Meisner, 2018 Meisner offers a new interpretation of four Orphic theogonies Derveni Eudemian Hieronyman and Rhapsodic The fragments of these poems thought to be written by Orpheus contained narratives of the creation of the cosmos and the births of the gods but differed from the mainstream account of Hesiod's Theogony      Greek Art in Motion: Studies in honour of Sir John Boardman on the occasion of his 90th Birthday Rui Morais, Delfim Leão, Diana Rodríguez Pérez, Daniela Ferreira, 2019-03-11 Over 50 papers first presented at the international congress Greek Art in Motion Lisbon 2017 in honour of Sir John Boardman's 90th Birthday are collected here under the following headings Sculpture Architecture Terracotta Metal Greek Pottery Coins Greek History Archaeology Greeks Overseas Reception Collecting Art Myth      **Concepts and Functions of Philhellenism** Martin Vöhler, Stella Alekou, Miltos Pechlivanos, 2021-01-18 Key aspects of philhellenism political self determination freedom beauty individual greatness originate in antiquity and present a complex reception history The force of European philhellenism derives from ancient Roman idealizations which have been drawn on by European movements since the Enlightenment How is philhellenism able to transcend national cultural and epochal limits The articles collected in this volume deal with 1 the ancient conceptualization of philhellenism 2 the actualization and politicization of the term at the time of the European Restoration 1815-30 and 3 the transformation of philhellenism into a pan European movement During the Greek struggle for independence the different receptions of philhellenism regain a common focus philhellenism becomes an inextricable element in the creation of a pan European identity and a starting point for the regeneration and modernization of Greece It is easy to criticize the tradition of philhellenism as being simplistic naïve and self serving but there is an irreducibly utopian element in later philhellenic idealizations of ancient Greece      *The East Face of Helicon : West Asiatic Elements in Greek Poetry and Myth* M. L. West, 1997-10-23 Over the last sixty years scholars have increasingly become aware of links connecting early Greek poetry with the literatures of the ancient Near East Martin West's new book far surpasses previous studies in comprehensiveness demonstrating these links with massive and detailed documentation and showing they are much more fundamental and pervasive than has hitherto been acknowledged Ever since Neolithic times Greek lands lay open to cultural imports from western Asia agriculture metal working writing religious institutions artistic fashions musical instruments and much more Over the last sixty years scholars have increasingly become aware of links connecting early Greek poetry with the literatures of Mesopotamia Anatolia Canaan and Israel Martin West's new book far surpasses previous studies in comprehensiveness demonstrating these links with massive and detailed documentation and showing that they are much more fundamental and pervasive than has hitherto been acknowledged His survey embraces Hesiod the Homeric epics the lyric poets and Aeschylus and concludes with an illuminating discussion of possible avenues of transmission between the

cultural renewal and innovation in Byzantium just as it was in the west In literature the long disused genres of epic satire and the novel or romance took new forms during that century at the same time in language the vernacular made its first tentative literary appearances These developments continued uninterruptedly through the late Byzantine and early modern periods Scholarship since the nineteenth century has been sharply divided over these texts do they represent the first breakthrough of an emergent Modern Greek literature or merely a footnote to the Byzantine learned tradition What in particular do they have to tell us about the collective self definition of the Greek speakers who wrote them roughly during the period 1100 1600 And how has their subsequent reception contributed to defining and consolidating the national identity of the Modern Greeks since the nation state was established in the 1820s The papers collected in this book explore the relation between literary texts and collective consciousness scrutinizing the evidence of the texts themselves in their late or post Byzantine context and assessing how their reception both influenced and was influenced by the processes of nation building in Modern Greece
