Economics Of Healthcare Financing:

The Law and Policy of Healthcare Financing Wolf Sauter, Jos Boertjens, Johan van Manen, Misja Mikkers, 2019 Examining the ways and extent to which systemic factors affect health outcomes with regard to quality affordability and access to curative healthcare this explorative book compares tax funded Beveridge systems and insurance based Bismarck systems Containing contributions from national experts The Law and Policy of Healthcare Financing charts and compares the merits of healthcare systems throughout 11 countries from the UK to Colombia

Economics of Health Care Financing Cam Donaldson, Karen Gerard, 1993 This new edition examines the economics of health care systems in a non technical manner highly accessible for economists and non economists alike It is very timely and includes the latest evidence of health care reforms and their implications from a number of countries with different systems

Health Care Financing and Insurance Francesco Paolucci, 2010-10-28 As a contribution to the search for suitable and sustainable solutions to finance rising medical care expenditures the book proposes a typology of healthcare financing and insurance schemes based on the dimensions of basic vs supplementary services and mandatory vs voluntary coverage to analyse the design and the complex interactions between various financing and insurance arrangements in several OECD countries This study provides a better understanding of the strengths and weaknesses of the financial and organisational structures of different countries healthcare financing and insurance schemes Its main contributions are the development of a novel and rigorous theoretical framework analysing the economic rationales for the optimal design of healthcare financing and insurance schemes and an empirical and institutional analysis investigating the consequences for efficiency and affordability of the complex interactions between basic and supplementary sources of financing

Health Economics and Financing Thomas E. Getzen, Michael S. Kobernick, 2022-02-08 The latest edition of the gold standard in the economics and financing of health care In the newly revised Sixth Edition of Health Economics and Financing an expert team of authors delivers an authoritative discussion of key topics in the economic and finance issues relevant to health care From cost benefit and cost effectiveness analyses to the economic considerations driving the choices of physicians hospitals and pharmaceutical companies the book explores the influence of financial considerations both public and private that remain front of mind for modern health care decision makers

Theory and Practice of Managed Competition in Health Care Finance A.C. Enthoven, 2014-04-23 These lectures review the research and experience on the subject of health care economy The author also sets down a moderately rigorous statement of the economic concepts underlying the kind of competition that he regards as the most promising way to achieve a reasonable degree of equity and efficiency in health care The first lecture is on the public policy goals of health care financing and delivery and discusses efficiency in health care The second presents an economic analysis of the systems for organizing and financing medical care systems in the United States The third lecture is about managed competition and the fourth reviews American experience with efforts to convert from the traditional system to a competitive system The book is

addressed primarily to economists health policy makers and health services researchers It explains how market forces may be managed in pursuit of equity and efficiency in health care It addresses systematically many of the causes of market failure and proposes a strategy managed competition for overcoming them It should be of interest to policy makers in any country interested in incentives for more efficient health care delivery It should also be very useful supplemental reading for courses in health care economics

Serious and Unstable Condition Henry Aaron,2010-12-01 The United States spends more on health care than any other nation in the world yet millions of Americans cannot afford basic care for acute illnesses few are insured against the costs of long term care and many frequently used medical procedures have never been fully evaluated The goals of controlling spiraling health care costs and extending insurance coverage or even maintaining current insurance coverage seem to be in conflict But progress can be made on both goals if they are tacked together Henry Aaron evaluates these critical issues and explores how adequate care can be provided without fueling inflation Because the current arrangements for financing America s health care cannot endure Aaron contends that a major national debate on the restructuring of the U S system of financing health care is inescapable and major legislation is likely Serious and Unstable Condition offers a guide that is crucial to understanding the reform debate It explains the important economic issues of health care as a background for evaluating both the current system and proposals for change Aaron compares the U S system of health care financing with certain foreign systems and reviews major options for reform He cautions that unless the health insurance system is radically changed the number of uninsured will continue to increase and costs will continue to escalate He then offers his own comprehensive plan to address these problems
