the dubious honorary title of philosopher Heller probes the concretely situated reflections of characters who must face a blind and irrational fate either without taking responsibility for the discordance of time or with a responsibility which may both transform history into politics and set right the time which is out of joint In the ruminations and undertakings of these characters Shakespeare's dramas present a philosophy of history a political philosophy and a philosophy of im moral personality Heller weighs each as distinctly modern confrontations with the possibility of truth and virtue within a human historical condition no less multifarious for its momentariness
