Economics Of Competition The Race To Monopoly:

The Economics of Competition George G Djolov, 2014-07-16 A comprehensive examination of the ways competition and innovations level the playing field in the free market The Economics of Competition uses the South African pharmaceutical industry as a case study to cogently challenge accepted economic and regulatory views on competition and monopoly then re establishes and emphasizes the importance of foundational economic principles The book comprehensively explores the concept that monopoly is self limiting within unrestricted competition as well as the various market features of competition innovation and market power This detailed examination broadens understanding of the economics of competition for both scholars and practitioners Competition is seen as a continuous process in a free market The Economics of Competition thoughtfully explores the competitive process in its two mechanisms the transfer of market share from one rival to another and innovation of a new product new method of production new market opening or new source of supply of raw materials The dynamic nature of the marketplace is thoroughly examined from the author s inside view of the South African pharmaceutical industry This provides a rare opportunity to closely examine an industry considered to be a monopoly while actively applying economic theories of competition and freedom of choice The effects of public policy legislation and pricing regulations are discussed in detail The book has several tables and figures to enhance clarity and is extensively referenced The Economics of Competition discusses monopoly and rivalry in the free market theories of perfect competition innovation as a controlling variable pricing and price differentiation barriers to competition including historical and contemporary legislative barriers horizontal mergers and acquisitions as a key aspect of market power and more The Economics of Competition is insightful thought provoking reading for policymakers as well as anyone practising antitrust law microeconomics industrial economics managerial economics marketing strategy theoretical public health and students and educators of marketing and economics

The Economics Of Competition George G. Djolov, 2007-01-01 Are monopolies truly a problem in a free market Competition is seen as a continuous process in a free market This book comprehensively explores the competitive process in its two mechanisms the transfer of market share from one rival to another and innovation of a new product new method of production new market opening or new source of supply of raw materials The Economics of Competition uses the South African pharmaceutical industry as a case study to challenge accepted economic and regulatory views on competition and monopoly then re establishes and emphasizes the importance of foundational economic principles The effects of public policy legislation and pricing regulations are discussed in detail The book has several tables and figures to enhance clarity and is extensively referenced This detailed examination is designed to be useful and informative for scholars and practitioners of competition antitrust law microeconomics industrial economics industrial organization managerial economics and marketing strategy

The Concept of Abuse in EU Competition Law Pinar Akman, 2012-02-03 The objectives of Article 102 TFEU what exactly makes a practice abusive and the standard of harm under Article 102 TFEU have not yet been settled This lack of clarity creates uncertainty for businesses and coupled with the current state of economics in this area raises an important question of legitimacy Using law and economic approaches this book inquires into the possible objectives of Article 102 TFEU and proposes a modern approach to interpreting abuse In doing so this book establishes an overarching concept of abuse that conforms to the historical roots of the provision to the text of the provision itself and to modern economic thinking on unilateral conduct This book therefore inquires into what Article 102 TFEU is about what it can be about and what it should be about regarding both objectives and scope The book demonstrates that the separation of exploitative abuse from exclusionary abuse is artificial and unsound It examines the roots of Article 102 TFEU and the historical context of the adoption of the Treaty the case law policy and literature on exploitative abuses and where relevant on exclusionary abuses The book investigates potential objectives such as fairness and welfare as well as the potential conflict between such objectives Finally it critically assesses the European Commission's modernisation of Article 102 TFEU before proposing a reformed approach to abuse which is centred on three necessary and sufficient conditions exploitation exclusion and a lack of an increase in efficiency

Economic Theory in Retrospect Mark Blaug, 1997-03-27 This is a history of economic thought from Adam Smith to John Maynard Keynes but it is a history with a difference Firstly it is a history of economic theory not of economic doctrines that is it is consistently focused on theoretical analysis undiluted by entertaining historical digressions or biological colouring Secondly it includes detailed Reader's Guides to nine of the major texts of economics namely the works of Smith Ricardo Mill Marx Marshall Wicksteed Wicksell Walras and Keynes in the effort to encourage students to become

acquainted at first hand with the writings of all the great economists This fifth edition first published in 1997 adds new Reader s Guides to Walras s Elements of Pure Economics 1871 74 and Keynes General Theory to the previous seven Reader s Guides of other great books in economics There are significant and major additions to six chapters *Regulation of D.C.
