cultures naked and micro manage people s minds Their preferred tools of penetration and manipulation are a compliant media and a money hungry PR industry Jonathan Woodier s insights will ensure that you will never read a newspaper or watch TV news in quite the same way again Trevor Watson Professional Public Relations Pty Ltd Australia This is an engaging and informative analysis of the media landscape in South East Asia It uncovers the pervasive impact of the global media on the political process and raises important academic and policy issues in the process This book is timely and will be a must read for policymakers academics and students across communications media studies politics and democratization as well as for everyone with an interest in current day developments in South East Asia Joep Cornelissen Leeds University Business School UK Jonathan Woodier s latest work considers what impact the media has upon the democratization process in Southeast Asia Has the media had a liberalizing effect or become subject to elite control in Southeast Asia and if so why What role does the global media play in this process particularly given its conglomerization and commoditization By examining the communications media and its relationship to political change in Southeast Asia this fascinating study will endeavour to provide both a regional comparative analysis and a more balanced interpretation of the mass communication media in the wake of September 11 2001 The book also investigates the durability of authoritarian regimes and the enduring capacity of the media controlled state alongside the growing sophistication of political communications particularly the use of PR consultants The author provides an insider s view with unique insights into the practice of political communication and its development throughout the strategically important region of Southeast Asia with its large Moslem states as well as much further afield to countries such as China and post industrial Europe As such the book will be warmly welcomed by academics of politics international relations media communications and PR It will also appeal to researchers interested in political change the rise of the global media giants and the influence of authoritarian states such as China

(U.S.),2007 Based upon work supported by the Department of Energy National Nuclear Security Administration under Award Number DE FG52 03SF22724 **Rivalry and Revolution in South and East Asia** Partha S. Ghosh,2019-05-23 First published in 1997 this study reveals the forces of nationalism and internationalism at work side by side in the populous and volatile regions of South and East Asia which make up the 11 chapters of this volume They cover regional security political economy territorial disputes and national unification Problems such as those of Cambodia and the nuclearization of India Pakistan and North Korea create serious international concern while unresolved regional issues force nationalistic and military conflict The irresistible popular pressure for economic integration with the global system often without any corresponding commitment to political freedom underlies it all The cumulative effect of these diverse processes creates an explosive mix of international rivalries and national revolutions which raises the question of the possible arrival of the Asian Century **Politics in Southeast Asia** William Case,2013-09-13 This volume provides an introduction to the politics of the five key southeast Asian states Malaysia Singapore Indonesia Thailand and the Philippines and is intended as a textbook for undergraduate and graduate students taking courses on this subject Using a comparative politics and political economy perspective the author focuses in particular on the degree of democracy in the five countries arguing that in all the countries considered democracy is to varying degrees imperfect The book synthesises a wide range of scholarship and presents the material in a concise and accessible way Economic Crises and the Breakdown of Authoritarian Regimes Thomas B. Pepinsky,2009-08-17 Why do some authoritarian regimes topple during financial crises while others steer through financial crises relatively unscathed In this book Thomas B Pepinsky uses the experiences of Indonesia and Malaysia and the analytical tools of open economy macroeconomics to answer this question Focusing on the economic interests of authoritarian regimes supporters Pepinsky shows that differences in cross border asset specificity produce dramatically different outcomes in regimes facing financial crises When asset specificity divides supporters as in Indonesia they desire mutually incompatible adjustment policies yielding incoherent adjustment policy followed by regime collapse When coalitions are not divided by asset specificity as in Malaysia regimes adopt radical adjustment measures that enable them to survive financial crises Combining rich qualitative evidence from Southeast Asia with cross national time series data and comparative case studies of Latin American autocracies Pepinsky reveals the power of coalitions and capital mobility to explain how financial crises produce regime change *Japan And Asia: Economic Development And Nation Building* Shinichi Ichimura,2015-06-22 The book is a precious reference book for development economics or the political economy of development in Asia or anywhere else Unlike other books first it deals with all the East Asian countries including Japan and other Asian countries Second it offers some empirical research findings based on surveys conducted by the author s group Research on developing countries has been limited by individual scholars observations particularly about the value related issues like politics or religions Thirdly the book digs into the nation building problems which are often neglected by economists It bridges the politics

sociology and economics in East Asian countries and is an important reference book for graduate students
