Economic Realities Of Political Reform Elections And The Us Senate:

The Economic Realities of Political Reform James L. Regens, Ronald Keith Gaddie, 1995-04-28 A central political issue in American politics during the 1990s is the need for political campaign reform A variety of proposals have been advanced to reform the system of congressional elections most notably in relation to campaign financing The authors examine U S Senate elections to determine the role money plays in the contests their analysis indicates that the system of campaign finance resembles a market with legislators serving as the recipients of financial largesse based on their institutional positions and political vulnerability This rent seeking relationship between economic interests and legislators has transformed the dynamic of Senate elections Assessing the potential impact of several electoral reform proposals Professors Regens and Gaddie argue that debates over the nature and consequences of proposed changes in election finance are often waged without an underlying point of theoretical reference In addition little consideration is placed upon impacts relative to each other or collectively on the political system Spending limits and public funding proposals they contend will not have the effects expected by reform advocates Term limit and public funding proposals would disrupt the rent seeking relationship between legislators and economic interests and these proposals would also face political and constitutional barriers to implementation

Elections to Open Seats in the U.S. House Ronald Keith Gaddie, Charles S. Bullock, 2000 *America's Failing Experiment* Kirby Goidel, 2013-12-12 America's Failing Experiment How We the People Have Become the Problem makes the controversial claim that the American political system suffers from too much democracy An accomplished public policy expert coeditor of the Journal Survey Practice Kirby Goidel argues that our elected officials are overly responsive to public opinion which is often poorly informed incoherent and uncertain The result is a more polarized political system rising inequality and institutional gridlock These concerns are not new but take on deeper political significance in a digital age where information flows more quickly and opportunities for feedback are virtually unlimited If the diagnosis is too much democracy the counterintuitive solution runs against our cultural norms less citizen involvement greater discretion for political elites and greater collective responsibility Social Issues in America James

La Raja, 2010-03-25 Reformers lament that with every effort to regulate the sources of campaign funding candidates creatively circumvent the new legislation But in fact political fundraisers don't need to look for loopholes because as Raymond J La Raja proves legislators intentionally design regulations to gain advantage over their partisan rivals La Raja traces the history of the U S campaign finance system from the late nineteenth century through the passage of the Bipartisan Campaign Reform Act BCRA of 2002 Then using the 2004 presidential election as a case study he compares the ways in which Democrats and Republicans adapted their national fund raising and campaigning strategies to satisfy BCRA regulations Drawing upon this wealth of historical and recent evidence he concludes with recommendations for reforming campaign finance in ways that promote fair competition among candidates and guarantee their accountability to voters Small Change offers an engaging account of campaign finance reforms contradictory history it is a must read for anyone concerned about influence of money on democratic elections **Unlocking V.O. of Democracy in China Suzanne Ogden, 2002 Since 1979 China's leaders have introduced economic and political reforms that have lessened the state's hold over the lives of ordinary citizens. By examining the growth in individual rights, the public sphere, democratic processes, and pluralization, the author seeks to answer questions concerning the relevance of liberal democratic ideas for China and the relationship between a democratic political culture and a democratic political system. The author also looks at the contradictory impulses and negative consequences for democracy generated by economic liberalism. Unresolved issues concerning the relationships among culture, democracy, and socioeconomic development are at the heart of the analysis. Nonideological criteria are used to assess the success of the Chinese approach to building a fair, just, and decent society. *The Record of the Association of the Bar of the City of New York*, Association of the Bar of the City of New York, 1997

Self-Financed Candidates in Congressional Elections Jennifer A. Steen, 2009-09-08 Are our elections for sale? Americans have long asked this question in the face of skyrocketing campaign spending by candidates and parties. Then, in the 1990s, came a wave of wealthy individuals whose deep pockets seemed to be buying political offices across the country. Our worst suspicions were confirmed. Or were they? What effect do self-financers really have on electoral outcomes? Jennifer Steen's authoritative empirical study of self-financed candidates is a landmark in American politics. Steen thoroughly dispels the notion that self-funded candidates can buy legislative seats, proving that the vast majority of self-financers do not win their elections. Her book gives us a truer understanding of self-financers' actual influence on campaign competition and rhetoric. Jennifer A. Steen is Assistant Professor of Political Science at Boston College and a former political consultant. She is one of the nation's leading authorities on self-financed candidates.
