Eleven Black Kids And An Old White Man:

America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s Elizabeth Hinton, 2021-05-18 Not since Angela Davis's 2003 book *Are Prisons Obsolete* has a scholar so persuasively challenged our conventional understanding of the criminal legal system. Ronald S. Sullivan Jr., *Washington Post*. From one of our top historians a groundbreaking story of policing and riots that shatters our understanding of the post-civil rights era. What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement. Millions of mostly young people defiantly flooded into the nation's streets demanding an end to police brutality and to the broader systemic repression of Black people and other people of color. To many observers the protests appeared to be without precedent in their scale and persistence. Yet as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire*, the events of 2020 had clear precursors and any attempt to understand our current crisis requires a reckoning with the recent past. Even in the aftermath of Donald Trump, many Americans consider the decades since the civil rights movement in the mid-1960s as a story of progress toward greater inclusiveness and equality. Hinton's sweeping narrative uncovers an altogether different history, taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences: the so-called urban riot. Hinton offers a critical corrective: the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions—explosions of collective resistance to an unequal and violent order. As she suggests, if rebellion and the conditions that precipitated it never disappeared, the optimistic story of a post-Jim Crow United States no longer holds. Black rebellion, *America on Fire* powerfully illustrates, was born in response to poverty and exclusion but most immediately in reaction to police violence. In 1968 President Lyndon Johnson launched the War on Crime, sending militarized police forces into impoverished Black neighborhoods. Facing increasing surveillance and brutality, residents threw rocks and Molotov cocktails at officers, plundered local businesses, and vandalized exploitative institutions. Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities, from York, Pennsylvania to Cairo, Illinois to Stockton, California. The central lesson from these eruptions: that police violence invariably leads to community violence. Hinton continues to escape policymakers who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes. The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today. Presenting a new framework for understanding our nation's enduring strife, *America on Fire* is also a warning: rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control and until an oppressive system is finally remade on the principles of justice and equality.

[Why Psychoanalysis?](#) Elisabeth Roudinesco, 2004-03-10 Why do some people still choose psychoanalysis Freud's so called talking cure when numerous medications are available that treat the symptoms of psychic distress so much faster Elisabeth Roudinesco tackles this difficult question exploring what she sees as a depressive society an epidemic of distress addressed only by an increasing reliance on prescription drugs Far from

contesting the efficacy of new medications like Prozac Zoloft and Viagra in alleviating the symptoms of any number of mental or nervous conditions Roudinesco argues that the use of such drugs fails to solve patients real problems In the man who takes Viagra without ever wondering why he is suffering from impotence and the woman who is given antidepressants to deal with the loss of a loved one Roudinesco sees a society obsessed with efficiency and desperate for the quick fix She argues that the talking cure and pharmacology represent not just different approaches to psychiatry but different worldviews The rush to treat symptoms is itself symptomatic of an antiseptic and depressive culture in which thought is reduced to the firing of neurons and desire is just a chemical secretion In contrast psychoanalysis testifies to human freedom and the power of language

A Place Called Appomattox William Marvel, 2016-02-11 Although Appomattox Court House is one of the most symbolically charged places in America it was an ordinary tobacco growing village both before and after an accident of fate brought the armies of Lee and Grant together there It is that Appomattox the typical small Confederate community that William Marvel portrays in this deeply researched compelling study He tells the story of the Civil War from the perspective of those who inhabited one of the conflict's most famous sites The village sprang into existence just as Texas became a state and reached its peak not long before Lee and Grant met there The postwar decline of the village mirrored that of the rural South as a whole and Appomattox served as the focal point for both Lost Cause myth making and reconciliation reveries Marvel draws on original documents diaries and letters composed as the war unfolded to produce a clear and credible portrait of everyday life in this town as well as examining the galvanizing events of April 1865 He also scrutinizes Appomattox the national symbol exposing and explaining some of the cherished myths surrounding the surrender there

Disillusioned Benjamin Herold, 2024-01-23 Astonishingly important Alex Kotlowitz The Atlantic

Through the stories of five American families a masterful and timely exploration of how hope history and racial denial collide in the suburbs and their schools Outside Atlanta a middle class Black family faces off with a school system seemingly bent on punishing their teenage son North of Dallas a conservative white family relocates to an affluent suburban enclave but can't escape the changes sweeping the country On Chicago's North Shore a multiracial mom joins an ultraprogressive challenge to the town's liberal status quo In Compton California whose suburban roots are now barely recognizable undocumented Hispanic parents place their gifted son's future in the hands of educators at a remarkable elementary school And outside Pittsburgh a Black mother moves to the same street where author Benjamin Herold grew up then confronts the destructive legacy left behind by white families like his

Disillusioned braids these human stories together with penetrating local and national history to reveal a vicious cycle undermining the dreams upon which American suburbia was built For generations upwardly mobile white families have extracted opportunity from the nation's heavily subsidized suburbs then moved on before the bills for maintenance and repair came due leaving the mostly Black and Brown families who followed to clean up the ensuing mess But now sweeping demographic shifts and the dawning realization that endless expansion is no longer feasible are disrupting this pattern forcing everyday families to confront a truth their communities were designed to avoid The suburban lifestyle dream is a Ponzi scheme whose unraveling threatens us all How do we come to terms with this troubled history How do we build a future in which all children can thrive Drawing upon his decorated career as an education journalist Herold explores these pressing debates with expertise and perspective Then alongside Bethany Smith the mother from his old neighborhood who contributes a powerful epilogue to the book he offers a hopeful path toward renewal The result is nothing short of a journalistic masterpiece
