Historical Dictionary of Jazz John S. Davis, 2020-09-15 Jazz is a music born in the United States and formed by a combination of influences In its infancy jazz was a melting pot of military brass bands work songs and field hollers of the United States slaves during the 19th century European harmonies and forms and the rhythms of Africa and the Caribbean Later the blues and the influence of Spanish and French Creoles with European classical training nudged jazz further along in its development As it moved through the swing era of the 1930s bebop of the 1940s and cool jazz of the 1950s jazz continued to serve as a reflection of societal changes During the turbulent 1960s freedom and unrest were expressed through Free Jazz and the Avant Garde Popular and world music have been incorporated and continue to expand the impact and reach of jazz Today jazz is truly an international art form This second edition of *Historical Dictionary of Jazz* contains a chronology an introduction and an extensive bibliography The dictionary section has over 1 500 cross referenced entries on musicians styles of jazz instruments recording labels bands and band leaders and more This book is an excellent resource for students researchers and anyone wanting to know more about Jazz ***Lonesome Roads and Streets of Dreams*** Andrew S. Berish, 2024-05-31 Any listener knows the power of music to define a place but few can describe the how or why of this phenomenon In *Lonesome Roads and Streets of Dreams* Place Mobility and Race in Jazz of the 1930s and 40s Andrew Berish attempts to right this wrong showcasing how American jazz defined a culture particularly preoccupied with place By analyzing both the performances and cultural context of leading jazz figures including the many famous venues where they played Berish bridges two dominant scholarly approaches to the genre offering not only a new reading of swing era jazz but an entirely new framework for musical analysis in general one that examines how the geographical realities of daily life can be transformed into musical sound Focusing on white bandleader Jan Garber black bandleader Duke Ellington white saxophonist Charlie Barnet and black guitarist Charlie Christian as well as traveling from Catalina Island to Manhattan to Oklahoma City *Lonesome Roads and Streets of Dreams* depicts not only a geography of race but how this geography was

disrupted how these musicians crossed physical and racial boundaries from black to white South to North and rural to urban and how they found expression for these movements in the insistent music they were creating

The Rise of a Jazz Art World Paul Douglas Lopes, 2002-05-30 This 2002 book presents a unique sociological vision of the evolution of jazz in the twentieth century Analysing organizational structures and competing discourses in American music Paul Lopes shows how musicians and others transformed the meaning and practice of jazz Set against the distinct worlds of high art and popular art in America the rise of a jazz art world is shown to be a unique movement a socially diverse community struggling in various ways against cultural orthodoxy Cultural politics in America is shown to be a dynamic open and often contradictory process of constant re interpretation This work is a compelling social history of American culture that incorporates various voices in jazz including musicians critics collectors producers and enthusiasts Accessibly written and interdisciplinary in approach it will be of great interest to scholars and students of sociology cultural studies social history American studies African American studies and jazz studies

Representing Jazz Krin Gabbard, 1995 Traditional jazz studies have tended to see jazz in purely musical terms as a series of changes in rhythm tonality and harmony or as a parade of great players But jazz has also entered the cultural mix through its significant impact on novelists filmmakers dancers painters biographers and photographers Representing Jazz explores the other history of jazz created by these artists a history that tells us as much about the meaning of the music as do the many books that narrate the lives of musicians or describe their recordings Krin Gabbard has gathered essays by distinguished writers from a variety of fields They provide engaging analyses of films such as *Round Midnight* *Bird* *Mo Better Blues* *Cabin in the Sky* and *Jammin the Blues* the writings of Eudora Welty and Dorothy Baker the careers of the great lindy hoppers of the 1930s and 1940s Mura Dehn s extraordinary documentary on jazz dance the jazz photography of William Claxton painters of the New York School the traditions of jazz autobiography and the art of vocalese The contributors to this volume assess the influence of extramusical sources on our knowledge of jazz and suggest that the living contexts of the music must be considered if a more sophisticated jazz scholarship is ever to evolve

Transcending the familiar patterns of jazz history and criticism Representing Jazz looks at how the music actually has been heard and felt at different levels of American culture With its companion anthology *Jazz Among the Discourses* this volume will enrich and transform the literature of jazz studies Its provocative essays will interest both aficionados and potential jazz fans

Lana Turner and the mysterious Madame Sul Te Wan who shared a close lifelong friendship with pioneering director D W Griffith But Bogle also looks at other members of the black community from the white stars black servants who had their own money and prestige to gossip columnists hairstylists and architects and at the world that grew up around them along Central Avenue the Harlem of the West In the tradition of Hortense Powdermaker s classic Hollywood The Dream Factory and Neal Gabler s An Empire of Their Own in Bright Boulevards Bold Dreams Donald Bogle re creates a vanished world that left an indelible mark on Hollywood and on all of America
