Economies in Transition Alice Galenson, 2004-01-01 The Latin American Development Forum promotes debate and disseminates knowledge and analysis on economic and social development issues in Latin America and the Caribbean The Institutional Sponsors of this series are the World Bank United Nations Economic Commission for Latin America and the Caribbean ECLAC and Inter American Development Bank IADB The transition economies of the Europe and Central Asia Region faced unprecedented political economic and social change after the break up of the Soviet Union With assistance from the World Bank and other donors many countries quickly accomplished a number of reforms but progress in others has been slower Much has been achieved the private share of GDP in the transition countries is nearly 70 percent and 8 countries have joined the EU but much remains to be completed Страны с переходной экономикой : содействие Всемирного банка: оценка ДООД

Alice Galenson, 2005-01-01 The transition economies of the Europe and Central Asia Region faced unprecedented political economic and social change after the break up of the Soviet Union With assistance from the World Bank and other donors many countries quickly accomplished a number of reforms but progress in others has been slower Much has been achieved the private share of GDP in the transition countries is nearly 70 percent and 8 countries have joined the EU but much remains to be completed Economies in Transition assesses the effectiveness of Bank assistance to the transition focusing particularly on five topics 1 private sector development 2 governance public sector management and institution building 3 the financial sector 4 social protection and 5 energy Overall Bank assistance has been successful but there were mistakes before the true nature of transition was fully understood The Bank internalized the emerging lessons and shifted its emphasis accordingly This study highlights the importance of lending at prudent levels until a solid knowledge base is established with convincing evidence of government and societal ownership of the assistance program It contends that analysis of governance and poverty monitoring should be early features of the assistance program active programs of stakeholder inclusion should be widely replicated and country assistance strategies used to bolster reform capacity

World Bank Assistance to Agriculture in Sub-Saharan Africa, 2007-01-01 Sub Saharan Africa is a critical development priority it has some of the world's poorest countries and during the past two decades the number of poor in the Region has doubled to 300 million more than 40 percent of the Region's population Africa remains behind on most of the Millennium Development Goals MDGs and is unlikely to reach them by 2015 With some of the world's poorest countries Africa is a development priority for the donor community A major drag on Africa's development is the underperformance of the critical agriculture sector which has been neglected both by donors and governments over the past two decades The sector faces a variety of constraints that are particular to agriculture in Africa and make its development a complex challenge Poor governance and conflict in several countries further complicate matters IEG has assessed the development effectiveness of World Bank assistance in addressing constraints to agricultural development in Africa over the period of fiscal 1991-2006

World Bank Engagement at the State Level World Bank, 2010-04-21 This report is a pilot cross country study that summarizes 10 years 1998-2008 of the World Bank's engagement at the state level in selected large federal countries and combines elements of a country assistance evaluation and a thematic review It looks at several strategic and operational questions posed by state level engagement among them

the selection of states the scope and the modalities of engagement According to the report two tendencies often in tension featured in most approaches for selection of states for direct engagement One was to support better performing reformist states while the other was to support the poorest states as a more direct route to reducing poverty Overall the study confirms the desirability of continued selective lending in a few focus states Among other findings the Bank's engagement with progressive reformist states has added value and has been highly appreciated but in order to enhance the poverty impact of state level interventions greater weight should be given to the needs of poorest states by balancing states propensity to reform and the concentration of poverty within them continued focus on public finance management appears sound irrespective of whether engagement is confined to this area or serves as an entry point for broader engagement there is considerable scope for greater impact from knowledge transfer between states and countries and expanded knowledge services to the state level clients

Strengthening the World Bank's Role in Global Programs and Partnerships Uma Lele, 2006-01-01 This volume reports on a conference held by the World Bank's independent Operations Evaluation Department OED to discuss the Bank's role in global program partnerships The starting point for the discussions was a comprehensive review by OED of the effectiveness of 26 of the largest programs including the Consultative Group on International Agricultural Research and programs in health environment and trade Participants at the conference provided crosscutting lessons about program design implementation and evaluation and shared views about how the Bank can best help build commitment and assure financing for high priority global public goods that benefit the poor

Annual Review of Development Effectiveness 2006 Monika Huppi, 2006 The results agenda adopted by the World Bank and other donors aims to ensure that development assistance yields sustainable poverty reduction Effective poverty reduction results from three main factors sustained and inclusive growth effective service delivery to the poor and capable public sector institutions that are accountable to stakeholders for the results they achieve The Annual Review of Development Effectiveness 2006 assembles evaluative evidence around three questions central to poverty reduction How effectively has economic growth translated into poverty reduction in Bank assisted countries and what factors have affected these results What factors have led to high quality results in areas that deliver services to the poor What measures help raise the accountability of public institutions responsible for delivering and sustaining these results The report identifies three key areas where the World Bank can further strengthen its effectiveness in helping countries reduce poverty Economic growth has improved in many Bank client countries but a stronger focus on the nature of growth is needed to ensure that such growth leads to jobs for the poor and productivity increases in poorer regions and sectors where the poor earn their incomes Consistent use of a clearly articulated results chain helps ensure that Bank country assistance programs and individual projects set realistic objectives that key cross sectoral constraints to achieving them are adequately considered and that due attention is given to building capacity A realistic assessment of the political economy of governance related reforms is needed to tailor efforts to increase

the accountability of public sector institutions to local conditions **Climate Change and the World Bank Group**

,2009-01-01 Kenneth Chomitz was the evaluation manager and main author for this study P xiii *The Effectiveness of World Bank Support for Community-based and -driven Development*,2005-01-01 Participatory approaches that involve local communities in their own development have gained substantial support among international donors over the past quarter century and have become increasingly important in the work of the World Bank Community participation is an approach to development that can be used with any Bank lending instrument and across sectors Projects can involve communities in different ways by sharing information consulting collaborating or empowering them The process of involving communities in project activities is also expected to contribute in most cases to communi Financial Sector Assessment Program Lily L. Chu,2006-01-01 The Financial Sector Assessment Program FSAP is a major initiative undertaken jointly by the World Bank and the IMF in response to the financial crises of the late 1990s The ultimate objectives of the program are i the identification and resolution of financial sector vulnerabilities and their macroeconomic stability implications and ii fostering financial sector development and its contribution to economic growth In addition the FSAP was expected to help the Bank Fund and other institutions design appropriate assistance to address issues identified by the FSAP The evaluation found that the FSAP is a good quality diagnostic tool Joint Bank Fund cooperation has allowed an integrated approach towards financial sector vulnerabilities and development needs and has expanded the depth and quality of the skills base The assessments however fall short in prioritizing recommendations and integrating the findings and recommendations of the assessments into its overall programs 2006 Annual Report on Operations Evaluation Janardan Prasad Singh,2006-01-01 This series continues to strengthen its focus on results monitoring and evaluation The latest 2006 edition updates the implications of managing for results in World Bank operations assesses if monitoring and evaluation practices provide staff with information that helps them manage for results and looks at IEG s own effectiveness Its recommendations address ways to make monitoring and evaluation more effective and influential tools **World Bank Lending for Lines of Credit** Laurie Effron,2006-01-01 This review of World Bank support for lines of credit channeled through local financial institutions in client countries finds that the Bank s own guidelines have not been followed and outcomes are poor **2008 Annual Review of Development Effectiveness** World Bank,2008-10-01 For the World Bank and its partners the ever present test is to deliver results to lift people out of poverty and promote socially and environmentally sustainable development Achieving such success in any individual country is increasingly intertwined with making progress on shared global challenges The 2008 Annual Review of Development Effectiveness an independent evaluation presents evidence on the Bank s efforts in two important and connected areas tracking outcomes of Bank projects and country programs and progress in fostering global public goods such as protecting the earth s climate and preventing the spread of dangerous communicable diseases **2004 Annual Review of Development Effectiveness** Christopher D. Gerrard,2005-01-01 The 2004 Annual Review of

Development Effectiveness looks at the recent growth and poverty reduction experience of client countries. It assesses the extent to which Bank interventions have contributed to growth and poverty reduction and the effectiveness of different types of interventions. The review uses the key elements of the Bank's 2001 poverty reduction strategy to examine the extent to which these elements respond to the needs of the poor, are actually being carried out, and are having an impact. 2009 *Annual Review of Development Effectiveness* World Bank, 2009-12-04. The Annual Review of Development Effectiveness 2009 presents evidence on the World Bank's efforts in two areas. Part I tracks the outcomes of Bank projects and country programs and the evolution of monitoring and evaluation (M and E). Part II examines the Bank's support for environmentally sustainable development compatible with economic growth and poverty reduction. The Bank's project performance rebounded in 2008, allaying concerns about the weakened performance in 2007. As previous ARDEs have shown, project performance has been improving gradually for 15 years according to the traditional measure: percent of projects with satisfactory versus unsatisfactory outcomes. But IEG ratings of M and E quality for completed projects indicate considerable room for progress. Information to assess impacts continues to be lacking, although preliminary data suggests improvements in baseline data collection. Bank support for the environment has recovered since 2002 due to new sources of concessional finance. The outcomes of environment projects have improved in recent years. A growing number of regional projects are addressing the shared use of water resources. New global partnerships are deepening the Bank's involvement in climate change issues. But M and E remains weak: three quarters of environment-related projects, those managed by sectors other than environment, lack reporting of environmental outcomes.
