High Cholesterol: Natural Cure Without Drugs, 2024-04-20. As a clinician working in my clinical practice for the last 35 years, I have seen many cases of patients with high cholesterol levels, and more importantly, high LDL lipoproteins. It appears that the number of patients seems to be increasing yearly, and most of them have already started taking Statin drugs in order to control their cholesterol levels. When I tell them that it is possible to come off these drugs and stabilize their

cholesterol and LDL levels naturally while also optimizing their overall health and wellbeing they look at me like I m from another planet I understand why this is the case I really do If these patients who have usually seen a few medical doctors before sitting in front of me have been told that the only answer to their cholesterol problem is to take pills then who am I to disagree with the mainstream This is one of the reasons why I wrote this book in order to give people the information that they need to empower them to take responsibility for their health and become drug free and healthier in the meantime If you KNOW what to do then it s not difficult I have witnessed hundreds of patients stabilizing their blood fats and getting better by making the changes that I am recommending in this book The beauty is that it does not take very long to achieve the desired results if everything I recommend in this book is implemented then you should see permanent results in 90 days I sincerely hope that you become one of the lucky ones who follows through on the recommendations I give and optimizes your health when you get there please write to me and let me know what you achieved Let s begin our health journey by answering some of the basic questions like what is cholesterol Is there bad and good cholesterol What is the normal range Why do we need cholesterol and more **The Almanac of American Employers 2007** Jack W.
