**Emergency Management Threats and Hazards** Michael Prasad, 2024-09-04 *Emergency Management Threats and Hazards* Water is a resource guidebook which bridges the work of the emergency management practitioners and academic researchers specifically for water-related incidents. Practitioners typically follow a disaster phase cycle of preparedness, protection, prevention, response, recovery, and mitigation, all of which have distinct actions and missions to reduce or eliminate adverse impacts from both threats and hazards. Academics will find the connections to allied fields such as meteorology, hydrology, homeland security, healthcare, and more. The book examines many of the distinct differences and variances within the specific scope of water-related incidents, crises, emergencies, and disasters. It provides examples and practical strategies for protection, prevention, response, recovery, and mitigation against adverse impacts to people, property, and organizations. It is also organized in the same construct used by emergency management practitioners: incident command system elements, disaster cycle phases, etc., which will help align the academic world of emergency management education to both the practice and the training in the emergency management field. Takes a global view on threats and hazards as well as their solutions. Provides a single repository of the majority of water-related incidents and provides a how-to guide for resilience. Identifies cascading impacts and provides checklists for resolutions. Includes numerous case studies organized by threat and hazard.

**When Ways of Life Collide** Paul M. Sniderman, Louk Hagendoorn, 2009-02-02 In 2004 Dutch filmmaker Theo van Gogh was brutally murdered on a busy Amsterdam street His killer was Mohammed Bouyeri a twenty six year old Dutch Moroccan offended by van Gogh's controversial film about Muslim suppression of women The Dutch government had funded separate schools housing projects broadcast media and community organizations for Muslim immigrants all under the umbrella of multiculturalism But the reality of terrorism and radicalization of Muslim immigrants has shattered that dream In this arresting book Paul Sniderman and Louk Hagendoorn demonstrate that there are deep conflicts of values in the Netherlands In the eyes of the Dutch for example Muslims oppress women treating them as inferior to men In the eyes of Muslim immigrants Western Europeans deny women the respect they deserve Western Europe has become a cultural conflict zone Two ways of life are colliding Sniderman and Hagendoorn show how identity politics contributed to this crisis The very policies meant to persuade majority and minority that they are part of the same society strengthened their view that they belong to different societies At the deepest level the authors findings suggest the issue that government and citizens need to be concerned about is not a conflict of values but a clash of fundamental loyalties

*Comparative Area Studies* Ariel I. Ahram, Patrick Köllner, Rudra Sil, 2018-01-03 In Comparative Area Studies the editors and contributors are motivated by two basic convictions first that intensive regional research remains indispensable to the social sciences and second that this research risks becoming marginalized in the absence of concerted efforts to link it to disciplinary concepts and theories that have relevance beyond a single region

**Postcolonial Transitions in Europe** Sandra Ponzanesi, Gianmaria Colpani, 2015-12-14 Is the notion of postcolonial Europe an oxymoron How do colonial pasts inform the emergence of new subjectivities and political frontiers in contemporary Europe Postcolonial Transitions in Europe explores these questions from different theoretical geopolitical and media perspectives Drawing from the interdisciplinary tools of postcolonial critique this book contests the idea that Europe developed within clear cut geographical boundaries It examines how experiences of colonialism and imperialism continue to be constitutive of the European space and of the very

idea of Europe By approaching Europe as a complex political space the chapters investigate topical concerns around its politics of inclusion and exclusion towards migrants asylum seekers and refugees as well as its take on internal conflicts transitions and cosmopolitan imaginaries With a foreword by Paul Gilroy      **Witchlight** Marion Zimmer Bradley,2009-12-08 Marion Zimmer Bradley one of the most beloved and praised fantasy storytellers of our time has once again written a compelling and powerful novel with larger than life characters Winter Musgrave s past is largely blank her memories missing or tissue thin She seem to be possessed objects shatter when she passes the corpses of animal appear on her doorstep And she has the terrible feeling that something horrible happened in her empty past results of which are now haunting her with unbridled fury Seeking help Winter turns to Truth Jourdemayne and learns that the key to unlocking her lost memories lies within herself and in the magickal circle of friends in college But the circle was broken long ago Winter must reconstruct it is she is to save her life Not just the story of a woman s search for her missing past Witchlight is a powerful novel of contemporary fantasy that pulls readers in and hold them until the final page Anyone who loves good contemporary fiction will devour Witchlight At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied      Centaurs and Snake-Kings Jeremy McInerney,2024-07-25 Griffins centaurs and gorgons the Greek imagination teems with wondrous yet often monstrous hybrids Jeremy McInerney discusses how these composite creatures arise from the entanglement of humans and animals Overlaying such enmeshment is the rich cultural exchange experienced by Greeks across the Mediterranean Hybrids the author reveals capture the anxiety of cross cultural encounter where similarity and incongruity were conjoined Hybridity likewise expresses instability of identity The ancient sea that most changeable ancient domain was viewed as home to monsters like Skylla while on land the centaur might be hypersexual yet also hypercivilized like Cheiron Medusa may be destructive yet also alluring Wherever conventional values or behaviours are challenged there the hybrid gives that threat a face This absorbing work unveils a mercurial world of shifting categories that offer an alternative to conventional certainties Transforming disorder into images of wonder Greek hybrids McInerney suggests finally suggest other ways of being human      **Doctor Who and History** Carey Fleiner,Dene October,2017-07-19 When Sydney Newman conceived the idea for Doctor Who in 1963 he envisioned a show in which the Doctor and his companions would visit and observe but not interfere with events in history That plan was dropped early on and the Doctor has happily meddled with historical events for decades This collection of new essays examines how the Doctor s engagement with history relates to Britain s colonial past nostalgia for village life Norse myths alternate history and the impact of historical decisions on the present      The Spectacle of Nature Nicholas Green,1990 Explores the perception of nature in early 19th century France The book centres on a discussion of subjectivity and class and the way in which the process of looking at the countryside reinforced the identity of the metropolitan bourgeoisie and especially men      **Who's Afraid of ...?** Marion Gymnich,2012 Fear in its many facets appears to constitute an intriguing and compelling subject matter for writers and

Frontier's Fading Embers Peregrine Peverell, 2024-09-28 In *Frontier's Fading Embers* the twilight of the American West comes alive through the eyes of Ezra Hawkins a former lawman struggling to find his place in a rapidly changing world As railroads and telegraph lines snake across the once untamed landscape Ezra grapples with outlaws and his own growing obsolescence The novel paints a vivid portrait of frontier life weaving together the stories of settlers Native Americans and ambitious newcomers against the backdrop of historical events like the Gold Rush and the completion of the Transcontinental Railroad Through a series of interconnected vignettes readers are immersed in the moral complexities of frontier justice and the clash between tradition and progress The rugged untamed landscape serves as a character itself mirroring the inner turmoil of those who call it home As Ezra navigates this shifting terrain he confronts not only physical dangers but also profound questions about identity honor and the true cost of civilization With its rich historical detail and exploration of enduring Western myths this novel offers a poignant reflection on the values that shaped a nation and the bittersweet nature of progress

State Building in Boom Times Ryan Saylor, 2014-06-11 Governments that preside over a capable state apparatus can better uphold the rule of law ensure democratic accountability stimulate economic development and provide good governance In the developing world countries differ substantially in their levels of state capacity and ability to achieve these ends leaving scholars and concerned citizens alike wondering about the origins of such inequalities In *State Building in Boom Times* Ryan Saylor argues that commodity booms and coalitional politics are central to understanding variations in state building within and across Latin America and Africa He shows how resource booms can trigger the provision of new public goods and institution building thus helping countries expand their state capacity But these possibilities hinge on coalitional politics as he demonstrates through six cases Countries ruled by export oriented coalitions Argentina Chile and Mauritius expanded their state capacity as a direct result of commodity booms Countries in which exporters were politically marginalized Colombia Ghana and Nigeria missed analogous state building opportunities because ruling coalitions preyed upon export wealth rather than promoting export interests which in turn undercut state building The coalitional basis of these divergent outcomes suggests that contrary to the prevailing belief in a resource curse natural resource wealth does not doom countries to low state capacity Instead export oriented coalitions can harness boom times for

developmental gains even in the context of weak institutions Saylor's work encourages us to reexamine widespread assumptions about the relationship between resource wealth and state building particularly the resource curse State Building in Boom Times elucidates which public policies best serve developing countries trying manage their natural resource wealth
