Lamberth, 1999-05-20 William James is frequently considered one of America's most important philosophers as well as a foundational thinker for the study of religion. Despite his reputation as the founder of pragmatism, he is rarely considered a serious philosopher or religious thinker. In this new interpretation, David Lamberth argues that James's major contribution was to develop a systematic metaphysics of experience integrally related to his developing pluralistic and social religious ideas. Lamberth systematically interprets James's radically empiricist world view and argues for an early dating, 1895, for his commitment to the metaphysics of radical empiricism. He offers a close reading of *Varieties of Religious Experience* and concludes by connecting James's ideas about experience, pluralism, and truth to current debates in philosophy, the philosophy of religion, and theology, suggesting James's functional experiential metaphysics as a conceptual aid in bridging the social and interpretive with the immediate and concrete while avoiding naive realism.      Annual Catalogue of Lincoln University Lincoln University (Pa.), 1901      **Text-book of Anatomy and Physiology** Diana Clifford Kimber, Carolyn Elizabeth Gray, 1926      **The Human Body** Henry Newell Martin, 1890      **International Bimetalism** Francis Amasa Walker, 1896      Calendar University of Toronto, 1895      Catalog Issue of the Maryville College Bulletin Maryville College, 1900      **The Publishers' Trade List Annual**, 1918      **Educational Review** Nicholas Murray Butler, Frank Pierrepont Graves, William McAndrew, 1897 Vols 19-34 include Bibliography of education for 1899-1906 compiled by James I.
