## **Economic Choices 1984:**

**Economic Choices 1984** Alice M. Rivlin, Henry J. Aaron, 1984 Presentation of proposals for economic policies to achieve sustained economic growth in the USA and restore competitiveness in the international market examines the national budget deficit high interest rates public expenditure the tax system monetary policy and fiscal policy unemployment and welfare and defence spending suggests reforms in defence policy industrial policy trade policy and research and development orientations Diagrams and statistical tables National Security and Mobilization Management, 1985 **Routledge**

**Library Editions: Taxation** Various, 2021-06-23 This set gathers together ten essential texts on Taxation Covering the history of taxation from the seventeenth century to the modern day these titles range over tax legislation income taxes taxation in communist countries tax and government and universal income **Economic Choice Theory** John H.

Kagel, Raymond C. Battalio, Leonard Green, 1995-01-27 This book describes the authors research program using laboratory animals to investigate individual choice theory in economics **Assessing Tax Reform** Henry Aaron, Harvey

Galper, 2010-12-01 Reform of the United States tax system has become a central political issue Assessing Tax Reform is a concise nontechnical book to help general readers and students understand the tax reform issues Congress is now debating Henry Aaron and Harvey Galper lay out the major alternative proposals and analyze principles of taxation that can be used for judging them They explore the issues surrounding a move to a comprehensive income tax a cash flow tax and the value added tax or other consumption based taxes They show the conflicts and opportunities resulting from large current government deficits and the move for tax reform In addition to clarifying the problems that must be solved if large scale long term reform is to be achieved the authors describe alternative strategies for increasing revenues quickly They also present their own program for a fair efficient and less complex tax structure They conclude with an examination of the political pitfalls that continue to make any major improvements in the tax system hard to enact **Future Survey Annual 1985**

Michael Marien, 1987-01-01 **Anthropology, Economics, and Choice** Michael Chibnik, 2011-11-01 In the midst of global recession angry citizens and media pundits often offer simplistic theories about how bad decisions lead to crises Many economists however base their analyses on rational choice theory which assumes that decisions are made by well informed intelligent people who weigh risks costs and benefits Taking a more realistic approach the field of anthropology carefully looks at the underlying causes of choices at different times and places Using case studies of choices by farmers artisans and bureaucrats drawn from Michael Chibnik's research in Mexico Peru Belize and the United States Anthropology Economics and Choice presents a clear eyed perspective on human actions and their economic consequences Five key issues are explored in depth choices between paid and unpaid work ways people deal with risk and uncertainty how individuals decide whether to cooperate the extent to which households can be regarded as decision making units and the tragedy of the commons the theory that social chaos may result from unrestricted access to commonly owned property Both an accessible

primer and an innovative exploration of economic anthropology this interdisciplinary work brings fresh insight to a timely topic

**Donkey Work** Patrick Andelic, 2024-11-13 What happened to the Democratic Party after the 1960s In many political histories the McGovern defeat of 1972 announced the party's decline and the conservative movement's ascent What the conventional narrative neglects Patrick Andelic submits is the role of Congress in the party's and the nation's political fortunes In *Donkey Work* Andelic looks at Congress from 1974 to 1994 as the Democratic Party's stronghold and explores how this twenty year tenure boosted and undermined the party's response to the conservative challenge If post 1960s America belongs to the conservative movement Andelic asks how do we account for the failure of so much of the conservative agenda especially the shrinking of the federal government Examining the Democratic Party's unusual durability in Congress after 1974 *Donkey Work* disrupts the narrative of inexorable liberal decline since the 1970s and reveals the ways in which liberalism and conservatism actually developed in tandem The book traces the evolution of ideologies within the Democratic Party particularly the emergence of neoliberalism suggesting that this political philosophy was as much an anticipation of America's right turn as a reaction to it as factions vied for control of the party Congress itself both strengthened and weakened liberal resistance to the conservative movement By putting the focus on Congress and legislative politics in contrast to the presidential synthesis that dominates US political history Andelic's book offers a new deeply informed perspective on two turbulent decades of American politics a perspective that alters and expands our understanding of how we arrived at our present political moment

Stagnation and Renewal in Social Policy Gosta Esping-Andersen, 2024-11-01 These essays analyze the ideological and historical sources of the apparent reversal of the pattern of welfare state expansion in the United States Great Britain and Western and Eastern Europe

**Aggregate Economic Choice** Harland W. Jr. Whitmore, 2012-12-06

**The State and Social Investigation in Britain and the United States** Michael J. Lacey, Mary O. Furner, 1993-06-25 The *State and Social Investigation in Britain and the United States* addresses the historical development of the knowledge base upon which the public policies of the democratic state depend This comparative study stretches from the Enlightenment origins of the impulse to base legislation on scientific knowledge to the twentieth century development of specialised institutions and professions engaged in social investigation and public policy making It probes investigators' biases and omissions as well as their strengths as factors shaping social learning It illuminates the vital link between social empiricism and the late

nineteenth century emergence of the New Liberalism in both Britain and the United States And it ponders the impact on social investigation and social policy today of relativism antistatism devolution and privatisation as these currents have developed in both societies since the 1970s *Economic Decisions of the Civil Aeronautics Board* United States. Civil Aeronautics Board,1983-08 **Handbook of Debt Management** Gerald J. Miller,2017-07-05 Examining various methods of debt management used in the US Handbook of Debt Management provides a comprehensive analysis of securities offered for sale by municipalities states and the federal government The book covers laws regarding municipal bonds the economic choice between debt and taxes and the tax exempt status of municipal bond owners capital budgeting including state and local government practices developing governmental and intergovernmental debt policies pay as you go with debt financing for capital projects US Internal Revenue Service regulations on arbitrage in state and local government debt proceeds investment US treasury auctions and more *New Frontiers in Empirical Labour Law Research* Amy Ludlow,Alysia Blackham,2015-10-29 This edited collection draws together papers delivered at a symposium on New Frontiers in Empirical Labour Law Research held at the University of Cambridge in April 2014 It contains contributions from established and emerging experts across a range of disciplines including employment relations industrial psychology sociology economics and political science to consider four broad themes the case for empiricism in labour law the potential for mixed methods methodological possibilities and insights from other disciplines and practical challenges and words of caution for those conducting empirical research This collection seeks to cultivate confidence and competence in empirical methods among both established and young labour law scholars through an intergenerational and interdisciplinary lessons learned dialogue It contributes to the broader debate regarding empirical research methods in labour law and casts light on how empirical research can be conducted in highly contested fields to enhance labour law policy making This collection aims to inspire labour lawyers to embark upon new forms of empirical research both to enrich their existing research projects and to ask new research questions It offers the first stage of a collaborative and interdisciplinary dialogue on empirical labour law research to emphasise the importance of collaboration and intergenerational mentoring in building empirical capacity

**The Behavioral Economics of Brand Choice** G. Foxall,Jorge M. Olivera-Castro,Teresa C. Schrezenmaier,V. James,2007-06-27 This text presents a cutting edge approach to the analysis of brand choice relevant to marketing practice and social science This analysis reveals the causes of consumer choice that underlie brand selection the role of price and non price elements of marketing a new way of describing the structure of markets and analyzing consumer behaviour

**Economic choices ...** ,1984 **Zero-Sum Solution** Lester Thurow,1986-09-22 The author of the bestseller *The Zero Sum Society* now tells us what we must do to remain a world class economy at a time when other countries have outpaced us in growth productivity and entrepreneurship **The Psychology of Economic Decisions** Isabelle Brocas,Juan D. Carrillo,2003 Psychologists and economists often ask similar questions about human behaviour This volume brings together contributions

from leaders in both disciplines The editorial introduction discusses methodological differences between the two which have until now limited the development of mutually beneficial lines of research Psychologists have objected to what they see as an excessive formalism in economic modelling and an unrealistic degree of sophistication in the behaviour of individuals while economists criticize the absence of a general psychological framework into which most results can be fitted and the lack of welfare implications in their theories The editors encourage scholars to exploit the strengths of each discipline the ability of psychologists to understand the feelings and motivation of individuals and the experience of economists to develop normative frameworks The editors then highlight the links between the contributions by grouping them according to central themes in the study of rationality and well being 1 The causes and consequences of irrational behaviour 2 The role of anticipatory feelings and imperfect self knowledge on decision making 3 The way in which memory of past events and cost of thinking affect current decisions 4 The interaction between anticipated and remembered utility and its effects on the welfare of individuals 5 Experimental practice on how to perform controlled experiments to test hypotheses This exciting volume provides an excellent point of entry for anyone interested in the interface between economics and psychology

**Equity and Choice** Julian Le Grand, 1991-12-05 The meaning of an equitable or just distribution of resources the author examines the concepts used by economists and philosophers and suggests a new formulation founded on individual choice backing it up with policy proposals
