**Editing and Special/Visual Effects** Charlie Keil,Kristen Whissel,2016-08-26 Most moviegoers think of editing and special effects as distinct components of the filmmaking process We might even conceive of them as polar opposites since effective film editing is often subtle and almost invisible whereas special effects frequently call attention to themselves Yet film editors and visual effects artists have worked hand in hand from the dawn of cinema to the present day Editing and

Special Visual Effects brings together a diverse range of film scholars who trace how the arts of editing and effects have evolved in tandem Collectively the contributors demonstrate how these two crafts have been integral to cinematic history starting with the trick films of the early silent era which astounded audiences by splicing in or editing out key frames all the way up to cutting edge effects technologies and concealed edits used to create the illusions Throughout readers learn about a variety of filmmaking techniques from classic Hollywood s rear projection and matte shots to the fast cuts and wall to wall CGI of the contemporary blockbuster In addition to providing a rich historical overview Editing and Special Visual Effects supplies multiple perspectives on these twinned crafts introducing readers to the analog and digital tools used in each craft showing the impact of changes in the film industry and giving the reader a new appreciation for the processes of artistic collaboration they involve

**Misunderstanding Media** Brian Winston, 2016-10-04 The 1980s saw constant reports of an information revolution This book first published in 1986 challenges this view It argues that the information revolution is an illusion a rhetorical gambit an expression of profound historical ignorance and a movement dedicated to purveying misunderstanding and disseminating disinformation In this historically based attack on the information revolution Professor Winston takes a hard look at the four central information technologies telephones television computers and satellites He describes how these technologies were created and diffused showing that instead of revolution we just have business as usual He formulates a law of the suppression of radical potential a law which states that new telecommunication technologies are introduced into society only insofar as their disruptive potential is contained Despite the so called information revolution the major institutions of society remain unchanged and most of us remain in total ignorance of the history of technology
