Gorbachev's New Thinking and Third World Conflicts Jiří Valenta

Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiří Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev's New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce Weinrod Jiří Valenta

Unarmed Forces Matthew Evangelista, 2018-08-06. Throughout the Cold War people worldwide feared that the U.S. and Soviet governments could not prevent a nuclear showdown. Citizens from both East bloc and Western countries among them prominent scientists and physicians formed networks to promote ideas and policies that would lessen this danger. Two of their organizations the Pugwash movement and the International Physicians for the Prevention of Nuclear War won Nobel Peace Prizes. Still many observers believe that their influence was negligible and that the Reagan administration deserves sole credit for ending the Cold War. The first book to explore the impact these activists had on the Soviet side of the Iron Curtain. *Unarmed Forces* demonstrates the importance of their efforts on behalf of arms control and disarmament. Matthew Evangelista examines the work of transnational peace movements throughout the Khrushchev, Brezhnev and Gorbachev eras and into the first years of Boris Yeltsin's leadership. Drawing on extensive research in Russian archives and on interviews with Russian and Western activists and policymakers he investigates the sources of Soviet policy on nuclear testing, strategic defense and conventional forces. Evangelista concludes that transnational actors at times played a crucial role in influencing Soviet policy specifically in encouraging moderate as opposed to hard line responses for they supplied both information and ideas to that closed society. Evangelista's findings challenge widely accepted views about the peaceful resolution of the Cold War. By revealing the connection between a state's domestic structure and its susceptibility to the influence of transnational groups *Unarmed Forces* will also stimulate thinking about the broader issue of how government policy is shaped. *The End of the Cold War and The Third World* Artemy Kalinovsky, Sergey Radchenko, 2011-04-19. This book brings together recent research on the end of the Cold War in the Third World and engages with ongoing debates about regional conflicts, the role of great powers in the developing world and the role of international actors in conflict resolution. Most of the recent scholarship on the end of the Cold War has focused on Europe or bilateral US-Soviet relations. By contrast relatively little has been written on the end of the Cold War in the Third World in Asia, Africa and Latin America. How did the great transformation of the world in the late 1980s affect regional conflicts and client relationships? Who won and who lost in the Third World and why do so many Cold War era problems remain unresolved? This book brings to light for the first time evidence from newly declassified archives in Russia, the United States, Eastern Europe as well as from private collections, recent memoirs and interviews with key participants. It goes further than anything published so far in systematically explaining both from the perspectives of the superpowers and the Third World countries what the end of bipolarity meant not only for the underdeveloped periphery so long enmeshed in ideological, socio-political and military conflicts sponsored by Washington.

Moscow or Beijing but also for the broader patterns of international relations This book will be of much interest to students of the Cold War war and conflict studies third world and development studies international history and IR in general **The Gorbachev Factor** Archie Brown,1997 The author writes about Gorbachev both as the statesman and as the man He explores how an ordinary man can become a world leader wielding enormous power **The Decline Of The Soviet Union And The Transformation Of The Middle East** David Howard Goldberg,Paul Marantz,Stephen Page,Stephen Gotowicki,2019-06-26 For more than three decades the Soviet Union was a major force in the Middle East and superpower rivalry exacerbated many of the conflicts endemic to the region The end of the Cold War and the collapse of the Soviet Union have fundamentally altered the rules of the game in Middle East politics producing a new fluidity in the region new diplomatic alignments and new opportunities for peace The contributors place recent developments in historical and political context analyzing changes in Soviet Middle East policy under Gorbachev as well as evaluating developments since the demise of the Soviet Union The evolution of Moscow s policy toward the Arab states Israel the P L O and the U N is given special attention The contributors also examine the emergence of Islamic fundamentalism in the new states of Central Asia and weigh the potential implications of this development for the Middle East In addition they discuss security issues related to the transfer of military technology from former Soviet republics to the countries of the Middle East
