Smith, 2019-01-30 Female seminaries in nineteenth century America offered middle class women the rare privilege of training in music and the liberal arts A music background in particular provided the foundation for a teaching career one of the few paths open to women Jewel A Smith opens the doors of four female seminaries revealing a milieu where rigorous training focused on music as an artistic pursuit rather than a social skill Drawing on previously untapped archives Smith charts women s musical experiences and training as well as the curricula and instruction available to them the repertoire they mastered and the philosophies undergirding their education She also examines the complex tensions between the ideals of a young democracy and a deeply gendered system of education and professional advancement An in depth study of female seminaries as major institutions of learning Transforming Women's Education illuminates how musical training added to women's lives and how their artistic acumen contributed to American society The Propaganda of Freedom Joseph Horowitz, 2023-09-26 The perils of equating notions of freedom with artistic vitality Eloquently extolled by President John F Kennedy the idea that only artists in free societies can produce great art became a bedrock assumption of the Cold War That this conviction defied centuries of historical evidence to say nothing of achievements within the Soviet Union failed to impact impregnable cultural Cold War doctrine Joseph Horowitz writes That so many fine minds could have cheapened freedom by over praising it turning it into a reductionist propaganda mantra is one measure of the intellectual cost of the Cold War He shows how the efforts of the CIA funded Congress for Cultural Freedom were distorted by an anti totalitarian psychology of exile traceable to its secretary general the displaced Russian aristocrat composer Nicolas Nabokov and to Nabokov s hero Igor Stravinsky In counterpoint Horowitz investigates personal social and political factors that actually shape the creative act He here focuses on Stravinsky who in Los Angeles experienced a freedom not to matter and Dmitri Shostakovich who was both victim and beneficiary of Soviet cultural policies He also takes a fresh look at cultural exchange and explores paradoxical similarities and differences framing the popularization of classical music in the Soviet Union and the United States In closing he assesses the Kennedy administration s arts advocacy initiatives and their pertinence to today s fraught American national identity Challenging long
