Goodyear Invades Backcountry Bryan D. Palmer, 1994 *Goodyear Invades Backcountry* Bryan D. Palmer, 1994

Places and Politics in an Age of Globalization Roxann Prazniak, Arif Dirlik, 2001-02-07 This ambitious work provides a unique statement on the question of place based activism and its relationship to powerful forces of international capital. Arguing that specific places around the world are sites for the defense and enhancement of daily life in the context of rapidly expanding global technologies and investment options, the contributors reach for a vision of social development that supports sustainable humane cultures. Bringing together the local and the global, this work provides the first sustained linkage of ethnic groups in diaspora to macrocosmic processes of world capital that inevitably reach down to mediate even the most local experiences. The essays, ranging in their discussion of place from Los Angeles and New York to New Zealand and Indonesia, offer both reasoned argument and authoritative information on how local experience interacts with larger processes of global capital and the diasporic phenomenon. The book will be an invaluable resource and launching point for scholars and students in ethnic and identity studies and will interest all readers exploring the production of place and identification.

Dissenting Traditions Sean Carleton, Ted McCoy, Julia Smith, 2021-07-12 The work of Bryan D. Palmer, one of North America's leading historians, has influenced the fields of labour history, social history, discourse analysis, communist history, and Canadian history, as well as the theoretical frameworks surrounding them. Palmer's work reveals a life dedicated to dissent and the difficult task of imagining alternatives by understanding the past in all of its contradictions, victories, and failures. *Dissenting Traditions* gathers Palmer's contemporaries, students, and sometimes critics to examine and expand on the topics and themes that have defined Palmer's career, from labour history to Marxism and communist politics. Paying attention to Palmer's participation in key debates, contributors demonstrate that class analysis, labour history, building institutions, and engaging the public are vital for social change. In this moment of increasing precarity and growing class inequality, Palmer's politically engaged scholarship offers a useful roadmap for scholars and activists alike and underlines the importance of working class history. With contributions by Alan Campbell, Alvin Finkel, Sam Gindin, Gregory S. Kealey, John McIlroy, Kirk Niegard, Bryan D. Palmer, Leo Panitch, Chad Pearson, Sean Purdy, and Nicholas Rogers.

issues of globalization and industrial economics Organized in two volumes and arranged in A Z order the 350 entries span key events collective actions pivotal figures landmark legislation and important concepts in the world of labor and work

Changing Canada Wallace Clement, Leah F. Vosko, 2003 Changing Canada examines political transformations welfare state restructuring international boundaries and contexts the new urban experience and creative resistance The authors question dominant ways of thinking and promote alternative ways of understanding and explaining Canadian society and politics that encourage progressive social change They examine how the evolution of capitalism is producing new types of transformations and new forms of resistance and show that aspects of the state and the wider society are being contested They also discuss the often paradoxical or contradictory effects of various social forces such as the liberating but also constraining features of new communications technologies new employment norms and new household forms

Rum and Axes Janet Siskind, 2018-08-06 Janet Siskind goes back to the beginnings of industrial capitalism in the United States to better understand the formation of the country's capitalist culture She studies the papers and letters of three generations of the Watkinson family The stories of their lives demonstrate how merchants amassed the capital to become industrial entrepreneurs organized factories and private corporations and constructed philanthropic and cultural institutions The author traces how upper class work the everyday tasks of organizing and maintaining trade or a system of production shaped the family's experience and New England's culture The result is an intimate story of social class and capitalism The reader comes to know several members of this enterprising family who emigrated from England in 1795 The young women married merchants their brothers prospered as merchants in Connecticut's West Indian trade The author shows how their account books which balanced the imports of rum with the exports of horses obscured the system of slavery that created their wealth After the War of 1812 the Watkinsons and their nephews the Collinses turned from trade to manufacturing textiles and axes Their letters paint a vivid picture of the difficult process of shaping farmers sons into a disciplined workforce and entrepreneurs into industrial and financial capitalists Siskind skillfully blends social history and cultural anthropology to provide context for the engaging narrative of the Watkinsons lives

Teetering on the Rim Lesley Gill, 2000-06-01 In this age when many trumpet the shrill fanfares of market triumphalism few stop to ask how global political and economic restructuring is affecting impoverished states and transforming the daily lives of ordinary people Teetering on the Rim asks just that question as it offers a critique from below of what has been called neoliberalism the latest set of capitalist inspired policies that posit the market as the remedy for all social and economic problems Focusing on an impoverished city on the periphery of La Paz the Bolivian capital Lesley Gill examines the ways in which neoliberal policies reorder social relations among poor men and women and between them and the state These vulnerable low income people teetering on the edge of survival are forced to contend not only with the state but with each other as well as an array of international organizations to get what they need to continue to live In an effort to understand ordinary people's changing sense of what is and is not

possible collectively and individually after more than a decade of economic restructuring Teetering on the Rim reveals the vast and relentless changes wrought in the fabric of social life and offers an instructive example of just what is wrong with the global economic order *Review - Fernand Braudel Center for the Study of Economies, Historical Systems, and Civilizations* Fernand Braudel Center for the Study of Economies, Historical Systems, and Civilizations,1999 **Trade & Culture** ,1995 **The Publishers Weekly** ,1994 *Industrial Relations* ,1995 *The Writers Directory 2008* Michelle Kazensky,2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include name pseudonyms addresses citizenship birth date specialization career information and a bibliography **Monthly Review** John Bellamy Foster,Harry Magdoff,Ellen Meiksins Wood,Robert Waterman McChesney,1994 Historical Encyclopedia of American Labor Robert E.
