constraints in the links between policy and changing behaviour at the household level The first part of the book explores the theoretical background looking at the politics of lifestyles and lifestyle change policy legitimacy and barriers and facilitators for pro environmental behaviour The second part is made up of in depth case studies from Sweden one of the fore running countries in this area examining three main types of household behaviour waste and recycling consumption and labelling and transportation choices Within these case studies the contributors examine what policy initiatives have and haven't worked and the role of values and constraints in those processes This is the first inter disciplinary in depth look at how environmental policy enters the private domestic sphere The theoretical insights and policy guidance the book offers will be vital in the drive to generate behaviour change at the household level and the move towards sustainable societies

The role of "informal" activity in household economic behaviour James Cécora, Josef Heinz Müller, 2022 **Handbook of Contemporary Education Economics** Geraint Johnes, Jill Johnes, Tommaso Agasisti, Laura López-Torres, 2017-12-29 This Handbook provides a comprehensive overview of the modern economics of education literature bringing together a series of original contributions by globally renowned experts in their fields Covering a wide variety of topics each chapter assesses the most recent research with an emphasis on skills evaluation and data analytics OECD Studies on Environmental Policy and Household Behaviour Greening Household Behaviour Overview from the 2011 Survey - Revised edition OECD, 2014-07-04

This publication presents the results of a survey conducted in 2011 on household behaviour regarding energy food transport waste and water and covering 11 countries This edition replaces the one posted in 2011 **Lectures on Public Economics**

Stiglitz, 2015-06-09 The definitive textbook on public finance now back in print for the first time in years This classic introduction to public finance remains the best advanced level textbook on the subject ever written First published in 1980 Lectures on Public Economics still tops reading lists at many leading universities despite the fact that the book has been out of print for years This new edition makes it readily available again to a new generation of students and practitioners in public economics The lectures presented here examine the behavioral responses of households and firms to tax changes Topics include the effects of taxation on labor supply savings risk taking the firm debt and economic growth The book then delves into normative questions such as the design of tax systems optimal taxation public sector pricing and public goods including local public goods Written by two of the world's preeminent economists this edition of Lectures on Public Economics features a new introduction by Anthony Atkinson and Joseph Stiglitz that discusses the latest developments in the field and areas for future research The definitive advanced level textbook on public economics Examines the effects of taxation on households and firms Covers tax system design optimal taxation public sector pricing and more Includes suggestions for further reading Additional resources available online Problems, Methods and Tools in Experimental and Behavioral Economics

Kesra Nermend, Małgorzata Łatuszyńska, 2018-09-18 These proceedings highlight research on the latest trends and methods in experimental and behavioral economics Featuring contributions presented at the 2017 Computational Methods in Experimental Economics CMEE conference which was held in Lublin Poland it merges findings from various domains to present deep insights into topics such as game theory decision theory cognitive neuroscience and artificial intelligence The fields of experimental economics and behavioral economics are rapidly evolving Modern applications of experimental economics require the integration of know how from disciplines including economics computer science psychology and neuroscience The use of computer technology enhances researchers ability to generate and analyze large amounts of data allowing them to use non standard methods of data logging for experiments such as cognitive neuronal methods Experiments are currently being conducted with software that on the one hand provides interaction with the people involved in experiments and on the other helps to accurately record their responses The goal of the CMEE conference and the papers presented here is to provide the scientific community with essential research on and applications of computer methods in experimental economics Combining theories methods and regional case studies the book offers a valuable resource for all researchers scholars and policymakers in the areas of experimental and behavioral economics *OECD Studies on Environmental Policy and Household Behaviour Greening Household Behaviour The Role of Public Policy* OECD, 2011-03-07 This publication presents the main results and policy implications of an OECD survey of more than 10 000 households in 10 countries It offers new insight into what policy measures really work looking at what factors affect people's

behaviour towards the environment **The New Palgrave Dictionary of Economics** ,2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product *Political Economy of the Environment* Simon Dietz,Jonathan Michie,Christine Oughton,2011-02-01 This book is the culmination of several years work by a group of academics policy makers and other professionals looking to understand how alternative economic thinking and indeed thinking from quite different social scientific disciplines could enhance the mainstream economic approach to environmental and natural resource problems Of the editors Dietz comes from the mainstream economics tradition while Michie and Oughton draw explicitly on institutional and evolutionary economics The various authors represent a range of disciplinary backgrounds and approaches This book draws on the strengths of each and all of these approaches to analyse environmental issues and what can be done to tackle these through corporate and public policy The book argues that the need for an inter disciplinary approach Two themes which emerge repeatedly throughout the book are the need for an interdisciplinary theory of technological change and the need for a similarly interdisciplinary approach to the study of human behaviour and how it influences both production and consumption choices The two themes are of course related Resolving environmental questions requires an understanding of their nature of their causes and to the extent that they are anthropogenic of how to change human behaviour These fundamental issues are the focus of the four chapters that form Part 1 of this volume The remainder of the volume develops them in more detail *Valuation Methods and Policy Making in Environmental Economics* H. Folmer,E.C. van Ierland,1989-05-01 This volume considers in depth some valuation methods and aspects of cost benefit analysis and policy making in environmental economics Part I contains a number of contingent valuation studies for non market assets Part II consists of contributions on the valuation of health and life and deals with the benefits of reduced morbidity from air pollution control In Part III cost benefit analysis for environmental policy making is discussed in a disequilibrium setting and in a macroeconomic context Finally Part IV deals with aspects of policy making particularly benefit estimation for complex policies and the international aspects of transboundary air pollution in Europe The book should not only appeal to students and researchers in university departments of economics and environmental sciences but also to those working in public organisations and associated advisory institutes which are concerned with environmental problems *Economic Well-being and Household Debt* Agnieszka Wałęga,Grzegorz Wałęga,Ryszard Kowalski,2022-08-12 The growing indebtedness of households reported over the last 30 years and in most developed countries has serious economic and social implications This book provides insight into the concepts measures and determinants of household indebtedness over indebtedness and well being by integrating theoretical perspectives adopting recent analytical methods and using a sample of Polish households The authors identified the socio demographic and

economic characteristics of indebted and over indebted households as well as the basic characteristics of indebtedness and the differences in its subjective perception among over indebted households and those that are not over indebted They determined the spatial differentiation of over indebtedness examining the relationship between economic social and behavioural factors and over indebtedness and the role of over indebtedness in shaping the economic well being of households The results of a questionnaire conducted on a sample of Polish households and econometric modelling served as the basis for assessing the economic well being of indebted households This assessment was conducted with the use of a composite well being indicator developed by the authors Given the multidimensional nature of the issues being analysed the authors offer an approach that accounts for two separate but overlapping dimensions of economic well being namely material and financial and two ways of assessing each of them objective and subjective The book holds appeal for researchers scholars and students of economics finance consumer economics and economic psychology and offers practical guidance for policymakers and advisors who deal with consumer affairs
