Women, Food, and Diet in the Middle Ages Theresa Vaughan, 2025-10-01 What can anthropological and folkloristic approaches to food gender and medicine tell us about these topics in the Middle Ages beyond the textual evidence itself Women Food and Diet in the Middle Ages Balancing the Humours uses these approaches to look at the textual traditions of dietary recommendations for women's health placed within the context of the larger cultural concerns of gender roles and Church teachings about women Women are expected to be nurturers healers and the primary locus of food provisioning for families especially women of the lower social classes typically overlooked in the written record This work illuminates what we can know about women food medicine and diet in the Middle Ages and examines how the written medical tradition interacts with folk medicine and other cultural factors in both understanding women's bodies and their roles as healers and food providers

Women's Health Perfect Body Diet Cassandra Forsythe, PhD, RD, Editors of Women's Health Maga, 2008-12-23 Let's face it women simply do not shed pounds or build muscle as easily as men do Drawing on fascinating recent research that has shed new light on the gender differences in food metabolism and the effect of exercise the editors of Women's Health the healthy lifestyle magazine for today's active woman on the go have devised a weight loss plan that works especially well for women who would like to lose 5-25 pounds Key features of the Women's Health Perfect Body Plan include Glucomannan a soluble fiber that helps dieters feel full faster and therefore eat less throughout the day Meal plans that

contain at least 40 grams of fiber per day An adjustment for the impact of female hormones on weight loss women need a higher protein diet than men to increase lean body tissue and decrease body fat Dieting techniques that revolve around psychological needs and personal goals and lifestyle Two diet plans to choose from one higher in fats and lower in carbs the other higher in carbs and lower in fats simple food tests help women choose the type they need In addition to the customized eating plan complete with 75 easy to prepare recipes there is a vigorous customized fitness program consisting of 50 exercises that brings results in just three weeks

Women, Food, and Families Nickie Charles, Marion Kerr, 1988 Women food and families looks at how women with young families plan provide cook and serve food from daily meals to special occasions The authors interviewed women from a range of social backgrounds and the result is an account of the role played by food in relationships between women and men parents and children within contemporary British families It also reveals the contradictory and often problematic nature of women s own feelings towards food The authors document the differential distribution of food within families along lines of gender and age and show that social class has a significant impact on diet They illustrate the way in which practices surrounding food provision both reflect and create social divisions and that food conveys complex messages about power and status love and anger inclusion and exclusion
