**Hair Matters** Ingrid Banks, 2000-01-01 Substantive ethnographically informed research on the politics of Black hair. Drawing on interviews with over 50 women from teens to seniors, *Hair Matters* is the first book on the politics of Black hair to be based on substantive ethnographically informed research. Focusing on the everyday discussions that Black women have among themselves and about themselves, Ingrid Banks analyzes how talking about hair reveals Black women's ideas about race, gender, sexuality, beauty, and power. Ultimately, what emerges is a survey of Black women's consciousness within both their own communities and mainstream culture at large. *UCSF News* University of California, San Francisco, 1993

**Blue Veins and Kinky Hair** Obiagele Lake, 2003-06-30 The author explores how Africans in America internalized the negative images created of them by the European world and how internalized racism has worked to fracture African American unity and thereby dilute inchoate efforts toward liberation. In the late 1960s, change began with the Black Is Beautiful slogan and new a consciousness which went hand in hand with Black Power and pan African movements. The author argues that for any people to succeed they must first embrace their own identity, including physical characteristics. Naming skin color and hair have been topical issues in the African American community since the 18th century. These three areas are key to a sense of identity and self, and they were forcefully changed when Africans were taken out of Africa as slaves. The author discusses how group and personal names, including racial epithets, have had far-reaching and deep-seated effects on African American self-perception. Most of her attention, however, is focused on issues of physical appearance which reflect a greater or lesser degree of racial blending. She tells us about exclusive African American organizations such as The Blue Vein Society in which membership was extended to African Americans whose skin color and hair texture tended toward those of European Americans, although wealthy dark-skinned people were also eligible. Much of the book details the lengths to which African American women have gone to lighten their complexions and straighten their hair. These endeavors started many years ago and still continue, although today there is also a large number of women who are adamantly going natural. Her historical look at the cultural background to African American issues of hair and skin is the first monograph of its kind.

Permanent Waves Julie Ann Willett, 2000-06-01 Throughout the twentieth century, beauty shops have been places where women could enjoy the company of other women, exchange information, and share secrets. The female equivalent of barbershops, they have been institutions vital to community formation and social change. But while the beauty shop created community, it also reflected the racial segregation that has so profoundly shaped American society. Links between style, race, and identity were so intertwined that for much of the beauty shop's history, black and white hairdressing industries were largely separate entities with separate concerns. While African American hair care workers embraced the chance to be independent from white control, negotiated the meanings of hair

straightening and joined in larger political struggles that challenged Jim Crow white female hairdressers were embroiled in struggles over self definition and opposition to their industry s emphasis on male achievement Yet despite their differences black and white hairdressers shared common stakes as battles were waged over issues of work skill and professionalism unique to women s service work Permanent Waves traces the development of the American beauty shop from its largely separate racial origins through white recognition of the ethnic market to the present day *From the Kitchen to the Parlor* Lanita Jacobs-Huey,2006-04-20 When is hair just hair and when is it not just hair Documenting the politics of African American women s hair this multi sited linguistic ethnography explores everyday interaction in beauty parlors Internet discussions comedy clubs and other contexts to illuminate how and why hair matters in African American women s day to day experiences **Engendering Rationalities** Nancy Tuana,Sandra Morgen,2001-09-27 Cutting edge feminist investigations of rationality Resistance and Empowerment in Black Women's Hair Styling Elizabeth Johnson,2016-04-08 Elizabeth Johnson s *Resistance and Empowerment in Black Women s Hair Styling* develops the argument that one way Black women define themselves and each other is by the way they style groom their hair via endorsement by the media through advertisement idealized identification of Black female celebrities and encouragement by professional celebrity hair stylists who serve as change agents As a result hair becomes a physical manifestation of their self identity revealing a private and personal mindset Her research answers the following questions What is the relationship between Black females choice of hairstyles grooming and transmitted messages of aesthetics by the dominant culture through culturally specific magazines What role do the natural hair blogs vlogs play as a change agent in encouraging or discouraging consumers grooming their hair in its natural state What impact does a globalized consumer market of Black hair care products have on Hispanic Latinas and Bi Racial women Are Black female Generation Y members more likely to receive backlash for failure to conform their hair to dominant standards in their hair adornment in the workplace Johnson thus demonstrates that the major concern from messages sent to Black women about their hair is its impact on Black identity Thus the goal of Black women should be to break with hegemonic modes of seeing thinking and being for full liberation This critical and deep consciousness will debunk the messages told to Black women that their kinky frizzy thick hair is undesirable bad unmanageable and shackling
