Good Wood Guide:

Good wood guide ,1990 **The Good Wood Guide** ,1992 *Good Wood Guide* Albert Jackson,David Day,2002 This publication is a comprehensive guide to selecting the right wood for the job including hardwoods softwoods veneers and man made boards It should be a useful reference for every woodwork enthusiast The book provides information on all types of wood and their practical uses Topics include wood as a raw material woods of the world softwoods hardwoods wood veneers man made boards wood finishes and tree species **The Good Wood and Paper Guide** Anthony Amis,1999 *Speaking Private Authority* Roberto J. Flores,2020-05-26 *Speaking Private Authority* The Construction of Sustainability in Forests and Fisheries expands upon current understandings of the emergent global phenomenon that is private authority As private authority is becoming increasingly important in the conduct of global governance broadening our collective understanding of it will prove beneficial Roberto J Flores argues that private actors are not simply outgrowths of existent social structures or material conditions rather they are purposive agents strategically pursuing an agenda Therefore explaining private authority requires an examination of the constitutive elements that underlie this social phenomenon to which the author applies an analytical framework that combines social network theory with discourse analysis The author applies these tools to two cases taken from the environmental sector forests and fisheries and finds that as environmental politics takes on an increasingly networked character the actors that are best able to generate and wield private authority are those that strategically place themselves in between networks through the construction of discursive nodal points around which competing actors are forced to converge at the level of identity The case studies specifically look at how particular actors leveraged construction of the sustainable development concept in order to strategically place themselves in advantageous positions for exercising private authority *The New Guide to North Carolina Beaches* Glenn Morris,2019-03-05 *The New Guide to North Carolina Beaches* is an invaluable resource for every coastal traveler in the Tar Heel State This descriptive guide to North Carolina s coastal counties goes far beyond the basics to showcase all that the seaside has to offer from beach access points and camping options to aquariums museums and other attractions Glenn Morris also shares informative and entertaining histories of each county insights into the maritime environment and its wildlife and useful tips on subjects like the dos and don ts of beach driving A beach by beach tour of more than 300 miles of coastline Highlights public access points for beachgoers Offers practical guidance for trip planning whether day trips or weeklong vacations Includes detailed maps contact information hours of operation and much more **Consumerism in Twentieth-Century Britain** Matthew Hilton,2003-11-13 This book is the first comprehensive history of consumerism as an organised social and political movement Matthew Hilton offers a groundbreaking account of consumer movements ideologies and organisations in twentieth century Britain He argues that in organisations such as the Co operative movement and the Consumers Association individual concern with what and how we spend our wages led to forms of political engagement too often overlooked in existing

accounts of twentieth century history He explores how the consumer and consumerism came to be regarded by many as a third force in society with the potential to free politics from the perceived stranglehold of the self interested actions of employers and trade unions Finally he recovers the visions of countless consumer activists who saw in consumption a genuine force for liberation for women the working class and new social movements as well as a set of ideas often deliberately excluded from more established political organisations

Promising the Earth Robert Lamb,2012-11-12 This is a tale of our times marking the 25th anniversary of Friends of the Earth Promising the Earth locates the inside story of pioneering campaigns within a broader canvas No single organization s record can expect to paraphrase the development of environmental consciousness and the growth of grassroots environmental movement but experiences bear intimate witness to a story that is still unfolding Enlivened by arresting illustrations and glimpses of colourful personalities that the issues of the day have brought to the fore Promising the Earth takes stock of changing realities in and attitudes to environmental care over the past quarter century This eventful chronical acts as a platform from which to survey the future that lies beyond the threshold of the 21st century

Green Pages John Elkington,Tom Burke,Julia Hailes,2017-10-19 Originally published in 1988 Europeans want a better environment Increasingly too they are demanding the products services legislation and policies that will provide it Green Pages reveals what Europe s environmentalists plan to do next and how environmental pressures will threaten major markets and at the same time opens up new opportunities for business investment and employment Green Pages is a fantastic reference source for green enterprise and will be of interest to students of environmental economics

Branded! Michael E. Conroy,2007-06-01 Making responsible social and environmental choices has not always been a first priority for many corporations but recent history has changed all that Small but mighty NGOs using 21st Century global communications are nipping at the heels of corporations caught in unethical and irresponsible practices NGO market campaigns are moving these companies toward the higher standard now demanded by their clients their consumers and society as a whole The lever that moves these giants is the risk of destroying their carefully built brands if they fail to recognize their moral liability and clean up their practices Branded outlines the ability of NGOs to affect corporate markets It shows how the development of certification systems for corporate social and environmental practices has created some intriguing questions Why are retail giants paying premiums for ethically produced products and not overcharging their customers How have NGOs gained such power and credibility What are the challenges of these new modes of corporate accountability for both NGOs and corporations What are the unexpected opportunities for newly accountable corporations Branded is a must read book for corporate executives NGOs and concerned consumers It is rich with vignettes of firms NGOs campaigns failures successes

memorable personalities and hard fought battles

The Myth of Green Marketing Toby Maureen Smith, 1998-01-01 In this groundbreaking study Toby Smith analyses the role that social myths such as green marketing play in public understanding of the environmental crisis This book introduces the concept of hegemony into environmental politics using the concept to elucidate the political economic and social alliance that sustains our belief in industrial expansionism The ecological crisis of the late twentieth century presents a challenge to the very foundations of this alliance The hegemonic system reacts to a threat to its structure by producing social myths that provide a common sense understanding of the threat Smith examines one such social myth the contemporary phenomenon known as green marketing and how it came to reinforce rather than challenge the ethics of productivism By analysing green marketing as it relates primarily to the early 1990s corporate campaigns of companies such as McDonald s Shell Chemicals and Mobil Chemical Co Smith demonstrates how these voices weave together an understanding of green consumerism using familiar language from economic and liberal democratic discourses The Myth of Green Marketing is an original and important contribution to the field of environmental studies As the first book on green marketing it is sure to raise controversy with its unique discussion of the cultural and social aspects of environmental issues

Sustainability and Toxicity of Building Materials Emina K. Petrović, Morten Gjerde, Fabricio Chicca, Guy Marriage, 2024-02-10 Sustainability and Toxicity of Building Materials Manufacture Use and Disposal Stages provides a review of toxicity impacts from building materials including the consideration of the toxicity in the extraction and manufacture of the materials and eventual dismantling and disposal This book also offers the potential to stimulate future developments in this area both in terms of knowledge building and methods for future research With the increasing emphasis on sustainable construction it has become important to better understand the impacts of common materials Civil and structural engineers postgraduates researchers as well as architects will find this book to be useful in selecting sustainable building materials While many building and furnishing materials are safe to use in recent decades some have had to be redesigned due to recognition that they contained problem chemicals like formaldehyde Unfortunately there is still limited understanding of the toxic impacts of many synthetic chemicals which means that the risks in this area are not well recognized With increasing interest in using limited resources more sustainably definitions of what is sustainable should be expanded to move from the focus on energy and carbon impacts to also include more explicit consideration of toxicity impacts Examines toxicity in the extraction and manufacturing of materials Presents the short and long term toxicity effects
