Congress. House. Committee on the Judiciary. Subcommittee on the Constitution,2000   **Internet and Wireless Privacy** Eloïse Gratton,2003   **Bank Competition and Household Privacy in a Digital Payment Monopoly** Mr. Itai Agur,Mr. Anil Ari,Mr. Giovanni Dell'Ariccia,2023-06-09 Lenders can exploit households payment data to infer their creditworthiness When households value privacy they then face a tradeoff between protecting such privacy and credit conditions We study how the introduction of an informationally more intrusive digital payment vehicle affects households cash use credit access and welfare A tech monopolist controls the intrusiveness of the new payment method and manipulates information asymmetries among households and oligopolistic banks to extract data contracts that are more lucrative than lending on its own The laissez faire equilibrium entails a digital payment vehicle that is more intrusive than socially optimal providing a rationale for regulation   **Privacy in Electronic Communications** United States. Congress. House. Committee on the Judiciary. Subcommittee on Courts and Intellectual Property,2000   **Handbook Of Electronic Security And Digital Forensics** Hamid Jahankhani,Gianluigi Me,David Lilburn Watson,Frank Leonhardt,2010-03-31 The widespread use of information and communications technology ICT has created a global platform for the exchange of ideas goods and services the benefits of which are enormous However it has also created boundless opportunities for fraud and deception Cybercrime is one of the biggest growth industries around the globe whether it is in the form of violation of company policies fraud hate crime extremism or terrorism It is therefore paramount that the security industry raises its game to combat these threats Today s top priority is to use computer technology to fight computer crime as our commonwealth is protected by firewalls rather than firepower This is an issue of global importance as new technologies have provided a world of opportunity for criminals This book is a compilation of the collaboration between the researchers and practitioners in the security field and provides a comprehensive literature on current and future e security needs across applications implementation testing or investigative techniques judicial processes and criminal intelligence The intended audience includes members in academia the public and private sectors students and those who are interested in and will benefit from this handbook   **105-2 Hearing: Privacy In Electronic Communications, Serial No. 132, March 26, 1998** ,2000
