Shafer,2023-05-16 Parapsychology is a science made controversial by its subjects extrasensory perception psychokinesis mind over matter and disembodied minds which imply life after death Moreover these parapsychological phenomena called psi challenge physicalism the philosophy that everything can be completely understood in terms of physics This book is a snapshot of the parapsychological field with essays written by authors of diverse academic backgrounds and experiences Essays examine parapsychological phenomena from prehistory through the founding of the science by intellectuals distressed by physicalism to the postmodern present It includes both experimental and theoretical evaluations of the phenomena Parapsychology is a science which may overturn the philosophy which has dominated science since Newton and may inspire curious readers who are disheartened by the consequent denial of the spirit **Methods of Social Research, 4th Edition** Kenneth Bailey,2008-06-30 An introduction for undergraduates to every stage of sociological research showing how to deal effectively with typical problems they might encounter The book is fully updated to include examples from the LA riots and the 1992 presidential elections Counseling and Educational Research Rick A. Houser,2019-02-26 Counseling and Educational Research Evaluation and Application prepares readers to be good consumers and evaluators of research Using concrete examples from published articles author Rick A Houser teaches students to take a systematic approach to evaluating professional literature critically and using it responsibly The Fourth Edition covers evidence based research qualitative methods program evaluation and mixed methods includes new discussions on how national accreditation standards in counseling CACREP and education CAEP apply to research and examines how cultural influences can affect the research process Consumer Choice in Historical Archaeology S.M. SpencerWood,2013-06-29 Historical archaeology has made great strides during the last two decades Early archaeological reports were dominated by descriptions of features and artifacts while research on artifacts was concentrated on studies of topology technology and chronology Site reports from the 1960s and 1970s commonly expressed faith in the potential artifacts had for aiding in the identifying socioeconomic status

differences and for understanding the relationships between the social classes in terms of their material culture. An emphasis was placed on the presence or absence of porcelain or teaware as an indication of social status. These were typical features in site reports written just a few years ago. During this same period advances were being made in the study of food bone as archaeologists moved away from bone counts to minimal animal counts and then on to the costs of various cuts of meat. Within the last five years our ability to address questions of the relationship between material culture and socioeconomic status has greatly expanded. The essays in this volume present efforts toward measuring expenditure and consumption patterns represented by commonly recovered artifacts and food bone. These patterns of consumption are examined in conjunction with evidence from documentary sources that provide information on occupations, wealth levels, and ethnic affiliations of those that did the consuming. One of the refreshing aspects of these papers is that the authors are not afraid of documents and their use of them is not limited to a role of confirmation.

Images of the Recent Past Charles E. Orser Jr., 1996-08-15

Historical archaeology has been without a definitive up to date collection that reflects the breadth of the field until now. Orser's book brings together classic and contemporary articles that demonstrate the development of the field over the last twenty years both in North America and throughout the world. Orser's selections represent a wide variety of locales and perspectives and include works by many of the leading figures in the field. Engaging articles make it accessible to any interested reader and superb for historical archaeology classes.
