Electroshock The Case Against:

Electroshock Robert F. Morgan, 1999 **Electroshock** Robert F. Morgan, 1991 **Madness, Heresy, and the Rumor of Angels** Seth Farber, 1993 This is a collection of seven true stories of individuals insulted and injured by the mental health system individuals who then fought back broke free and rebuilt their lives *Madness Heresy and the Rumor of Angels* is a work in the tradition of Thomas Szasz R D Laing and Erving Goffman a challenge to the delusional belief system known as psychiatry and a protest against its appalling crimes **Electroconvulsive and Neuromodulation Therapies** Conrad Swartz, 2009-03-02 Electroconvulsive therapy ECT is a psychiatric treatment involving the induction of a seizure through the transmission of electricity in the brain Because of exploitation movies and greatly heightened drug company promotional activities ECT was used less frequently in the 1980s and 1990s Eventually these movies were understood as unrealistic Now these drugs are increasingly recognized as dangers to body health Because of recent refinements and a far better scientific understanding of the clinical procedures and mechanisms underpinning ECT this treatment modality has seen a resurgence in use and widespread appreciation of its safety This book is the new definitive reference on electroconvulsive and neuromodulation therapies It comprehensively covers the scientific basis and clinical practice of ECT as well as comparisons between ECT and medication therapies including the new generation of antipsychotic drugs It also provides readers with administrative perspectives and specific details for the management of this modality in clinical practice The new forms of nonconvulsive electrical and magnetic brain stimulation therapy are also covered in detail in a separate section The chapter authors are leading scholars and clinicians *The Case Against Adolescence* Robert Epstein, 2007 This groundbreaking book argues that adolescence is an unnecessary period of life that people are better off without Robert Epstein former editor in chief of *Psychology Today* shows that teen turmoil is caused by outmoded systems put into place a century ago which destroyed the continuum between childhood and adulthood Where this continuum still exists in other countries there is no adolescence Isolated from adults American teens learn everything they know from their media dominated peers the last people on earth they should be learning from says Epstein Epstein explains that our teens are highly capable in some ways more capable than adults and argues strongly against infantilizing young people We must rediscover the adult in every teen he says by giving young people adult authority and responsibility as soon as they can demonstrate readiness This landmark book will change the thinking about teens for decades to come *Mental Health Ethics* Phil Barker, 2010-11-09 All human behaviour is ultimately a moral undertaking in which each situation must be considered on its own merits As a result ethical conduct is complex Despite the proliferation of Codes of Conduct and other forms of professional guidance there are no easy answers to most human problems *Mental Health Ethics* encourages readers to heighten their awareness of the key ethical dilemmas found in mainstream contemporary mental health practice This text provides an overview of traditional and contemporary ethical perspectives and critically examines a range of ethical and moral challenges present in contemporary

psychiatric mental health services Offering a comprehensive and interdisciplinary perspective it includes six parts each with their own introduction summary and set of ethical challenges covering fundamental ethical principles legal issues specific challenges for different professional groups working with different service user groups models of care and treatment recovery and human rights perspectives Providing detailed consideration of issues and dilemmas Mental Health Ethics helps all mental health professionals keep people at the centre of the services they offer **Women, Madness and the Law** Wendy Chan,Dorothy E. Chunn,Robert Menzies,2012-10-12 This book explores for the first time in an edited collection the intersection of three key research areas women madness and the law and advances the debates on how law and the psy sciences play a critical role in regulating and controlling women s lives *Current List of Medical Literature* ,1959 Includes section Recent book acquisitions varies Recent United States publications formerly published separately by the U S Army Medical Library **Electroconvulsive Therapy** Charlotte Kenton,1985 *Electroconvulsive Therapy* Richard Abrams,2002-06-27 Enthusiastically defending the controversial use of electroconvulsive therapy ECT Abrams psychiatry Chicago Medical School the director of a firm that manufactures ECT devices reviews the practice and its literature He briefly discusses the history of ECT and then outlines current practice and addresses the use of unilateral versus bitemporal ECT He argues against the studies that find ECT to be a dangerous and unhelpful procedure A final chapter considers ethical and legal issues finding that doctors who refuse to subject patients to electroshock are behaving unethically and that malpractice suits are a relatively minor problem Annotation copyrighted by Book News Inc Portland OR **Cumulated Index Medicus** ,1972 [Taking Sides Psychological Issues](#) Brent D. Slife,2004 Presents opposing viewpoints on eighteen controversial psychological issues covering research biology human development mental health and other topics *Epilepsy Bibliography, 1950-1975* J. Kiffin Penry,1976 1771 entries to worldwide literature mostly journal articles Intended as source of current published works on epilepsy also serves as cumulative index to Epilepsy abstracts v 1 9 1967 1976 Classified arrangement under 9 broad headings e g Seizures Etiology and Treatment Entries include bibliographical information with foreign language titles also in English and Epilepsy abstracts citations Keyword subject indexes **Science Tales** Darryl Cunningham,2013-06-01 Previously published as How to Fake a Moon Landing and nominated for the Great Graphic Novels for Teens List from Young Adult Library Services Association this new edition has been updated to include a clinical expos of frackingA graphic milestone of investigative reporting Cunningham s essays explode the lies hoaxes and scams of popular science debunking media myths and decoding some of today s most fiercely debated issues climate change electroconvulsive therapy the moon landing the MMR Measles Mumps and Rubella vaccine homeopathy chiropractic evolution science denialism and new for this edition fracking Thoroughly researched and sourced Cunningham s clear narrative graphic lines and photographic illustration explain complicated and controversial issues with deceptive ease **Taking Sides** Lisa H. Newton,Maureen M. Ford,2004 A debate style reader designed to introduce students to controversies in business ethics

reflecting a variety of viewpoints and representing the arguments of leading business commentators and philosophers

Radical Feminist Therapy Bonnie Burstow, 1992-10-08 This is an interesting book It may be useful for those who have not followed the debate on the experience of women in psychiatric services It provides useful information on ways of working with more disturbed women These are women whom psychiatric services often avoid or at least with whom they do little constructive work The emphasis on offering therapy to these women instead of a bed in an institution was refreshing Andrea Bennett in Clinical Psychology Forum How can counselors and clinicians help empower women in a sexist racist and homophobic society How can they help women reclaim their bodies Or repair their violated bond with womenkind Taking feminist therapy one step further this enlightening volume focuses on a central problem in our society violence against women and explores practical feminist ways of working with women s responses to it depression cutting splitting troubled eating and protest Radical Feminist Therapy explores issues that are usually either omitted or pathologized in generalist feminist counseling texts such as women battered by their pimps women who self mutilate and psychiatrized women Other topics covered are working with lesbians American Indian African American Jewish and immigrant women women with disabilities working with heterosexual couples sexual violation by therapists and working with suicidal clients A list of recommended readings follows each chapter Radical Feminist Therapy addresses the needs of both students and practitioners in the areas of psychology counseling social work and women s studies who desire a comprehensive enlightening text they will refer to again and again Burstow s book should prove very useful as a resource for practitioners in a wide variety of areas dealing with violence against women The first part of the book presents the theoretical foundations the remaining 12 chapters integrate theory and practice Written from a well articulated radical feminist position the text is grounded in structuralist theory that situates problems in living within the systematic oppressions of classism sexism and racism Respect for women and for their right to make their own decisions in therapy permeates the text Choice This book fills a gap in the literature addressed by no other publication I have seen There are numerous theoretical books on feminist counseling or therapy But I have seen nothing which moves from theory to clear practical suggestions on what to do and how to do it when working with women on different problems Bonnie begins by presenting a clear feminist framework in which she sees violence against women in our society as the central problem in all women s lives She explains how this core issue plays itself out in different areas of women s lives and how it is central to the personal problems women struggle with She then goes on to give practical concrete suggestions about how to actually work with women in therapy She warns readers of common pitfalls and how to avoid them It is an extremely cohesive and useful piece of work Linda Advokaat Feminist Counselor Sessional Instructor Carleton University Ottawa Canada As a presentation of theory translated into casework this is the best I have seen in its field a deft integration of politics and philosophy made

relevant and workable in the chosen context Counselling United States Armed Forces Medical Journal ,1952

Brain-Disabling Treatments in Psychiatry Peter R. Breggin,2007-12-17 From the author of Toxic Psychiatry and Talking Back to Prozac Peter Breggin is the conscience of American psychiatry Once more he updates us on the real evidence with respect to the safety and effectiveness of specific psychiatric medications and ECT This information is needed by all mental health professionals as well as patients and families Bertram Karon Ph D Professor of Psychology Michigan State University Author of The Psychotherapy of Schizophrenia Nowhere does false medical thinking do more harm than in the modern psychiatric argument that mental illness is easily diagnosed and then cured by a side effect free drug Nowhere is the correct psychiatric thinking more evident than in the books by Peter Breggin William Glasser MD psychiatrist author of Reality Therapy In Brain Disabling Treatments in Psychiatry renowned psychiatrist Peter R Breggin M D presents startling scientific research on the dangerous behavioral abnormalities and brain dysfunctions produced by the most widely used and newest psychiatric drugs such as Prozac Paxil Zoloft Cymbalta Effexor Xanax Ativan Ritalin Adderall Concerta Strattera Risperdal Zyprexa Geodon Abilify lithium and Depakote Many of Breggin s earlier findings have improved clinical practice led to legal victories against drug companies and resulted in FDA mandated changes in what the manufacturers must admit about their drugs Yet reliance on these drugs has continued to escalate in the last decade and drug company interests have overwhelmed psychiatric practice This greatly expanded second edition supported by the latest evidence based research shows that psychiatric drugs achieve their primary or essential effect by causing brain dysfunction and that they tend to do far more harm than good New scientific analyses in this completely updated edition include Chapters covering every new antidepressant and stimulant drug Twenty new guidelines for how to conduct non drug therapy A chapter describing how to safely withdraw from psychiatric drugs A discussion of medication spellbinding explaining how patients fail to appreciate their drug induced mental dysfunctions Documentation of how the drug companies control research and the flow of information about psychiatric treatments **Quarterly Review of Psychiatry and Neurology** ,1948
