Bruce, Jr., 1992-08-01 In this wide ranging study Dickson D Bruce Jr analyzes post Reconstruction and turn of the century black writing treating minor as well as major authors and considering a broad range of genres Bruce shows that black writers confronted the conditions of an increasingly racist society in almost every aspect of their work from their choice of subject matter to the way they drew their characters to the mood they portrayed At the same time these writers most of whom were members of a small but growing black professional class displayed a concern for middle class aspirations and values Bruce underscores the significance of discerning the tensions between these opposing forces in studying the literature of the time Bruce s attention to the body of work produced by minor writers most of whom have remained obscure to all but a few literary scholars and historians adds an important dimension to our understanding of African American history and literature His discussion of such better known writers as Charles W Chesnutt Paul Laurence Dunbar James Weldon Johnson and W E B Du Bois places them in a fuller literary context defining more clearly their significance as individuals *Black American Writing from the Nadir* is an insightful well focused work that will benefit social and cultural historians as well as students of literature

Wounds of Returning Jessica Adams, 2012-09-01 From Storyville brothels and narratives of turn of the century New Orleans to plantation tours Bette Davis films Elvis memorials Willa Cather s fiction and the annual prison rodeo held at the Louisiana State Penitentiary at Angola Jessica Adams considers spatial and ideological evolutions of southern plantations after slavery In *Wounds of Returning* Adams shows that the slave past returns to inhabit plantation landscapes that have been radically transformed by tourism consumer culture and modern modes of punishment even those landscapes from which slavery has supposedly been banished completely Adams explores how the commodification of black bodies during slavery did not disappear with abolition rather the same principle was transformed into modern consumer capitalism As Adams demonstrates however counternarratives and unexpected cultural hybrids erupt out of attempts to re create the plantation as an uncomplicated scene of racial relationships or a signifier of national unity Peeling back the layers of plantation landscapes Adams reveals connections between seemingly disparate features of modern culture suggesting that they remain haunted by the force of the unnatural equation of people as property
