**Soviet Strategy in Southern Africa: Gorbachev's Pragmatic Approach** Peter Vanneman, 1990      **Gorbachev's Economic Plans**, 1987      Gorbachev's New Thinking and Third World Conflicts Jiří Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev's New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce Weinrod Jiri Valenta      *Gorbachev's Russia And American Foreign Policy* Seweryn Bialer, 2019-03-01 The Soviet post Stalin period is examined in its economic political and foreign policy dimensions stressing the factors that provided the gestation environment for Gorbachev's reforms There follows an analysis of the nature sources and plausible outcomes of Gorbachev's revolution and the strategies he is applying to it A separate part of the book examines the changing goals of past U S policies toward the Soviet Union and their effectiveness in influencing Soviet behavior The final part puts forth suggestions and prescriptions for a U S approach to the changes in Soviet economic security and foreign policies The East West Forum is a New York based research and policy analysis organization sponsored by the Samuel Bronfman Foundation Its goal is to bring together experts and policy leaders from differing perspectives and generations to discuss changing patterns of East West relations It attempts to formulate long term analyses and recommendations In preparing the chapters of this book the authors drew upon the work of a series of workshops initiated by the Forum      **Gorbachev's Economic Strategy in the Third World** Giovanni Graziani, 1990-02-15 Giovanni Graziani

examines Gorbachev's reforms in terms of economic relations with the Third World and presents a detailed and sophisticated statistical analysis of Soviet economic assistance and trade. This book critically evaluates all the statistical data from Soviet and United Nations sources and presents the changing Soviet attitude toward indebtedness and the growing dissatisfaction expressed by both the Third World and the U.S.S.R. over the management of Soviet aid. The author notes a contradiction between Gorbachev's strategy and statistical evidence for the first years of his office but stresses that the recent moves to trade with South Korea and other Asian countries are bound to affect the Soviet geographical pattern of trade. His estimates show the increasing importance of agricultural products and fuels in Soviet imports and of military equipment and fuels in its exports. Particularly interesting is what Graziani calls the oil imbroglio, a triangular trade pattern in which the U.S.S.R. has increased its imports of crude oil from the Third World for reexport to the West in order to stabilize its export earnings in hard currencies threatened by falling oil prices. The book concludes that no expansion of Soviet economic ties with the Third World is foreseen in the short run and that eventual Soviet participation in international economic organizations might further entail new conflicts with the Third World. Gorbachev's Revolution, 1985-1991 Anthony D'Agostino, 2016-07-27

This detailed and scholarly history based on contemporary and original sources explains the fall of Soviet Communism by bringing into focus the process of revolution from above. It finds as its cause Gorbachev's relentless political struggle to raise himself above the collective leadership which brought him to power. Gorbachev's Revolution 1985-91 examines the impact of the SDI and other US arms programmes of the early 1980s which provided a stimulus for both Gorbachev's domestic reforms and his arms control initiatives. Perestroika originally intended to show the world that a new Soviet foreign policy was based on real changes in Soviet society, however Gorbachev launched its most radical measures in order to get an edge on his Politburo critics. Glasnost originally meant to be a strictly controlled process furnishing an argument for piecemeal economic reforms. This multi-faceted volume provides a wide-ranging and revisionist analysis of this fascinating and influential period in Soviet and international history. **Soviet Nuclear Strategy from Stalin to Gorbachev** Honoré Marc Catudal, 1989

Since the collapse of the USSR archives have been declassified allowing access to his memoirs and those of witnesses. Soviet Strategy and the New Military Thinking Derek Leebaert, Timothy Dickinson, 1992 This book first published in 1991 analyses the unprecedented changes as well as the troubling continuities that characterized Soviet military thinking during the early 1990s. Gorbachev's Agenda Susan L. Clark, 2019-09-17 This volume assesses contemporary Soviet domestic and foreign policy and surveys the traditions, challenges and contexts within which the Soviet leadership was operating. General Secretary Mikhail Gorbachev is generating ferment at home and anticipation abroad about the prospects for change in Soviet policy. momentous changes in the Soviet Union brought about by glasnost and perestroika have far reaching implications that continue to grip the attention of the international community This volume and its companion volume *The Economy* feature research and analysis of the significant events in the development of the revolutionary reforms in the Soviet Union from the beginning stage through the period of great euphoria to the recent troubled times Ed A Hewitt founding editor of *Soviet Economy* and formerly a senior fellow at Brookings is now Special Assistant to the President on National Security Affairs and Senior Director of Soviet Affairs at the National Security Council Victor H Winston is an adjunct professor of international affairs at George Mason University and coeditor of *Soviet Economy*      **Problems of Communism** ,1986      **The Soviet**

*Statements of Resolve* Roseanne W. McManus,2017-07-25 Statements of resolve in which leaders indicate that their country is committed to a position and will not back down are a fixture of international conflict However scholars have not agreed on how much these statements affect conflict outcomes or which conditions give them coercive credibility *Statements of Resolve* argues that an important and underappreciated factor influencing the impact of resolved statements is the ability to follow through Roseanne W McManus explains how adversaries analyze a leader s ability to follow through on statements and shows that perceptions of the ability to follow through are influenced not only by military capabilities but also by less obvious domestic political conditions Through rigorous statistical tests based on quantitative coding of US presidential statements and case studies of three Cold War conflicts this book shows that resolved statements can effectively coerce adversaries but only when a sufficient physical and political ability is present

**Russian Strategic Thought toward Asia**  
Gilbert Rozman,Kazuhiko Togo,2006-11-27 The book explains the Putin era s ambivalent approach to Asia and finds lessons from earlier approaches worthy of further attention The overview compares how strategic thinking evolved while reflecting on factors that shaped it      *IR Theory, Historical Analogy, and Major Power War* Hall Gardner,2018-12-21 This book critically examines elements of America First nationalism neo conservatism neo realism neo liberalism environmental theories and social constructionism by way of developing an alternative realist approach to the study of the origins of major power war The author critiques concepts of polarity and sovereign decision making and diplomacy before developing the

concept of highly uneven polycentrism The book then develops a unique comparative historical approach that seeks to compare and contrast the pre World War I pre World War II and Cold War eras with the contemporary post Cold War period It is argued that the US as it remains the leading global hegemon must fully engage in multilateral diplomacy with major friends and rivals alike in the establishment of differing forms of power sharing and joint sovereignty accords in order to prevent the global system from polarizing into two contending alliances more reminiscent of both the pre World War I and pre World War II periods than the new Cold War **The Iraqi Aggression Against Kuwait** Wolfgang F.

Danspeckgruber, Charles Tripp, 2019-07-11 The war for the liberation of Kuwait following the Iraqi invasion in 1990 rekindled the international community's geopolitical interest in the Gulf and helped define a new regional order This book analyzes the political strategic and economic dimensions of the second Gulf War with particular focus on military aspects An international roster of experts treats issues of strategy weapons technology arms transfers and the impact on the Arab state system Of special interest is the exploration of the implications of the war for Japan Germany Russia and Europe **The Destruction**

**of the Soviet Union** D. Lockwood, 2015-12-22 Is there a link between the collapse of the Soviet Union the radical reforms in China and Vietnam and the current crisis in East Asia David Lockwood argues that the common factor in each is the crisis of state controlled economies besieged by the developing forces of globalization This book examines the collapse of the Soviet Union not as the end of history or the beginning of a new world order but as an illustration of processes that are taking place the world over The author concludes that it was globalization that brought down the communist system Globalization

continues to threaten state controlled economies from the remaining socialist state to the NICs of East Asia **Red Sunset** Philip G. Roeder, 2021-05-11 Why did the Soviet system fail How is it that a political order born of revolution perished from stagnation What caused a seemingly stable polity to collapse Philip Roeder finds the answer to these questions in the Bolshevik constitution the fundamental rules of the Soviet system that evolved from revolutionary times into the post Stalin era These rules increasingly prevented the Communist party from responding to the immense social changes that it had itself set in motion although the Soviet political system initially had vast resources for transforming society its ability to transform itself became severely limited In Roeder's view the problem was not that Soviet leaders did not attempt to change but that their attempts were so often defeated by institutional resistance to reform The leaders' successful efforts to stabilize the political system reduced its adaptability and as the need for reform continued to mount stability became a fatal flaw Roeder's analysis of institutional constraints on political behavior represents a striking departure from the biographical approach common to other analyses of Soviet leadership and provides a strong basis for comparison of the Soviet experience with constitutional transformation in other authoritarian polities **Quarterly Report to the Congress and the Trade Policy**
