Inferno Steven Hatch,2017-03-07

Hatch packs a wealth of knowledge into the book poignant Associated Press Dr Steven Hatch an infectious disease specialist first came to Liberia in November 2013 to work at a

hospital in Monrovia Six months later several of the physicians he had served with were dead or unable to work and Ebola had become a world health emergency Inferno is his account of the epidemic that nearly consumed a nation as well as its deeper origins Hatch returned with the aid organization International Medical Corps to help establish an Ebola Treatment Unit Alongside a devoted staff of expats and Liberians in a hastily constructed facility nestled into the jungle Hatch witnessed the unit's physicians nurses other caregivers and patients selflessly helping others preserving hope in the face of fear and maintaining dignity across the divide of health and illness And over repeated visits during the course of the outbreak Hatch came to understand the Ebola catastrophe not only as a contagious virus but as a product of Liberia's violent history and America's role in it Powerful and clear-eyed Inferno not only explores a deadly virus and an afflicted country but also reveals how the Ebola outbreak stoked nativist anxieties that were exploited for political gain in the United States and around the world In telling one doctor's story Inferno demonstrates how generations of inequality left Liberia vulnerable to crisis and how similar circumstances might fuel another plague elsewhere By understanding and alleviating those circumstances Hatch writes we may help smother the fire next time
